Cautionary Notes Regarding Forward-Looking Statements

This Corporate Presentation ("Presentation") includes "forward-looking information" and "forward-looking statements" (collectively referred to as "forward-looking statements") within the meaning of applicable Canadian securities legislation, Section 27A of the Securities Act of 1933 in the United States of America, as amended, (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934 in the United States of America, as amended, (the "Exchange Act"). All statements other than statements of historical facts included in this Presentation, including, without limitation, those regarding Maple Gold's opinions and beliefs, financial position, business strategy, budgets, mineral resource estimates, estimates of enterprise value per resource ounce, ongoing or future development and exploration opportunities and projects, drilling, re-logging, geochemical and geological modeling plans, publication of updated mineral resource estimates, classification of mineral resources, and plans and objectives of management for properties and operations and future listing of warrants are forward-looking statements. Generally, forward-looking statements can be identified in this Presentation, without limitation, by the use of words or phrases such as "estimate", "project", "anticipate", "expect", "intend", "believe", "hope", "may" and similar expressions, as well as "will", "shall" and all other indications of future tense.

Forward-looking statements are based on certain estimates, expectations, analysis and opinions that management believed reasonable at the time they were made or in certain cases, on third party expert opinions. These forward-looking statements were derived utilizing numerous assumptions regarding expected growth, results of exploration and development, performance and business prospects and opportunities, general business and economic conditions, interest rates, the supply and demand for, deliveries of, and the level and volatility of prices of gold and related products, regulatory and governmental approvals, market competition, accuracy of mineral resource estimates and geological, operational and price assumptions on which such estimates are based, conditions in financial markets, future financial performance of Maple Gold, our ability to attract and retain skilled staff, our ability to procure equipment and supplies and results of exploration and development activities. While Maple Gold considers these assumptions to be reasonable, based on information currently available, they may prove to be incorrect. Forward-looking statements should not be read as a guarantee of future performance or results. To the extent any forward-looking statements constitute future-oriented financial information or financial outlooks, as those terms are defined under applicable Canadian securities laws, such statements are being provided to describe the current anticipated potential of Maple Gold and readers are cautioned that these statements may not be appropriate for any other purpose, including investment decisions.

Such forward-looking statements involve known and unknown risks and uncertainties and other factors that may cause our actual events, results, performance or achievements to be materially different from any future events, results, performance or achievements expressed or implied by such forward-looking statements. Risks and uncertainties that may cause actual events, results, performance or achievements to vary materially include, but are not limited to, risks inherent to mineral exploration and development activities, changes in gold prices, changes in interest and currency exchange rates, inaccurate geological and metallurgical assumptions, unanticipated operational difficulties, government action or delays in the receipt of government approvals, adverse weather conditions, unanticipated events related to health, safety and environmental matters, labour disputes, failure of counterparties to perform their contractual obligations, changes or further deterioration in general economic conditions, and other risks discussed under the heading "Risks an d Uncertainties" in Aurvista's most recently filed MD&A.The foregoing list is not exhaustive of all factors and assumptions which may have been used. We cannot assure you that actual events, performance or results will be consistent with these forward-looking statements and management's assumptions may prove to be incorrect. Our forward-looking statements reflect Aurvista's views as at the date of this Presentation. Except as may be required by law or regulation, Aurvista undertakes no obligation and expressly disclaims any responsibility or obligation or undertaking to publicly release any updates or to revise any forward-looking statements, whether as a result of new information, future events or otherwise to reflect any change in Aurvista's expectations or any change in events, conditions or circumstances on which any such statement is based. Given these uncertainties, readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date made.

Qualified Persons

The scientific and technical data contained in this presentation was reviewed and prepared under the supervision of Fred Speidel, M. Sc, P. Geo., Vice-President Exploration, of Aurvista. Mr. Speidel is a Qualified Person under National Instrument 43-101 Standards of Disclosure for Mineral Projects. Mr. Speidel has verified the data related to the exploration information disclosed in this news release through his direct participation in the work. Certain scientific and technical information with respect to the Douay Gold Project contained in this Presentation has been taken from the technical report entitled "NI 43-101 F1 Technical Report Updated Resource Estimate For The Douay Gold Project, Douay Township, Quebec, Canada" with an effective date of February 15, 2017 (the "Technical Report") authored by William J. Lewis, B.Sc., P.Geo., Richard M. Gowans, B.Sc. P.Eng. and Antoine Yassa, P.Geo. A copy of the Technical Report is available on Maple Gold's SEDAR profile at www.sedar.com. Detailed descriptions, results and analysis of Aurvista's data verification, drilling, QA/QC programs, and mineral resource estimation methodology can be found in the Technical Report.

Cautionary Note to US Investors Concerning Resource Estimates

Information in this Presentation is intended to comply with the requirements of the TSX-Venture and applicable Canadian securities legislation, which differ in certain respects with the rules and regulations promulgated under the United States Securities Exchange Act of 1934, as amended ("Exchange Act"), as promulgated by the Securities and Exchange Commission. The Reserve and Resource estimates in this Presentation were prepared in accordance with National Instrument 43-101 – Standards of Disclosure for Mineral Projects ("NI 43-101) adopted by the Canadian Securities Administrators. The requirements of NI 43-101 differ significantly from the requirements of the United States Securities and Exchange Commission.

PLAN DE PRESENTATION

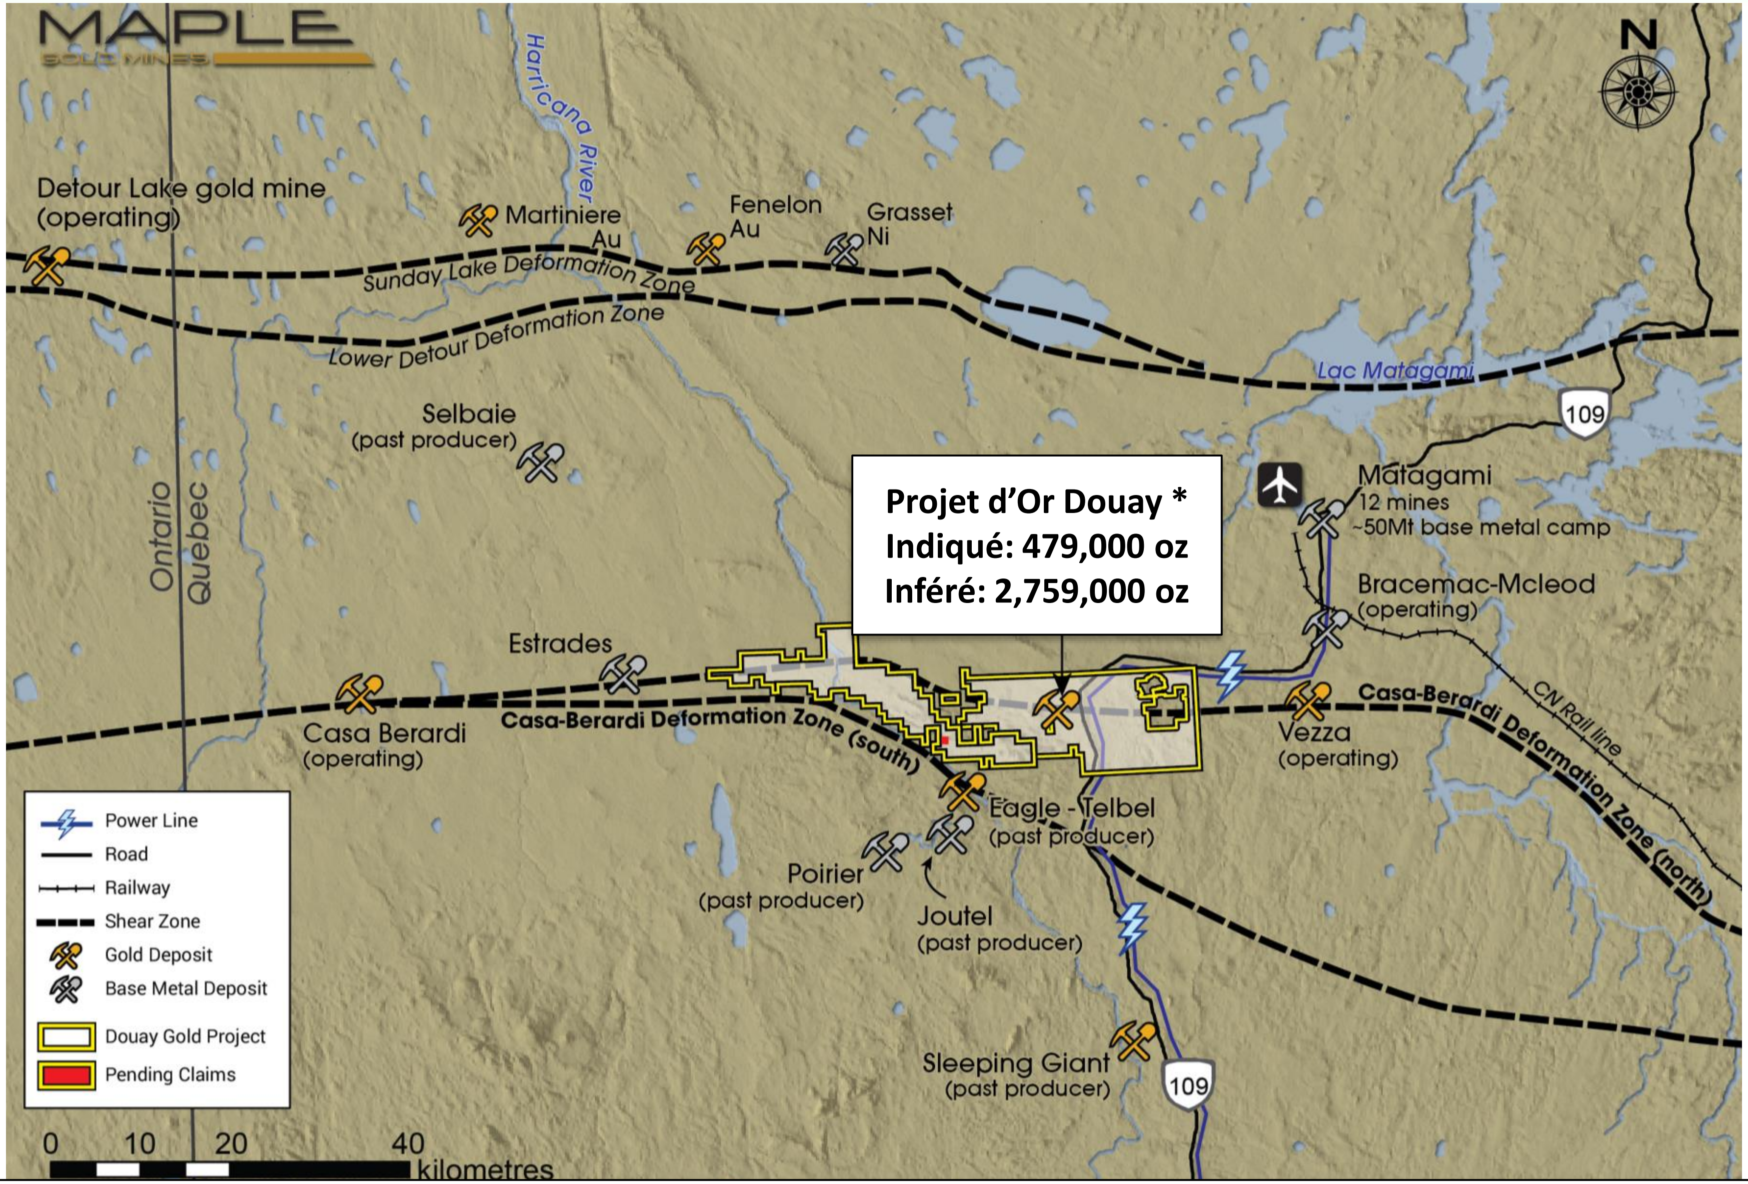
MINES D'OR MAPLE

- Perfil de l'Entreprise
- Localisation Régionale
- Historique
- Géologie
- Géophysique
- Résultats d'Exploration
- Faits Saillants et Plan Futurs

PERFIL DE L'ENTREPRISE

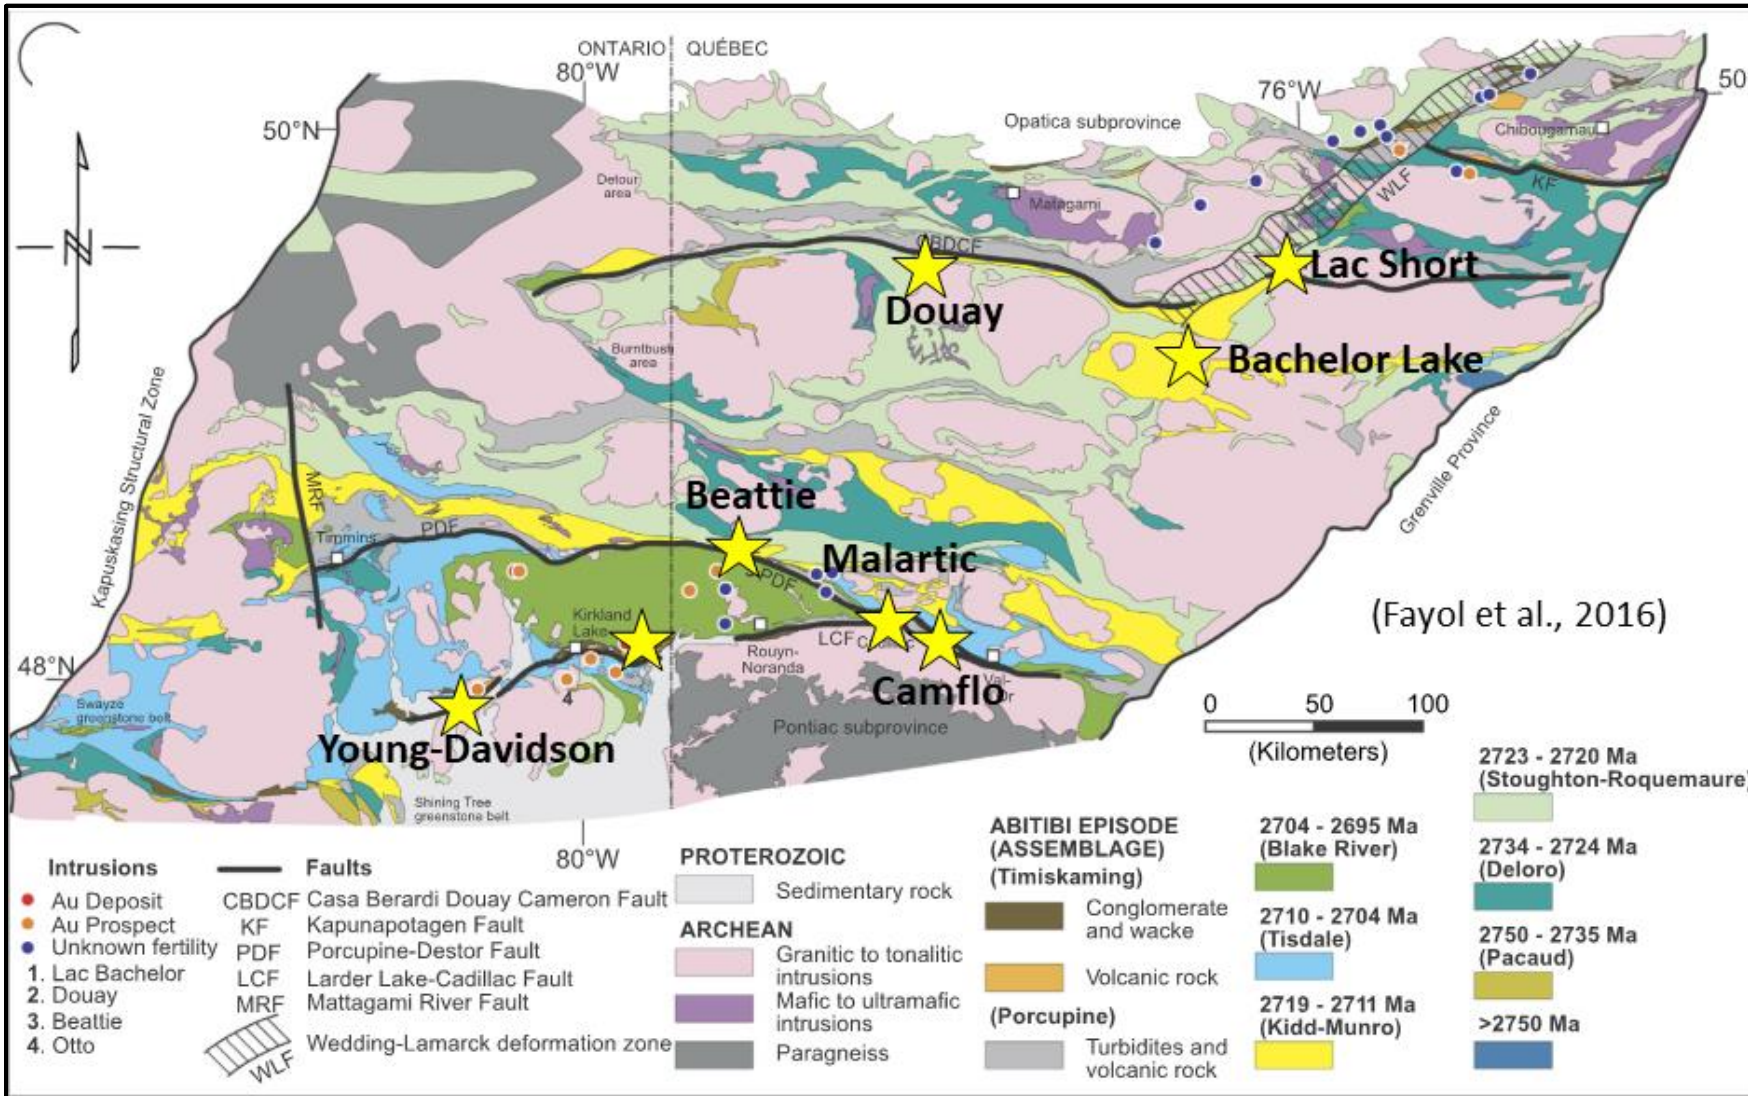
- Fondation d'Aurvista Gold en 2010, prise en charge du projet Douay, et ré-initiation des explorations en 2011
- Restructuration de l'Entreprise en 2017, incluant PDG, Conseil de Direction, Exécutif et équipe d'exploration.
- Changement de nom en Novembre 2017: Aurvista Gold devient Maple Gold Mines
- Personnes clé de la nouvelle entreprise sont ex-Ivanhoe Mines, entreprise avec plusieurs découvertes à son palmarès en Afrique
- Dirigeant du Comité Technique et V.P. Exploration ont débuté leur carrière (géologue d'exploration) en Abitibi, avant de poursuivre une carrière internationale

LOCALISATION REGIONALE



***Estimé de ressources avec teneur de coupe de 0.45 g/t Au. SVP se référer au communiqué de presse du 14 Février, 2018**

GISEMENTS AURIFÈRES RELATIONNÉS AVEC SYSTÈMES INTRUSIFS EN ABITIBI



HISTORIQUE

MINES D'OR MAPLE

INCO GOLD
1976
4 DDH (579m) découverte de la “Main Zone”

VIOR
1986 ➡ 1995
354 DDH (99,800m) découverte de la Zone Douay West
PEA pour Douay Ouest complété (357kt @ 7.2 g/t Au)

AURIZON
1996 ➡ 2000
47 DDH (15,600m)
Infrastructure d’exploitation souterraine établie
(abandon d’option en 2000, chute prix Au)

VIOR
2004 ➡ 2011
102 DDH (30,100m)
découverte de la Zone Porphyre
Etude de Faisabilité complétée pour Douay Ouest

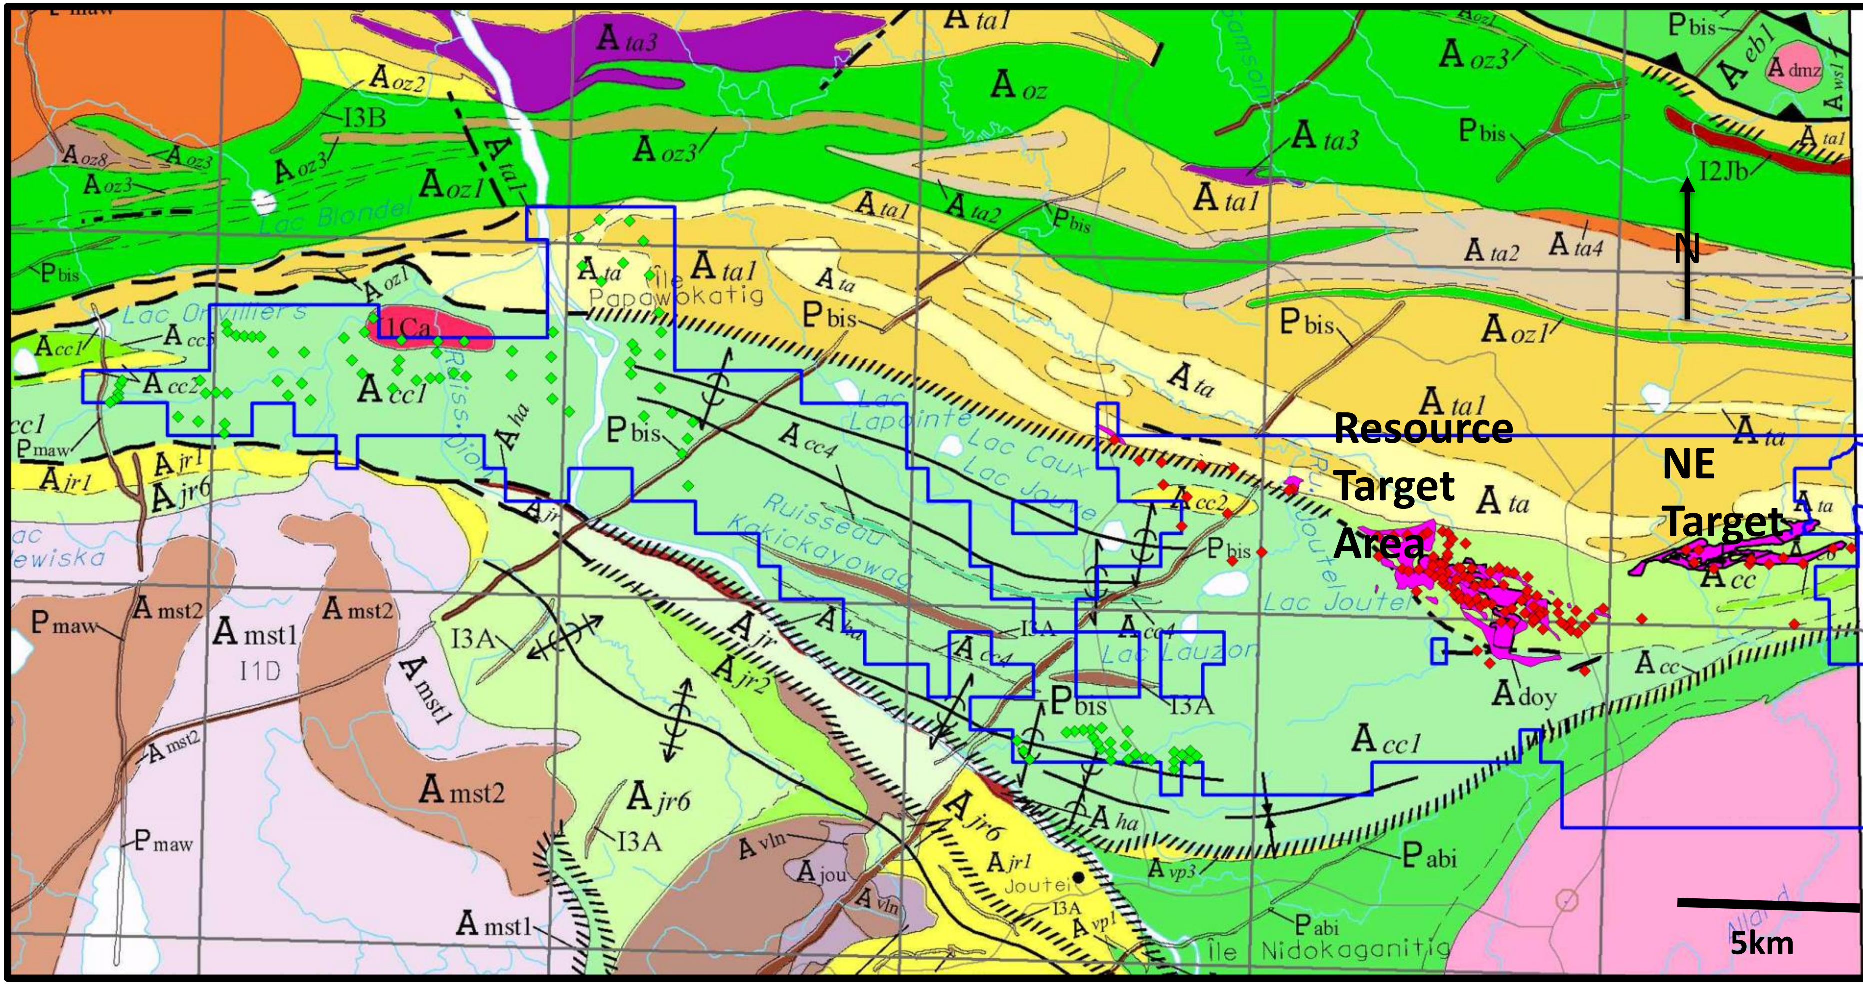
AURVISTA GOLD
2011 ➡ 2017
182 DDH (66,000m)
Etablissement d’une ressource inférée actualisée: 2.8M Oz Au

MAPLE GOLD
Nouvelle équipe et vision
Ressource Au actualisée*: 0.48Moz indiquées+2.76Moz inférées.
Forage hiver 2018 >20,000m

MAPLE GOLD MINES
Nov 2017 ➡

**** Ressource avec teneur de coupe = 0.45 g/t Au (Micon 2018), incluant forages jusqu’en Mai 2017***

GEOLOGIE

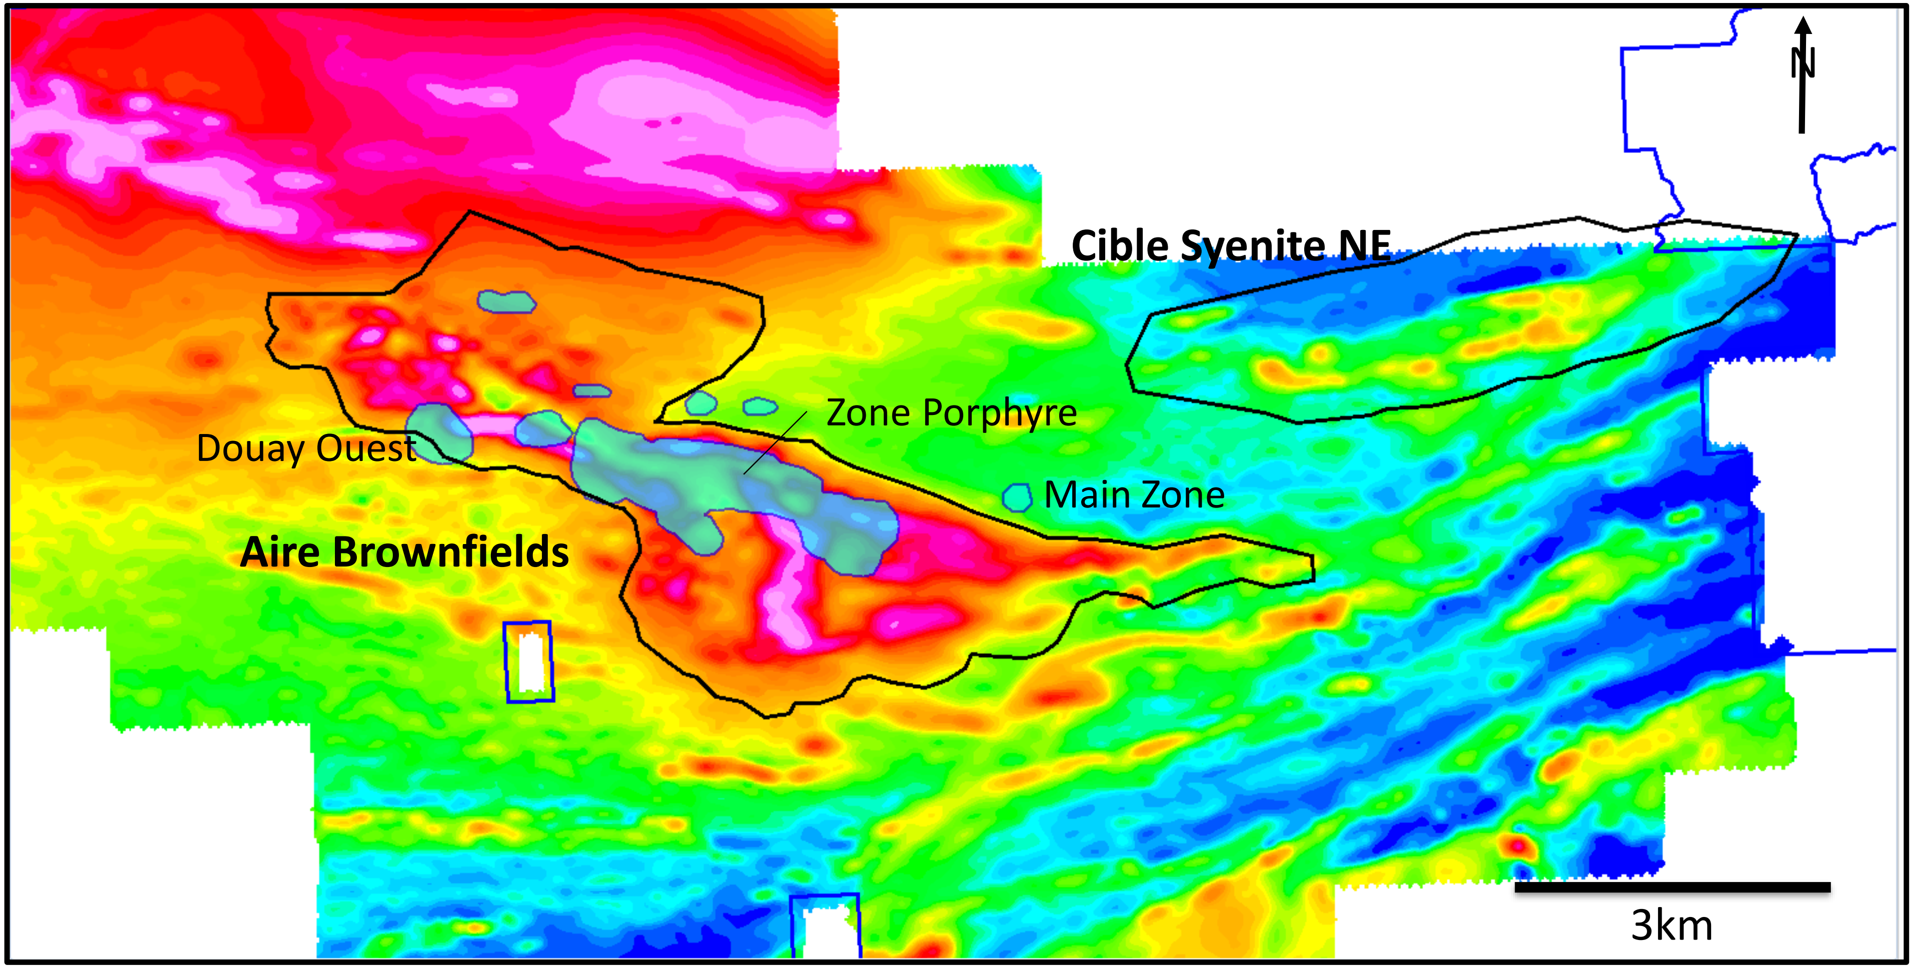


Géologie Régionale de la Propriété Douay

- Sites approuvés pour forages de mort-terrain
- Sites approuvés pour forage au diamant

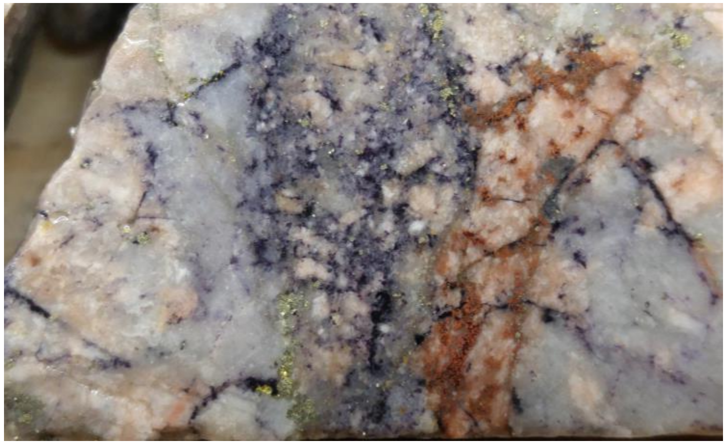
GEOPHYSIQUE (1DV SUSCEPTIBILITE MAG)

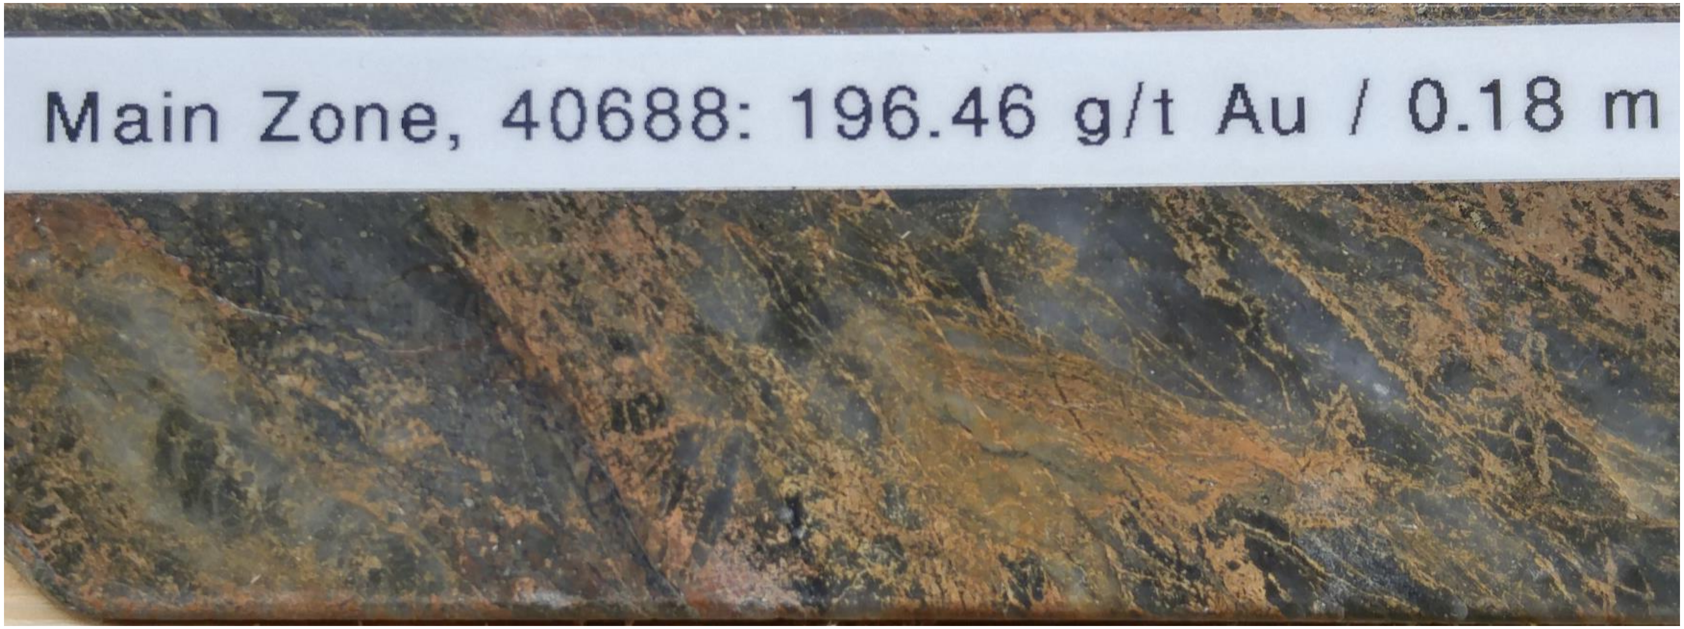
MINES D'OR MAPLE



Noter patron magnétique caractéristique de bas magnétiques irréguliers allongés dans la parte centrale de l’aire Brownfields, avec hauts magnétiques périphériques, la minéralisation se trouvant de part et d’autre. Le relief magnétique inférieur du côté de la Syénite NE réflète la prédominance de roches sédimentaires et pyroclastiques plutôt que de basaltes qui sont communs dans l’aire Brownfields.

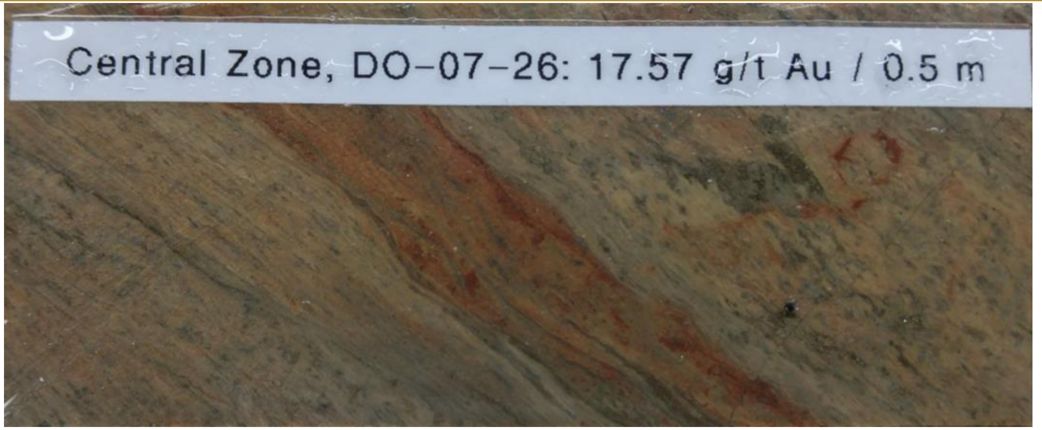
PHOTOGRAPHIES DE CAROTTES DE FORAGE

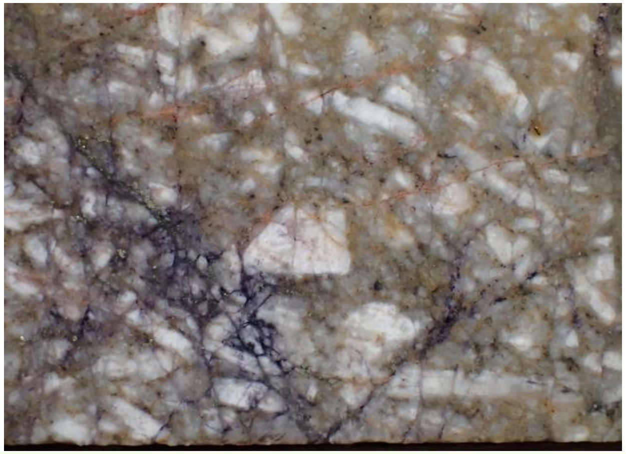


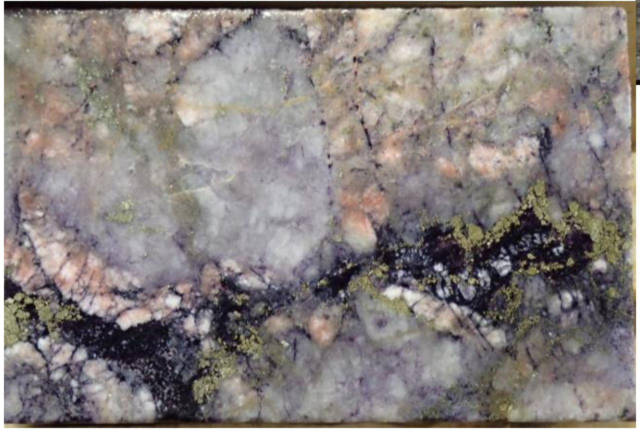


*** Les intervalles donnés ci-haut sont le long du forage; la largeur réelle est d'environ 90% de l'intervalle donné**

PHOTOGRAPHIES DE CAROTTES DE FORAGE



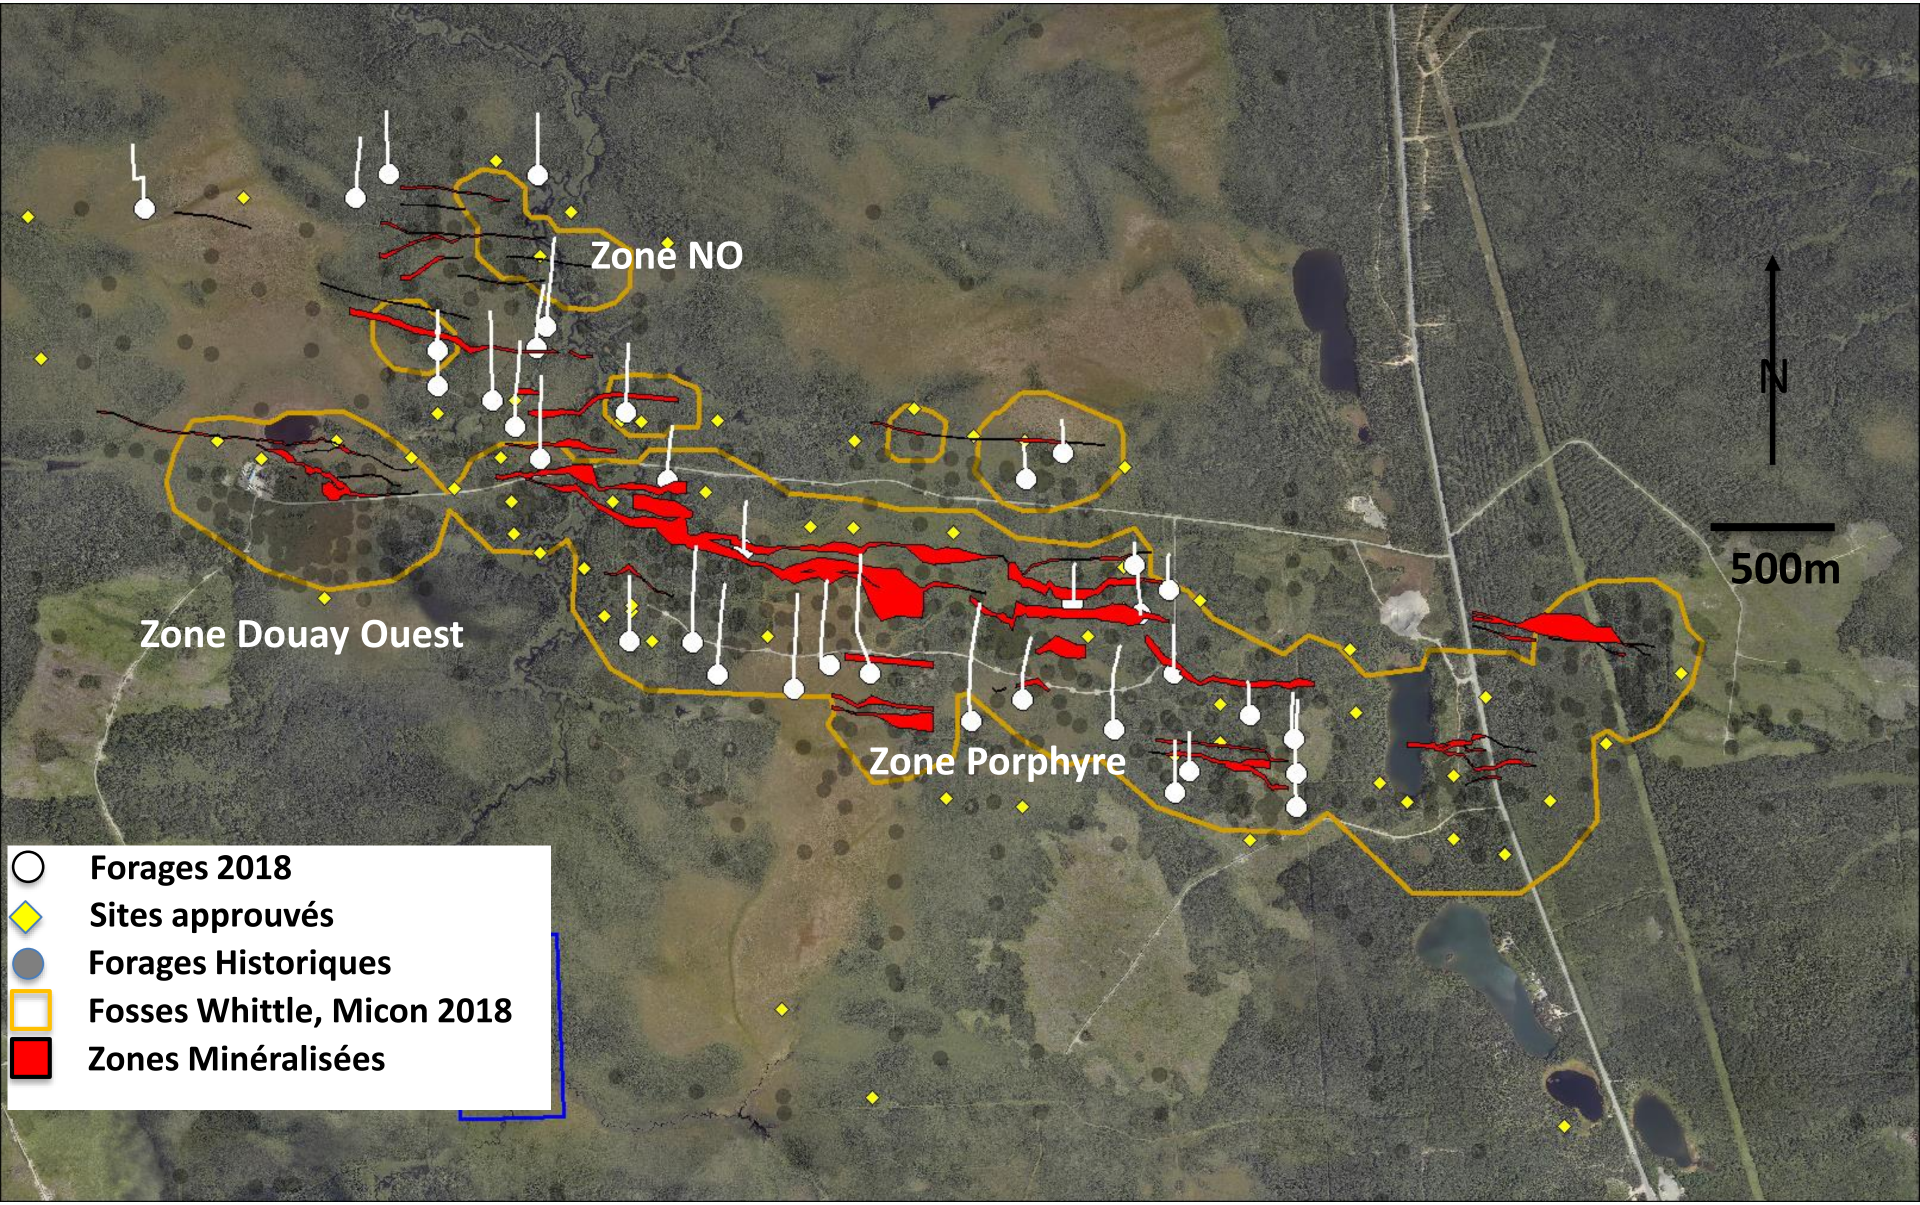




*** La largeur réelle est d'environ 90% de l'intervalle donné ci-haut**

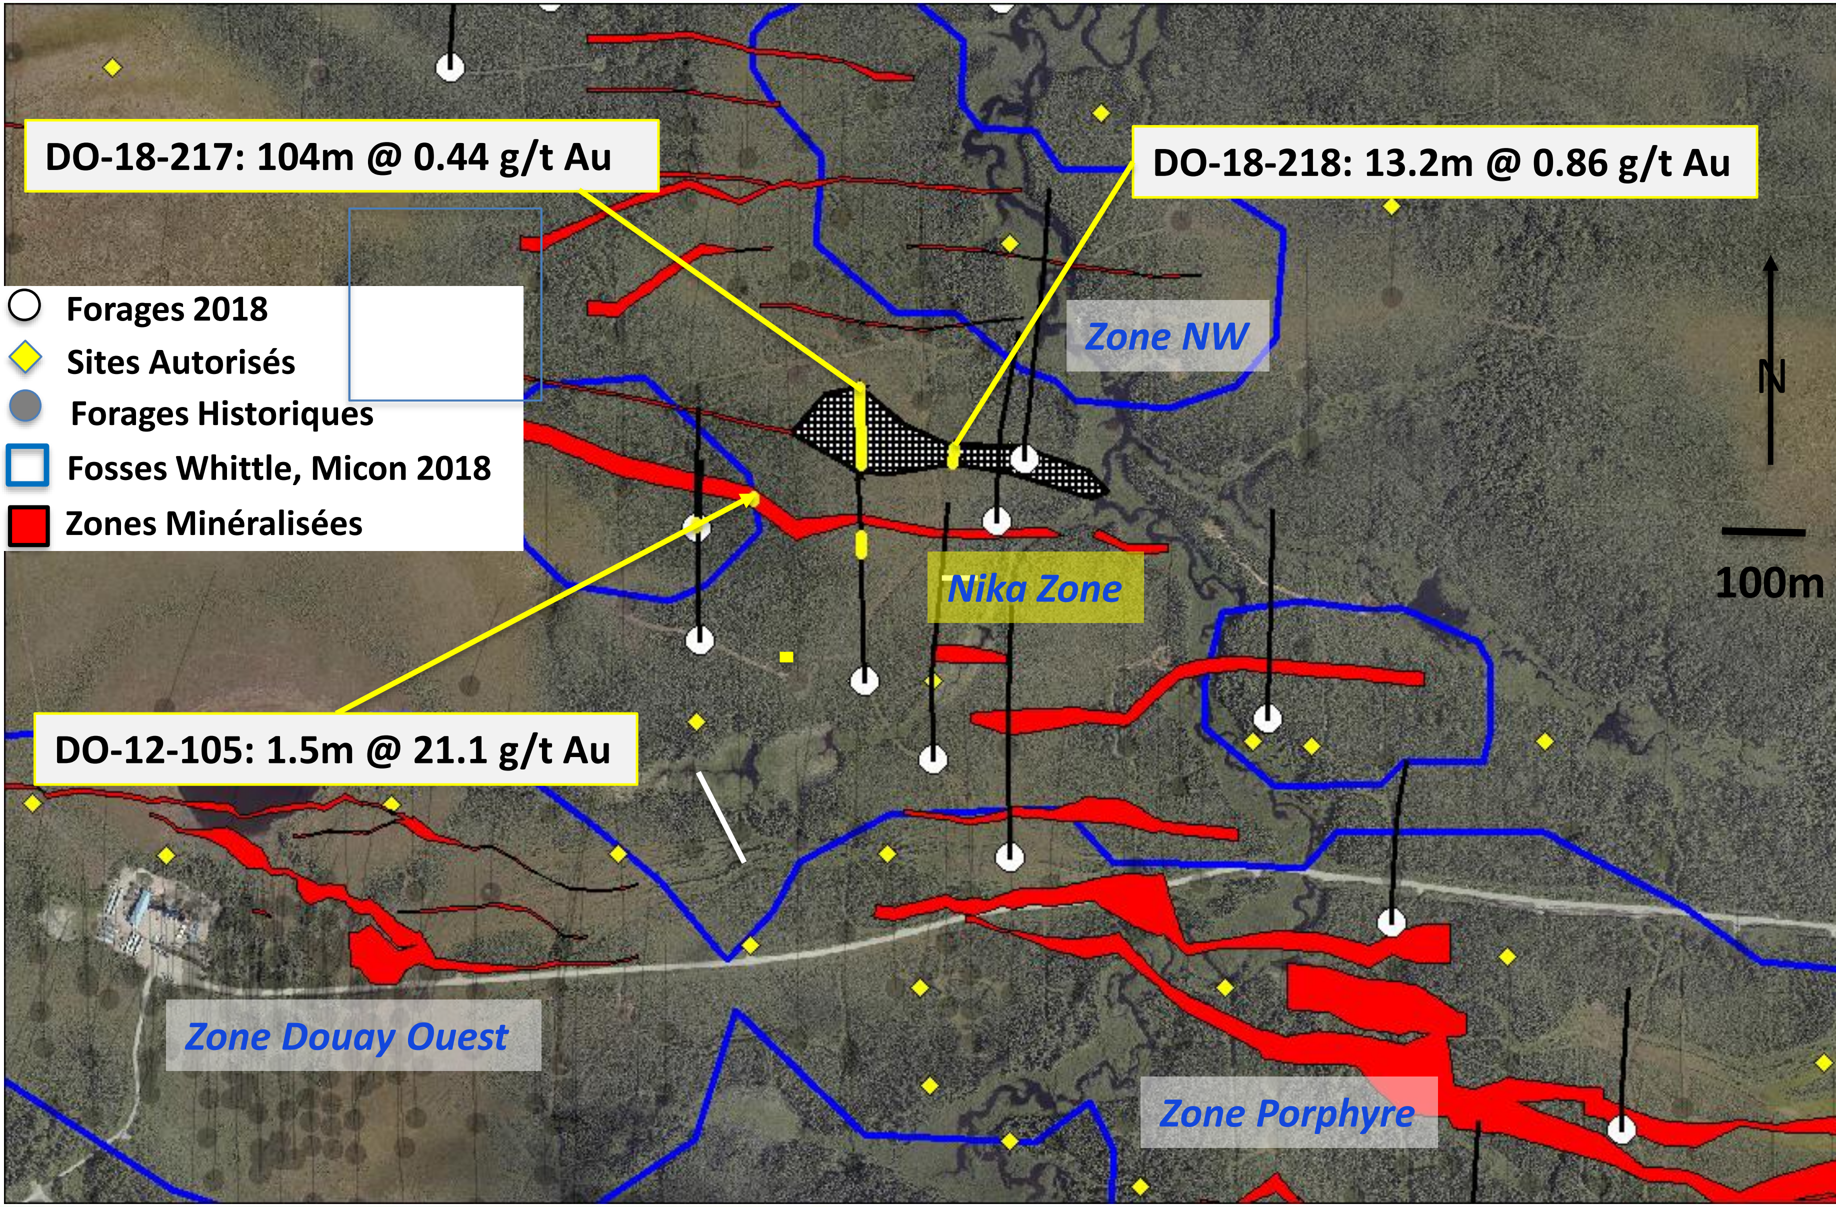
RESULTATS D'EXPLORATION 2018-ZONE BROWNFIELDS

MINES D'OR MAPLE

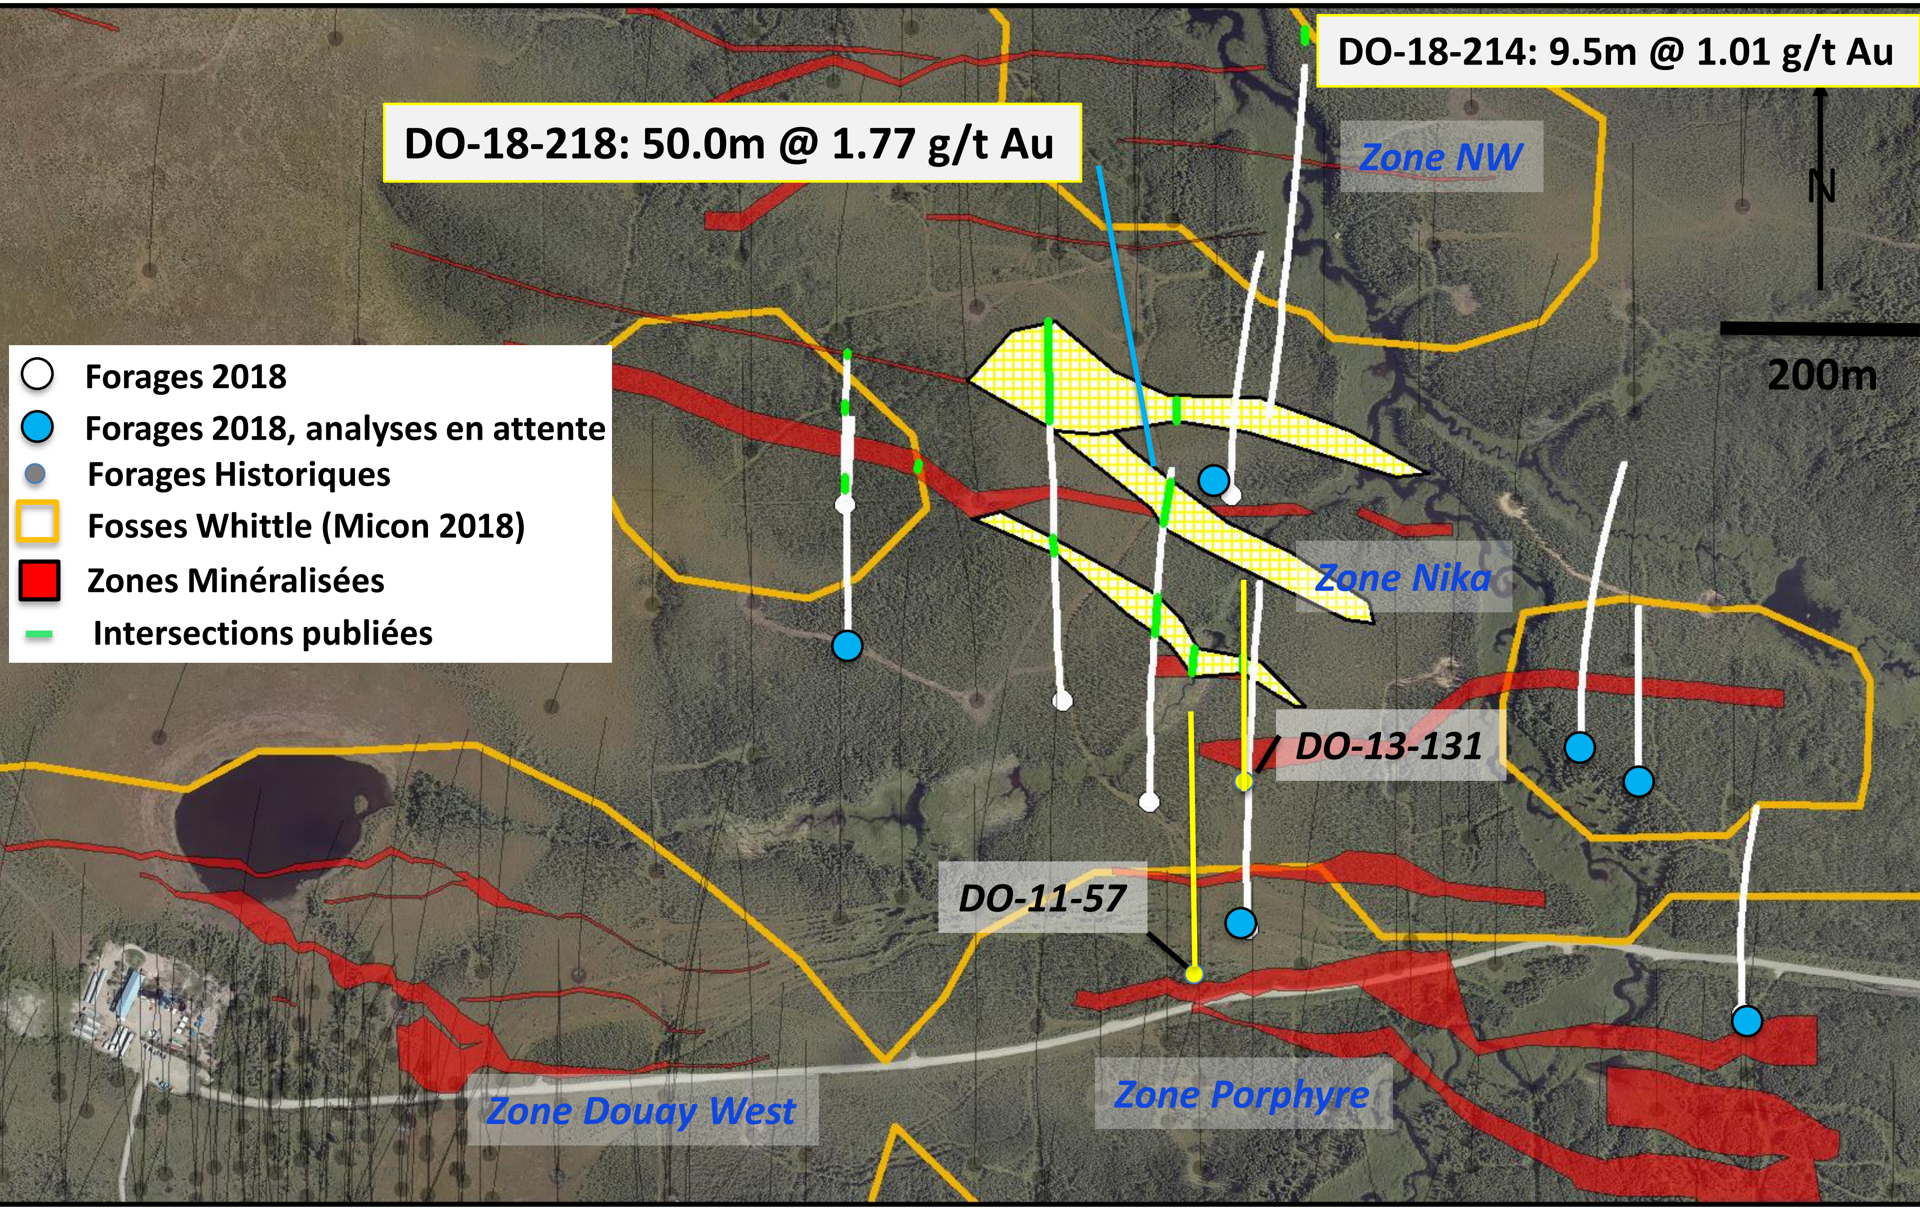


RÉSULTATS D'EXPLORATION 2018: Nouvelle Zone Nika

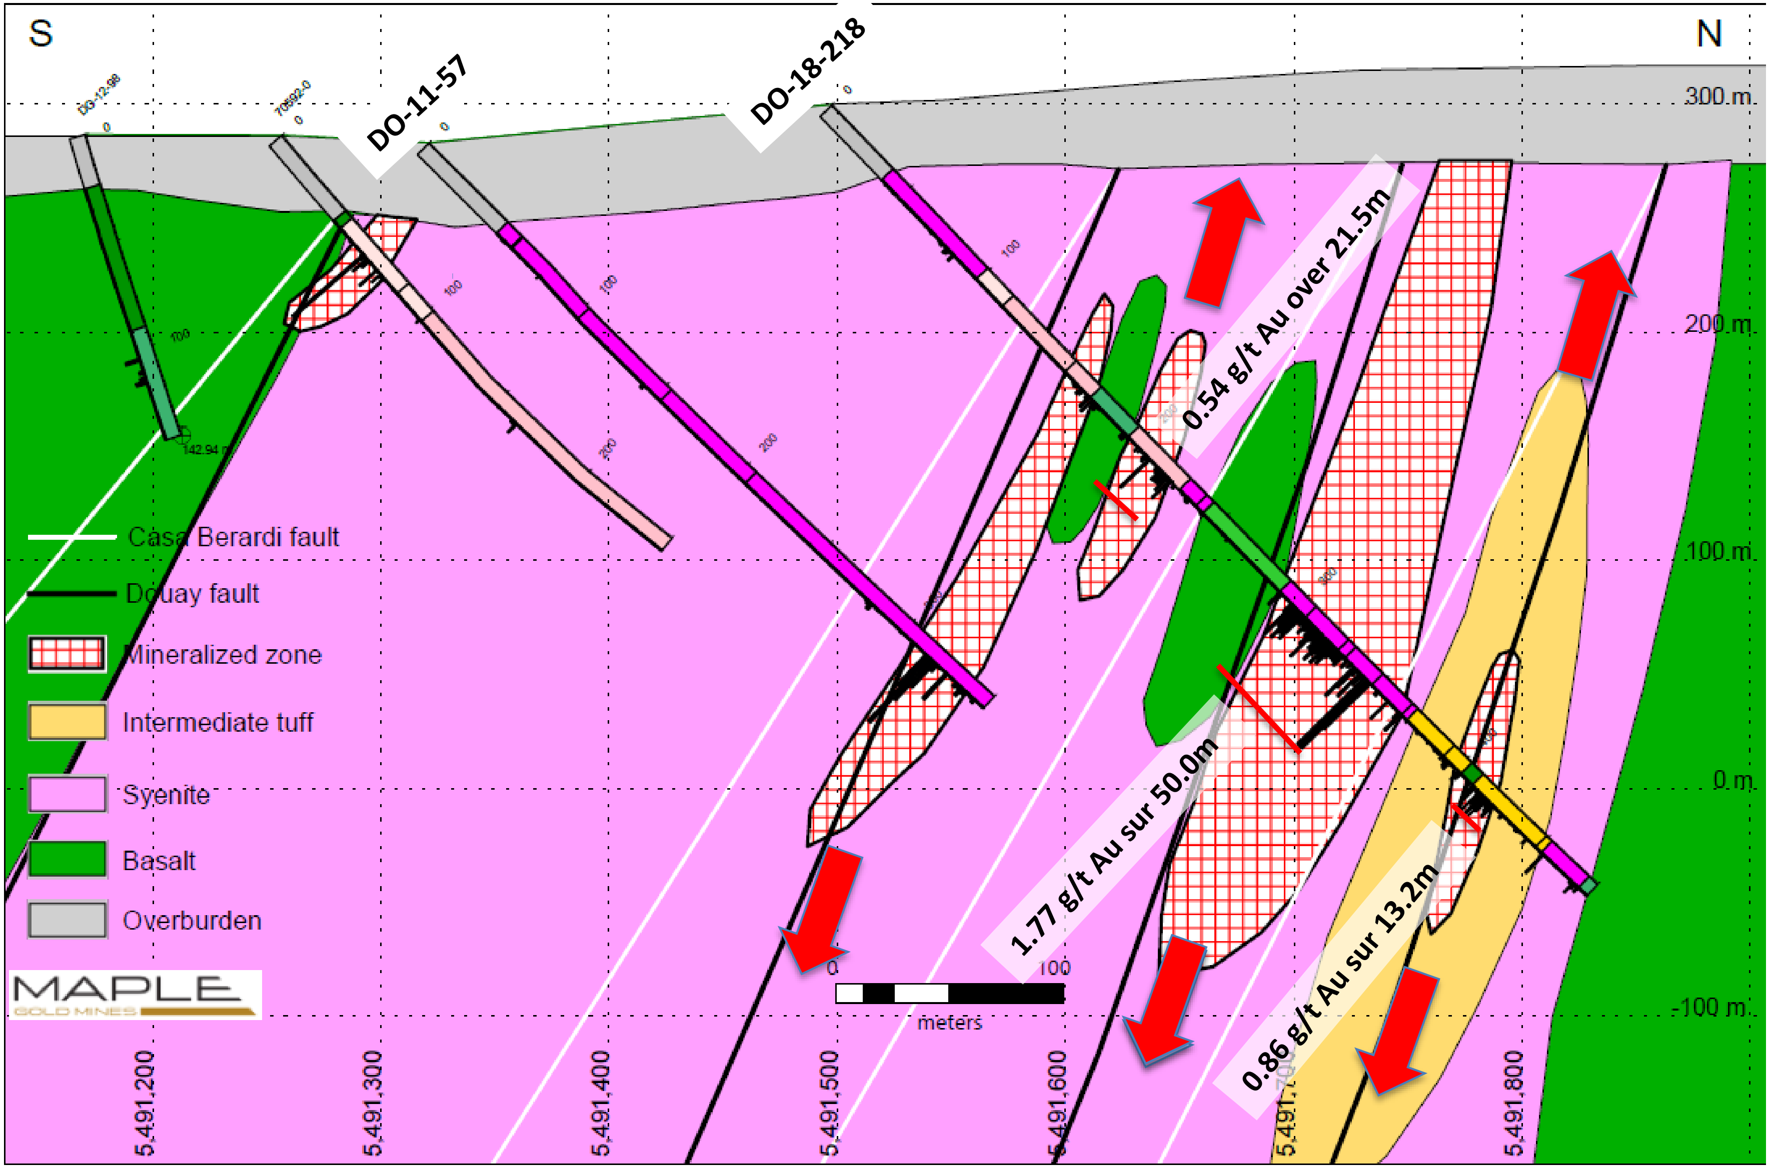
MINES D'OR MAPLE



DO-18-218 area on LIDAR image



Douay Section 705200



Photos DO-18-218

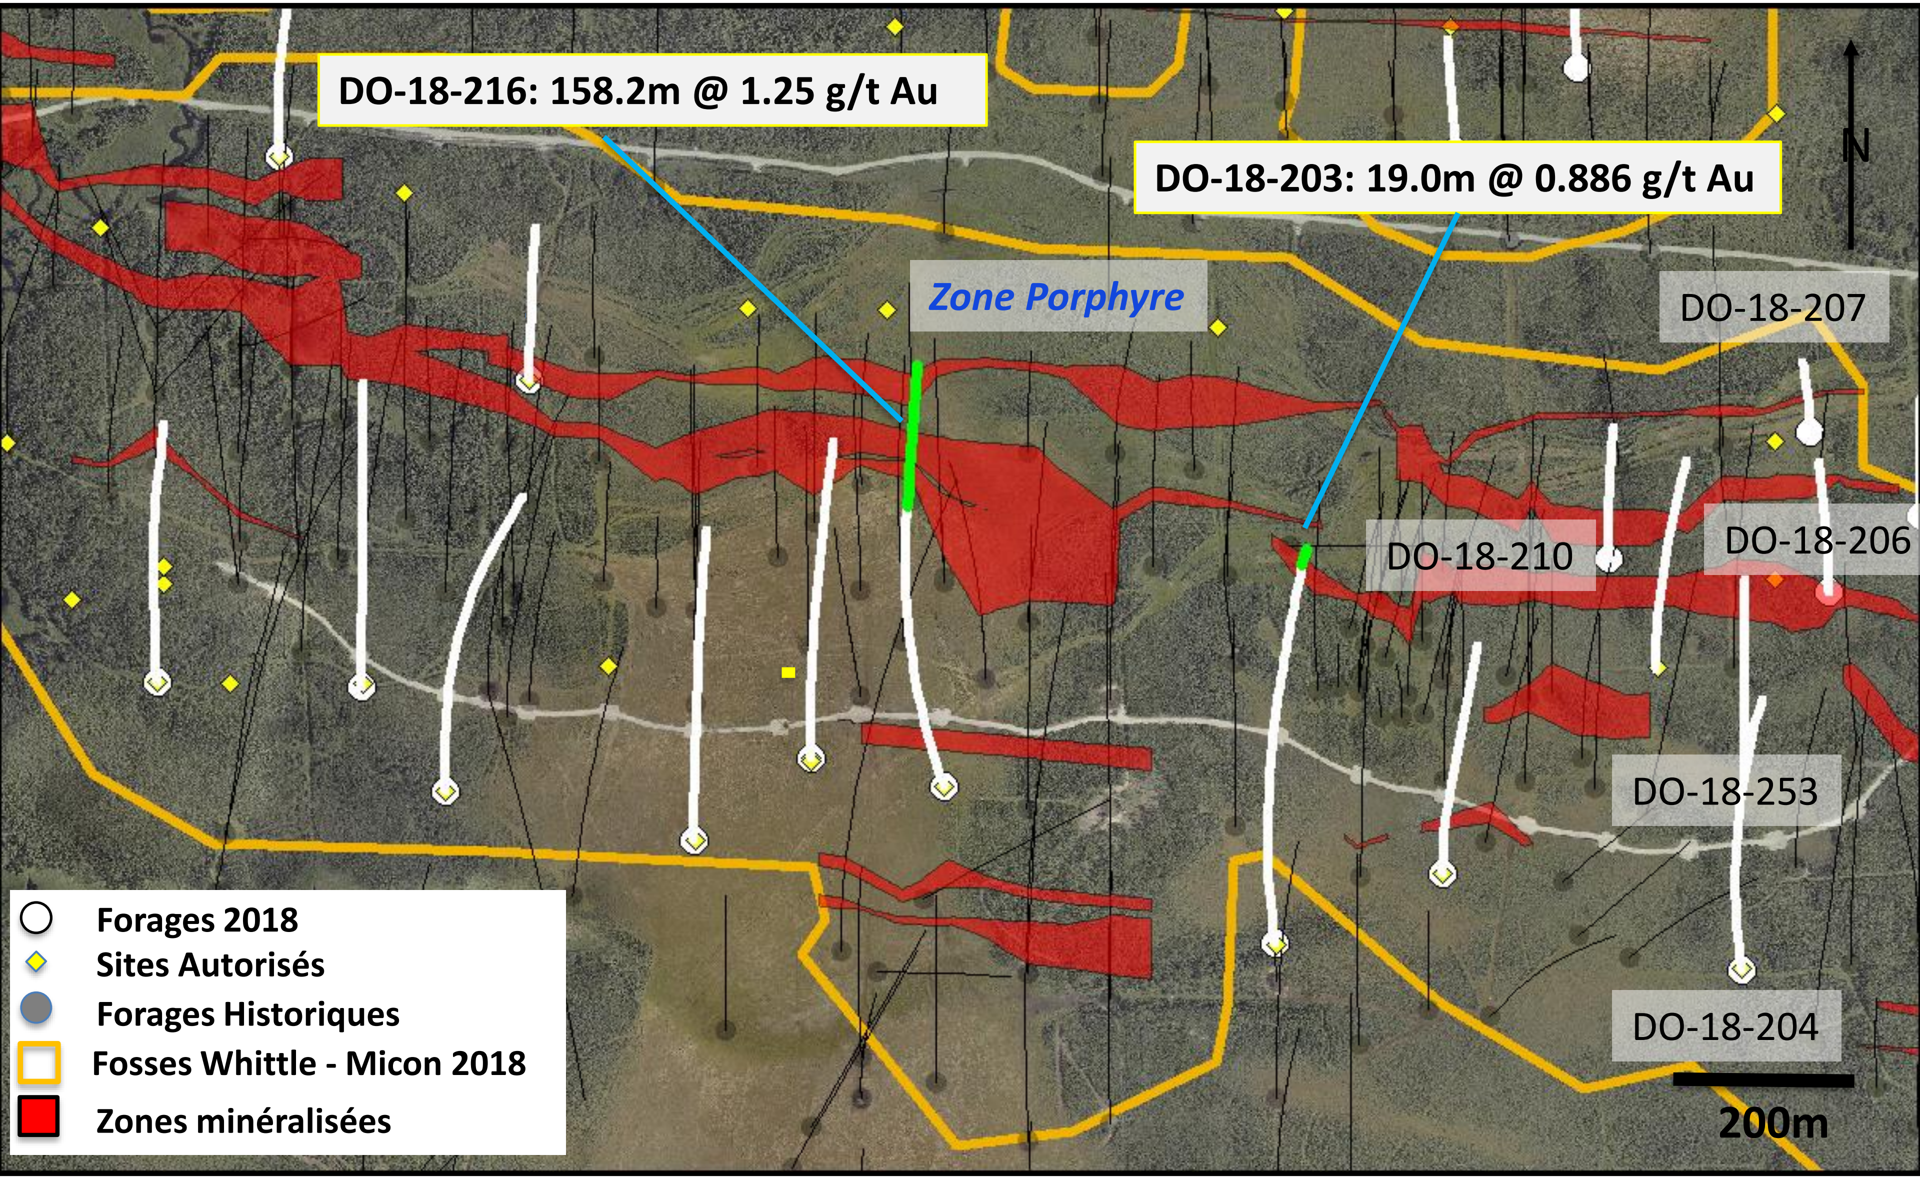
Syénite rose pâle avec veinules de pyrite-(fluorite), provenant d'un échantillon ayant donné **2.44 g/t Au**. Diamètre de la carotte = 47mm.

Photos DO-18-218

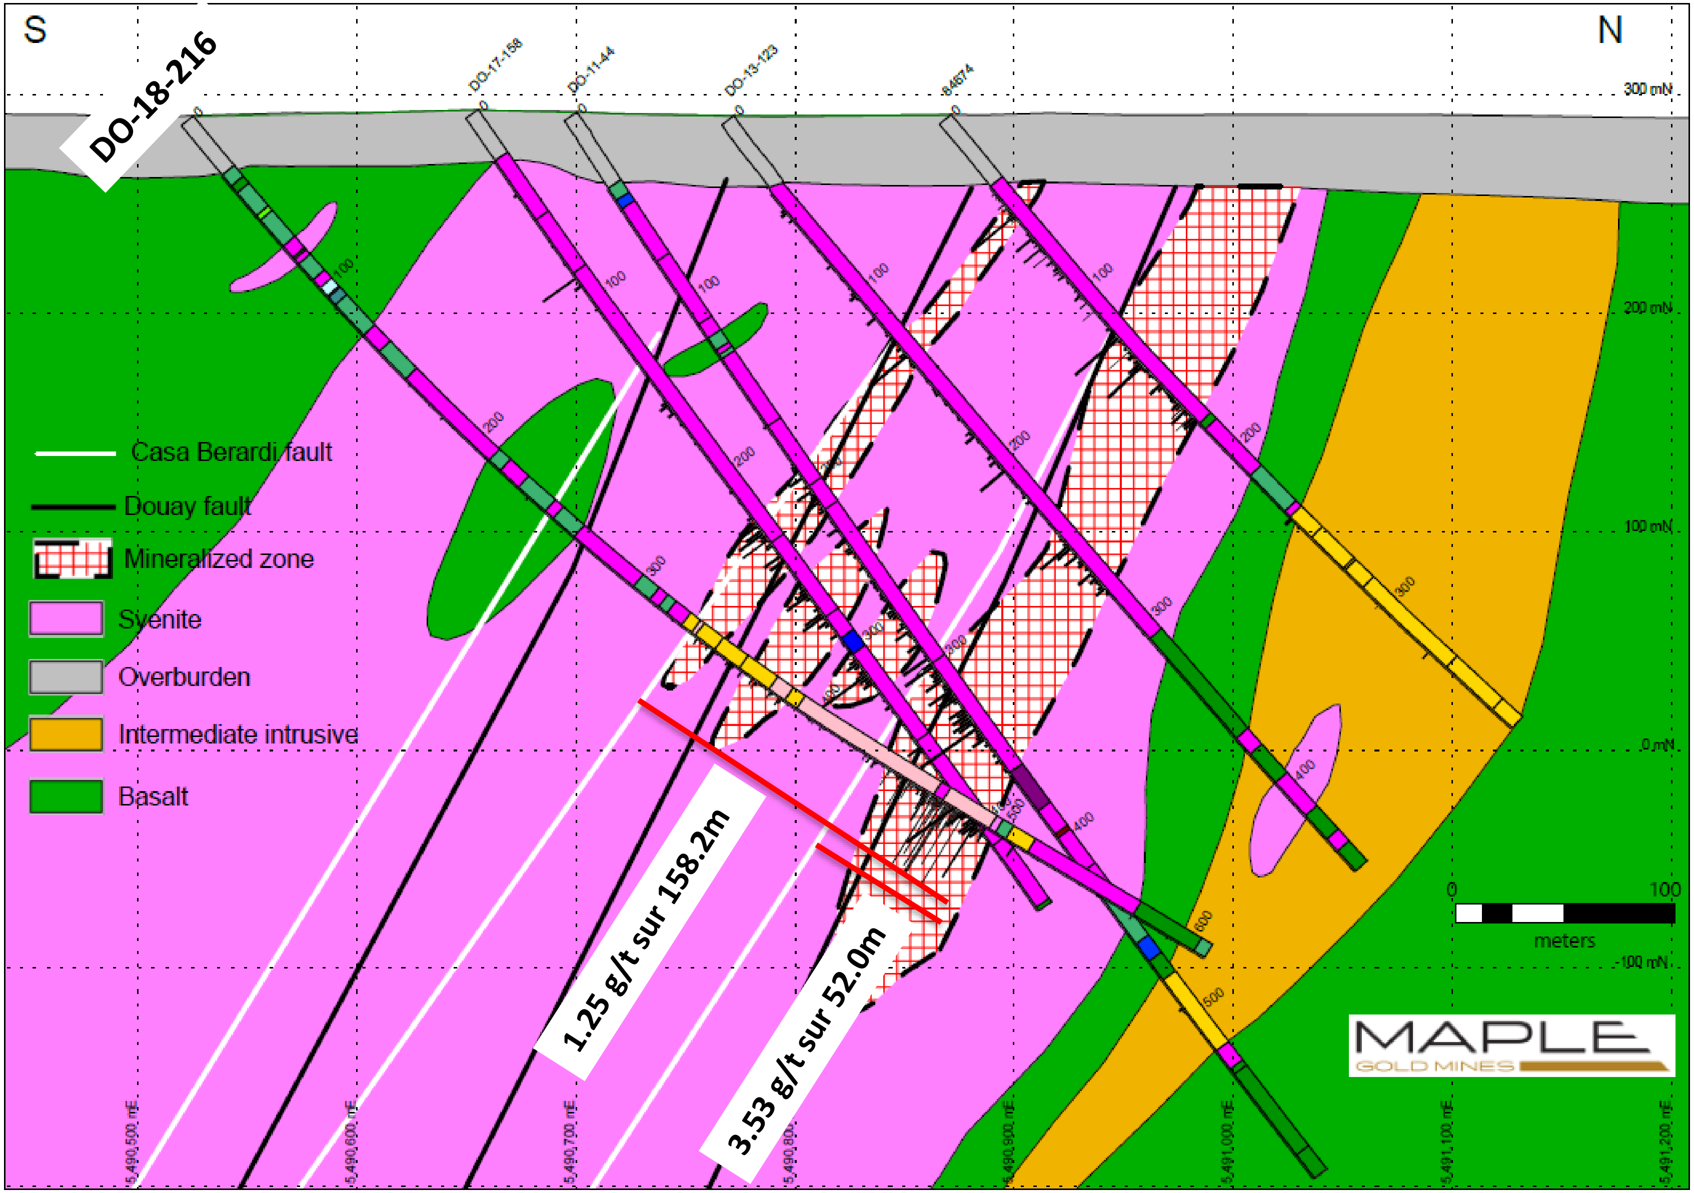
Syénite rose à rouge fortement fracturée avec abondante pyrite disséminée et en veinules, provenant d'un échantillon ayant donné **9.22 g/t Au**. Diamètre de la carotte = 47mm

RÉSULTATS D'EXPLORATION 2018 – Zone Porphyre

MINES D'OR MAPLE

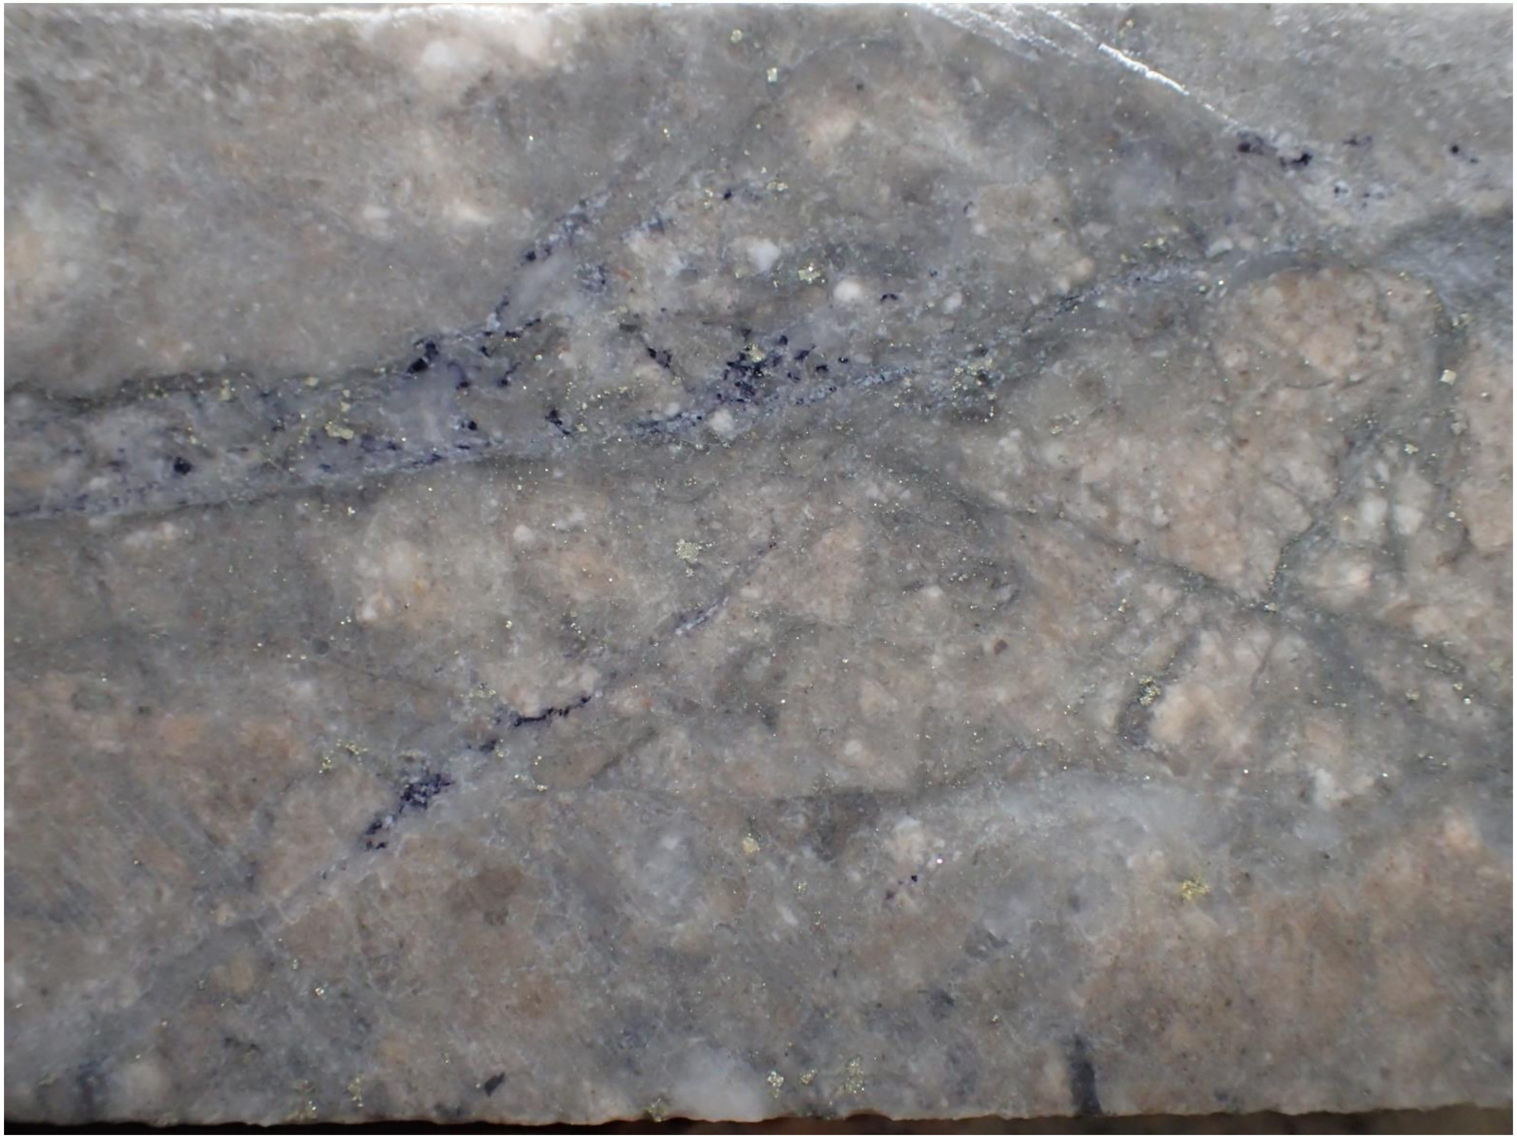


Douay Section 706600 – Zone Porphyre



Photos de DO-18-216 (haute teneur)

MINES D'OR MAPLE



Syénite porphyrique avec altération potassique et abondante pyrite fine, recoupée par un stockwork de quartz-fluorite-(pyrite). La pyrite est plus abondante dans la syénite que dans le stockwork. Photo provenant d'un échantillon ayant donné **186g/t Au**, avec anomalies en Mo, Pb, et W. Dimension verticale = 47mm

FAITS SAILLANTS ET PLANS FUTURS

- La resource actuelle (0.48Moz Au indiquées +2.76Moz Au inférées) continue a croître après 42 ans d'exploration

- Excellent potential d'exploration le long de la zone de Déformation Casa Berardi; la propriété Douay en chevauche un segment de 55km

- Cartographie du tiers central de la propriétée à faire en été 2018

- Mise à jour du modèle géologique, structural et de blocs avec nouvelles données hiver 2018

- Définition de cibles de forage pour l'hiver 2019

- Evaluation Economique Préliminaire débuterait en 2019 et Etude de Pré-faisabilité par la suite
