

Information session summary

Pursuant to section 65.1 of the Mining Act, the holder shall hold an information session on annual work planning with each of the representatives referred to in the first paragraph who so request. During an information session, the representative may make observations and present information complementary to that presented by the holder.

The holder shall publish on its website or by another means of publication authorized by the Minister, within 30 days after the information session, the annual work planning and, if applicable, a summary of the information session.

Section 1: Identification of the exploration project

Exclusive exploration right holder	Maple Gold Mines

Section 3: The exchanges						
In this section, please report the questions, requests and comments gathered during your information sessions as well as the answers provided.						
Entity	Date of exchanges	Location of exchanges	Communication method	Gathered questions, requests and comments	Answer from the proponent	Mitigation measures for the impacts
Eeyou Istchee James Bay Regional Government, Laurentia Exploration, Maple Gold Mines	2025-07-22	Teams	Virtual meeting	The Route 2000 road (R1021) has been closed since a culvert gave way in the spring and, unfortunately, it has not yet been repaired. Therefore, this road remains closed to this day.	Would it be relevant to consider repairing it, especially if the forestry industry does not plan any work in this regard?	Assessment of the relevance and costs of repairing the closed road to restore this access.
Eeyou Istchee James Bay Regional Government, Laurentia Exploration, Maple Gold Mines	2025-07-22	Teams	Virtual meeting	Have you determined the accommodation location for the field teams? The closure of the sawmill and the presence of numerous forest fires in this area	The workers could be accommodated in Matagami. However, the exact location has not yet been determined.	Enter text.

Section 3: The exchanges						
In this section, please report the questions, requests and comments gathered during your information sessions as well as the answers provided.						
Entity	Date of exchanges	Location of exchanges	Communication method	Gathered questions, requests and comments	Answer from the proponent	Mitigation measures for the impacts
				reduce the number of possible camps.		
Eeyou Istchee James Bay Regional Government, Laurentia Exploration, Maple Gold Mines	2025-07-22	Teams	Virtual meeting	The Eeyou Istchee James Bay Regional Government mentioned the presence of vacation leases to the west of the Morris Project area.	Laurentia Exploration is already in contact with the leaseholders. During the 2024 work program, the proponent used one of their docks for boat access.	Ensure regular communication with the leaseholders to keep them informed about the progress and planning of upcoming work.
Eeyou Istchee James Bay Regional Government, Laurentia Exploration, Maple Gold Mines	2025-07-22	Teams	Virtual meeting	The Eeyou Istchee James Bay Regional Government informed us that, on the Joutel Property, there is an aquatic reserve along the Hurricana River, as well as a prohibition on any work within 50 metres of the riverbank.	We thanked them for raising this important point. We reassured them by stating that we always comply with the laws and regulations related to the preservation of riparian zones. Furthermore, we will gather more information on this specific area to ensure optimal protection of the environment.	This is an unregistered reserve from the Ministry of the Environment. We will comply with distance standards in order to protect the ecotone. Once the drill hole locations are determined, we will clarify the details with the Ministry of the Environment. The corresponding shapefile will also be sent to the regional government.
