Corporate Presentation

Forward-looking statements

Cautionary Notes Regarding Forward-Looking Statements

This Corporate Presentation (“Presentation”) includes “forward-looking information” and “forward-looking statements” (collectively referred to as “forward-looking statements”) within the meaning of applicable Canadian securities legislation, Section 27A of the Securities Act of 1933 in the United States of America, as amended, (the “Securities Act”) and Section 21E of the Securities Exchange Act of 1934 in the United States of America, as amended, (the “Exchange Act”). All statements other than statements of historical facts included in this Presentation, including, without limitation, those regarding Maple Gold Mines Ltd.’s (“Maple Gold”, “we”, “us” or “our”) opinions and beliefs, financial position, business strategy, budgets, mineral resource estimates, estimates of enterprise value per resource ounce, ongoing or future development and exploration opportunities and projects, drilling, re-logging, geochemical and geological modeling plans, publication of updated mineral resource estimates, classification of mineral resources, and plans and objectives of management for properties and operations are forward-looking statements. Generally, forward-looking statements can be identified in this Presentation, without limitation, by the use of words or phrases such as “estimate”, “project”, “anticipate”, “expect”, “intend”, “believe”, “hope”, “may” and similar expressions, as well as “will”, “shall” and all other indications of future tense.

Forward-looking statements are based on certain estimates, expectations, analysis and opinions that management believed reasonable at the time they were made or in certain cases, on third party expert opinions. These forward-looking statements were derived utilizing numerous assumptions regarding expected growth, results of exploration and development, performance and business prospects and opportunities, general business and economic conditions, interest rates, the supply and demand for, deliveries of, and the level and volatility of prices of gold and related products, regulatory and governmental approvals, market competition, accuracy of mineral resource estimates and geological, operational and price assumptions on which such estimates are based, conditions in financial markets, future financial performance of Maple Gold, our ability to attract and retain skilled staff, our ability to procure equipment and supplies and results of exploration and development activities. While Maple Gold considers these assumptions to be reasonable, based on information currently available, they may prove to be incorrect. Forward-looking statements should not be read as a guarantee of future performance or results. To the extent any forward-looking statements constitute future-oriented financial information or financial outlooks, as those terms are defined under applicable Canadian securities laws, such statements are being provided to describe the current anticipated potential of Maple Gold and readers are cautioned that these statements may not be appropriate for any other purpose, including investment decisions.

Forward-looking statements in this Presentation involve known and unknown risks and uncertainties and other factors that may cause our actual events, results, performance or achievements to be materially different from any future events, results, performance or achievements expressed or implied by such forward-looking statements. Risks and uncertainties that may cause actual events, results, performance or achievements to vary materially include, but are not limited to, risks inherent to mineral exploration and development activities, changes in gold prices, changes in interest and currency exchange rates, inaccurate geological and metallurgical assumptions, unanticipated operational difficulties, government action or delays in the receipt of government approvals, adverse weather conditions, unanticipated events related to health, safety and environmental matters, labour disputes, failure of counterparties to perform their contractual obligations, changes or further deterioration in general economic conditions, and other risks discussed in Maple Gold’s filings with Canadian securities regulators available on the System for Electronic Document Analysis and Retrieval Plus (SEDAR+) at www.sedarplus.ca or our website at www.maplegoldmines.com. The foregoing list is not exhaustive of all factors and assumptions which may have been used. We cannot assure you that actual events, performance or results will be consistent with these forward-looking statements and management’s assumptions may prove to be incorrect. Our forward-looking statements reflect Maple Gold’s views as at the date of this Presentation. Except as may be required by law or regulation, Maple Gold undertakes no obligation and expressly disclaims any responsibility or obligation or undertaking to publicly release any updates or to revise any forward-looking statements, whether as a result of new information, future events or otherwise to reflect any change in Maple Gold’s expectations or any change in events, conditions or circumstances on which any such statement is based. Given these uncertainties, readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date made.

Scientific and Technical Information

All scientific and technical information in this Presentation relating to the Douay Gold Project is based on and derived from the technical report entitled “Technical Report on the Douay and Joutel Projects Northwestern Québec, Canada Report for NI 43-101” prepared by SLR Consulting (Canada) Ltd. with an effective Date of March 17, 2022 and dated April 29, 2022, prepared in accordance with National Instrument 43-101—Standards of Disclosure for Mineral Projects. The scientific and technical information relating to the Douay Gold Project contained herein is subject to all of the assumptions, qualifications and procedures set out in the said technical report.

Ian Cunningham-Dunlop, P.Eng., Vice President, Technical Services of Maple Gold and a Qualified Person as defined by Canadian National Instrument 43-101 – Standards of Disclosure for Mineral Projects, has reviewed and approved the scientific and technical information related to exploration and Mineral Resource matters contained in this presentation. Mr. Cunningham-Dunlop has verified the data related to the exploration information disclosed in this presentation through his direct participation in the work.

Cautionary Note to US Investors Concerning Resource Estimates

Information in this Presentation is intended to comply with the requirements of the TSX Venture Exchange Inc. and applicable Canadian securities legislation, which differ in certain respects with the rules and regulations promulgated under the United States Securities Exchange Act of 1934, as amended, as promulgated by the Securities and Exchange Commission. The Reserve and Resource estimates in this Presentation were prepared in accordance with National Instrument 43-101 – Standards of Disclosure for Mineral Projects (“NI 43-101”) adopted by the Canadian Securities Administrators. The requirements of NI 43-101 differ significantly from the requirements of the United States Securities and Exchange Commission.

General

All information and data provided in this Presentation is strictly private and confidential. No person is authorized to copy or re-distribute any materials in this presentation without the express permission of Maple Gold.

Why invest now?

Building the next multi-million-ounce gold camp in Québec's Abitibi Belt

District-Scale Gold Project in a Tier-1 Jurisdiction

- 100% ownership of ~481 km² in Québec's Abitibi Gold Belt, one of the world's most prolific and supportive gold jurisdictions.
- Excellent infrastructure: paved highway, grid power, rail, and skilled workforce easily accessible.

Established Resource Base with Expansion Potential

- ~3.0 Moz gold resource¹ at Douay with significant expansion potential.
- High-grade past-producing Joutel complex offers near-term catalysts and brownfield upside.

Clear Path to Growth and Re-Rating

- Fully funded 10,000m drill program in Fall 2025.
- Updated mineral resource estimate (MRE) planned for H1 2026.

Exploration Upside

- Large underexplored land package with multiple new targets.
- Positioned to deliver new discoveries in a proven gold camp.

The Right Management Team + Strategic Partners

- Strong technical and capital-markets leadership with significant Abitibi experience and a proven track record of disciplined execution and value creation.
- Long-term strategic, institutional, high-net worth and insider shareholder base.
- Strategic partnership with Agnico Eagle as largest shareholder (16.3% partially-diluted).

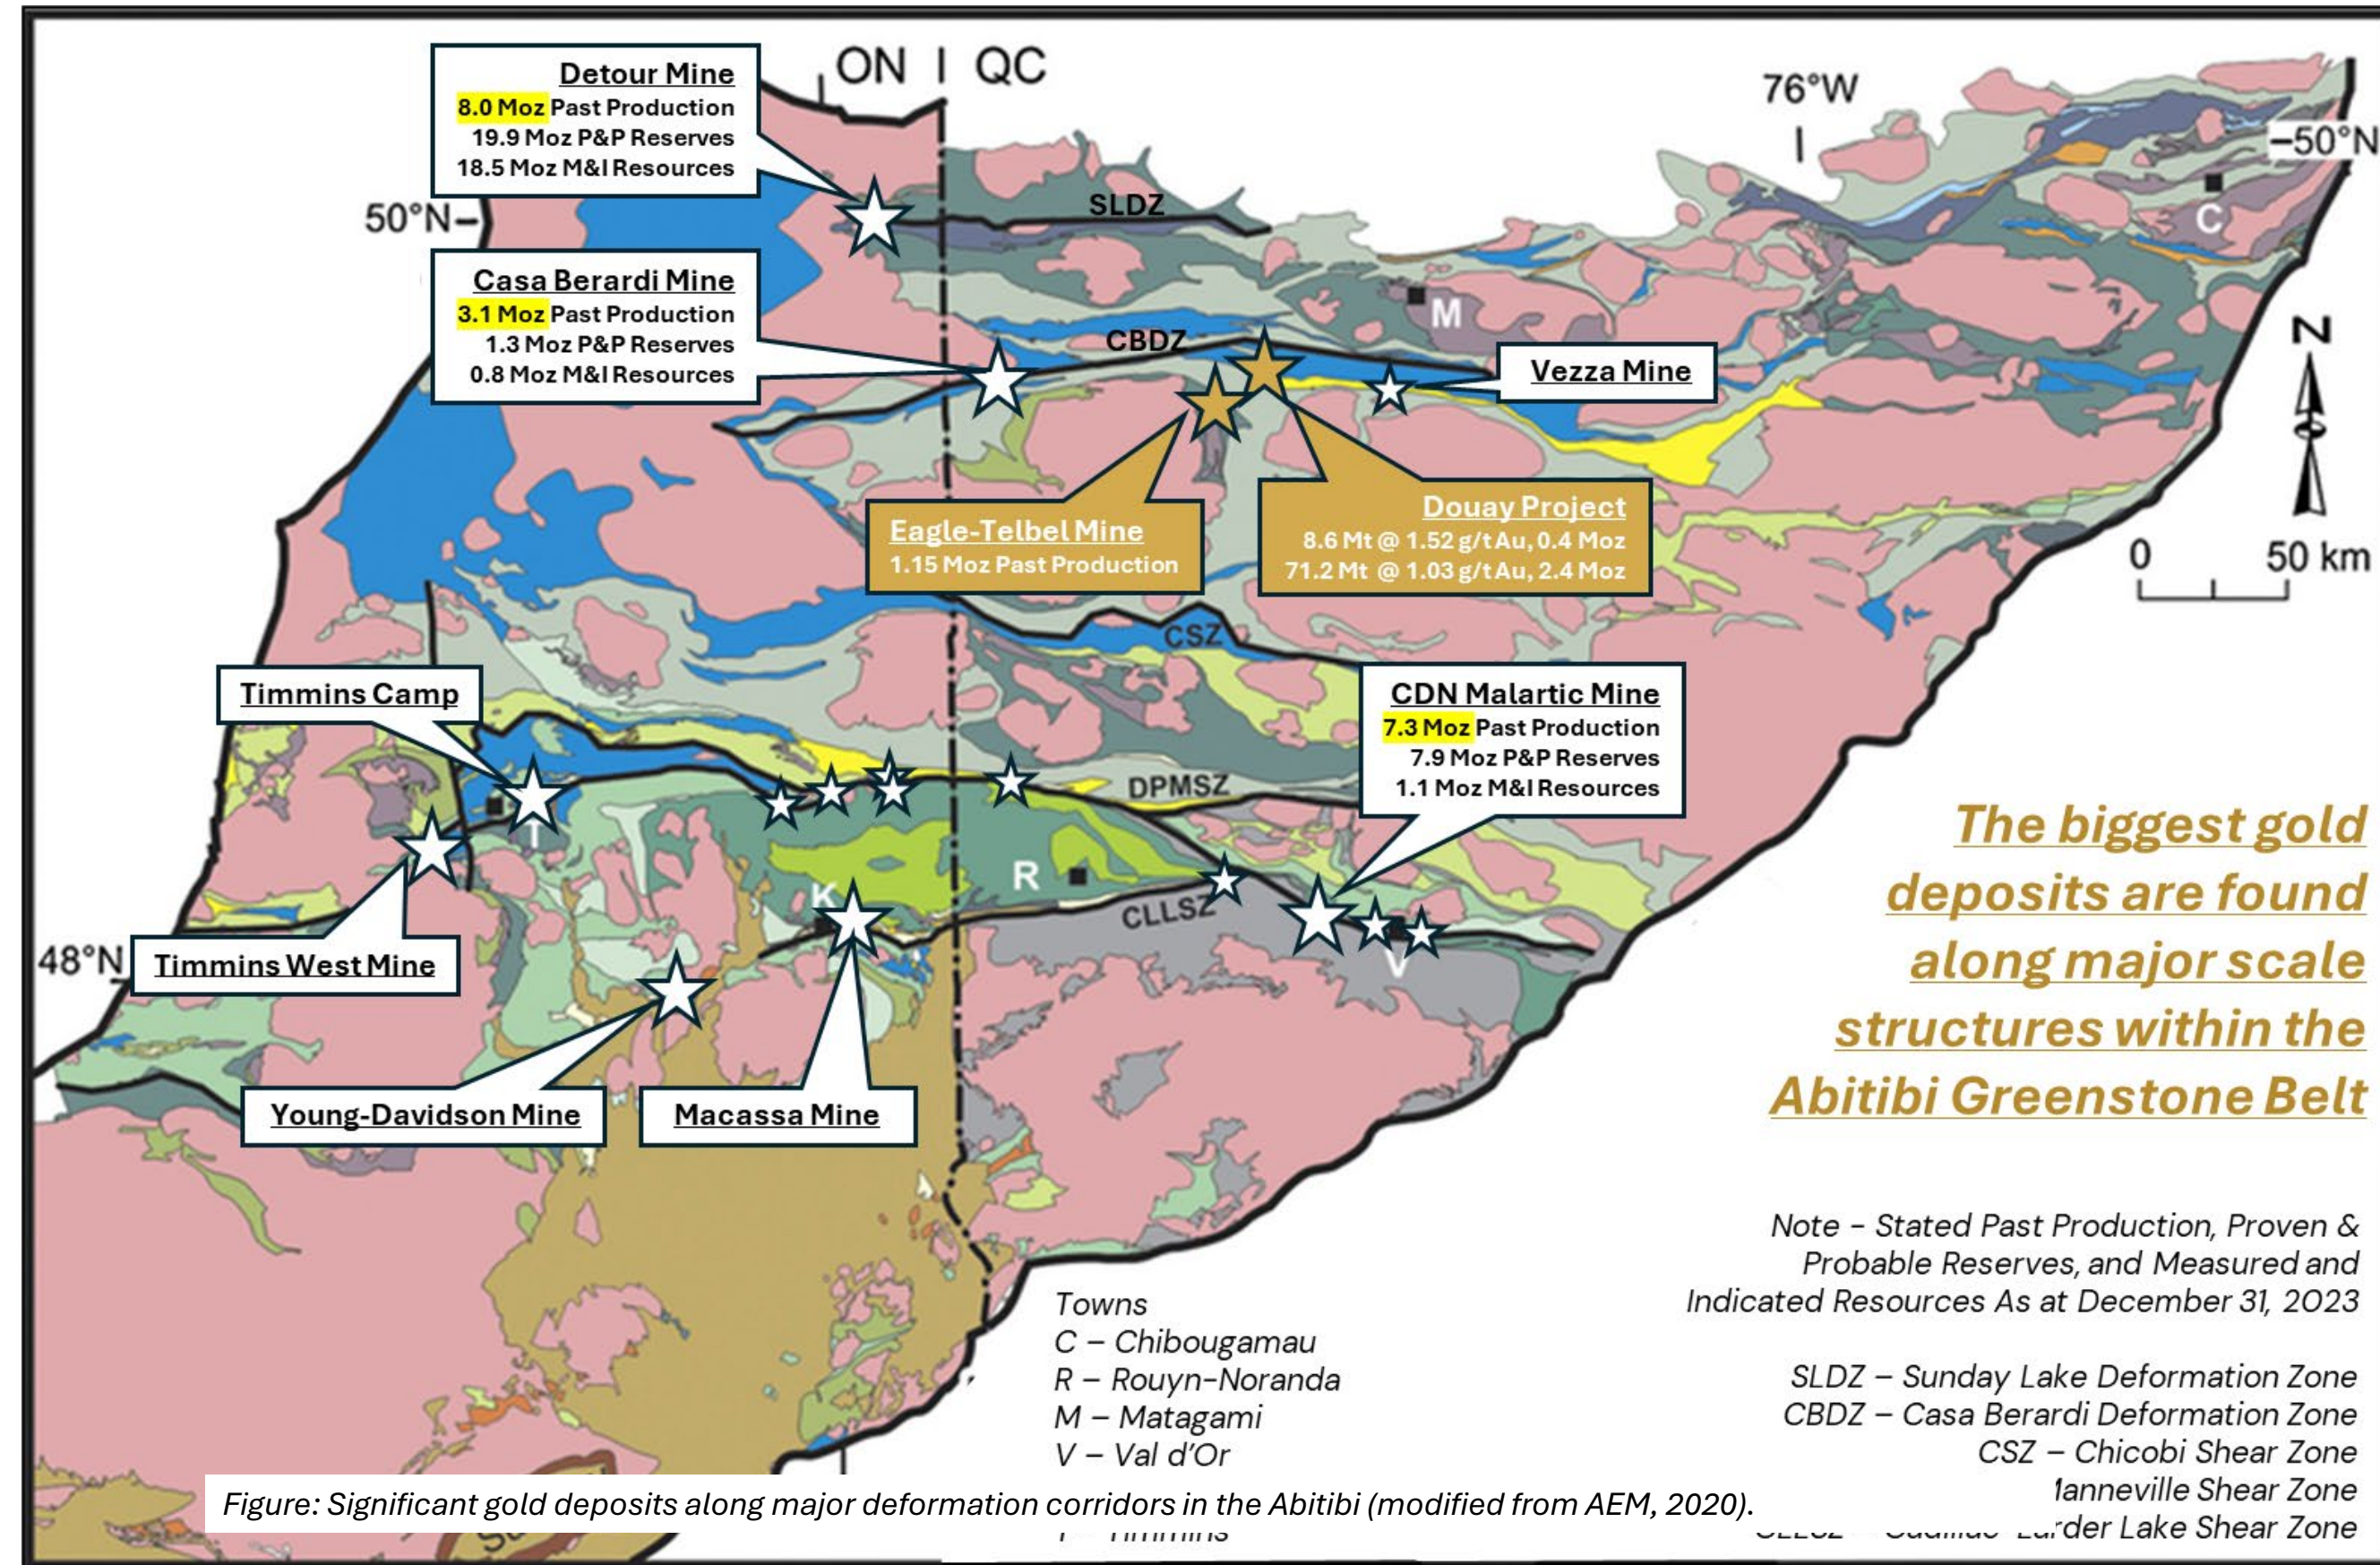

¹ The Douay Project contains Indicated Mineral Resources estimated at 10 million tonnes at a grade of 1.59 g/t Au, and Inferred Mineral Resources estimated at 76.7 million tonnes at a grade of 1.02/t Au. See the technical report for the Douay Gold Project entitled "Technical Report on the Douay and Joutel Projects Northwestern Québec, Canada Report for NI 43-101" with an effective Date of March 17, 2022 and dated April 29, 2022.

District-scale gold project in one of Canada's premier gold mining districts

Strategically located among the Abitibi's gold giants

MGM's 100%-owned Douay/Joutel gold project has all the key ingredients of a prolific, large-scale deposit(s) camp:

- Parallel Alignment with Major Gold-Bearing Structures
- Deep, mantle-tapping structure (Casa Berardi Deformation Zone) w/porphyry emplacement, lamprophyre and carbonatite in core
- Warp in structure over kilometric scale
- Multiple styles of mineralization on a single district-scale land package (porphyry, vein, shear, VMS)
- Rocks of varying competencies and chemistry acting as fluid buffer
- Geophysical anomalies over 12km, known mineralization over 6km

Advantaged location with excellent infrastructure

One of only a few +3 Moz Canadian gold projects with existing road and power access

Tier-1 location with year-round drive-in access:

- ~2.5-hour drive north of Rouyn-Noranda and Val-d'Or via paved Highway 109, which runs through the Douay property; 55 km to Matagami (airport, rail, services).

Grid power connection:

- Adjacent to one of Hydro-Québec's key transmission corridors, enables low-cost power.

Established mining hub:

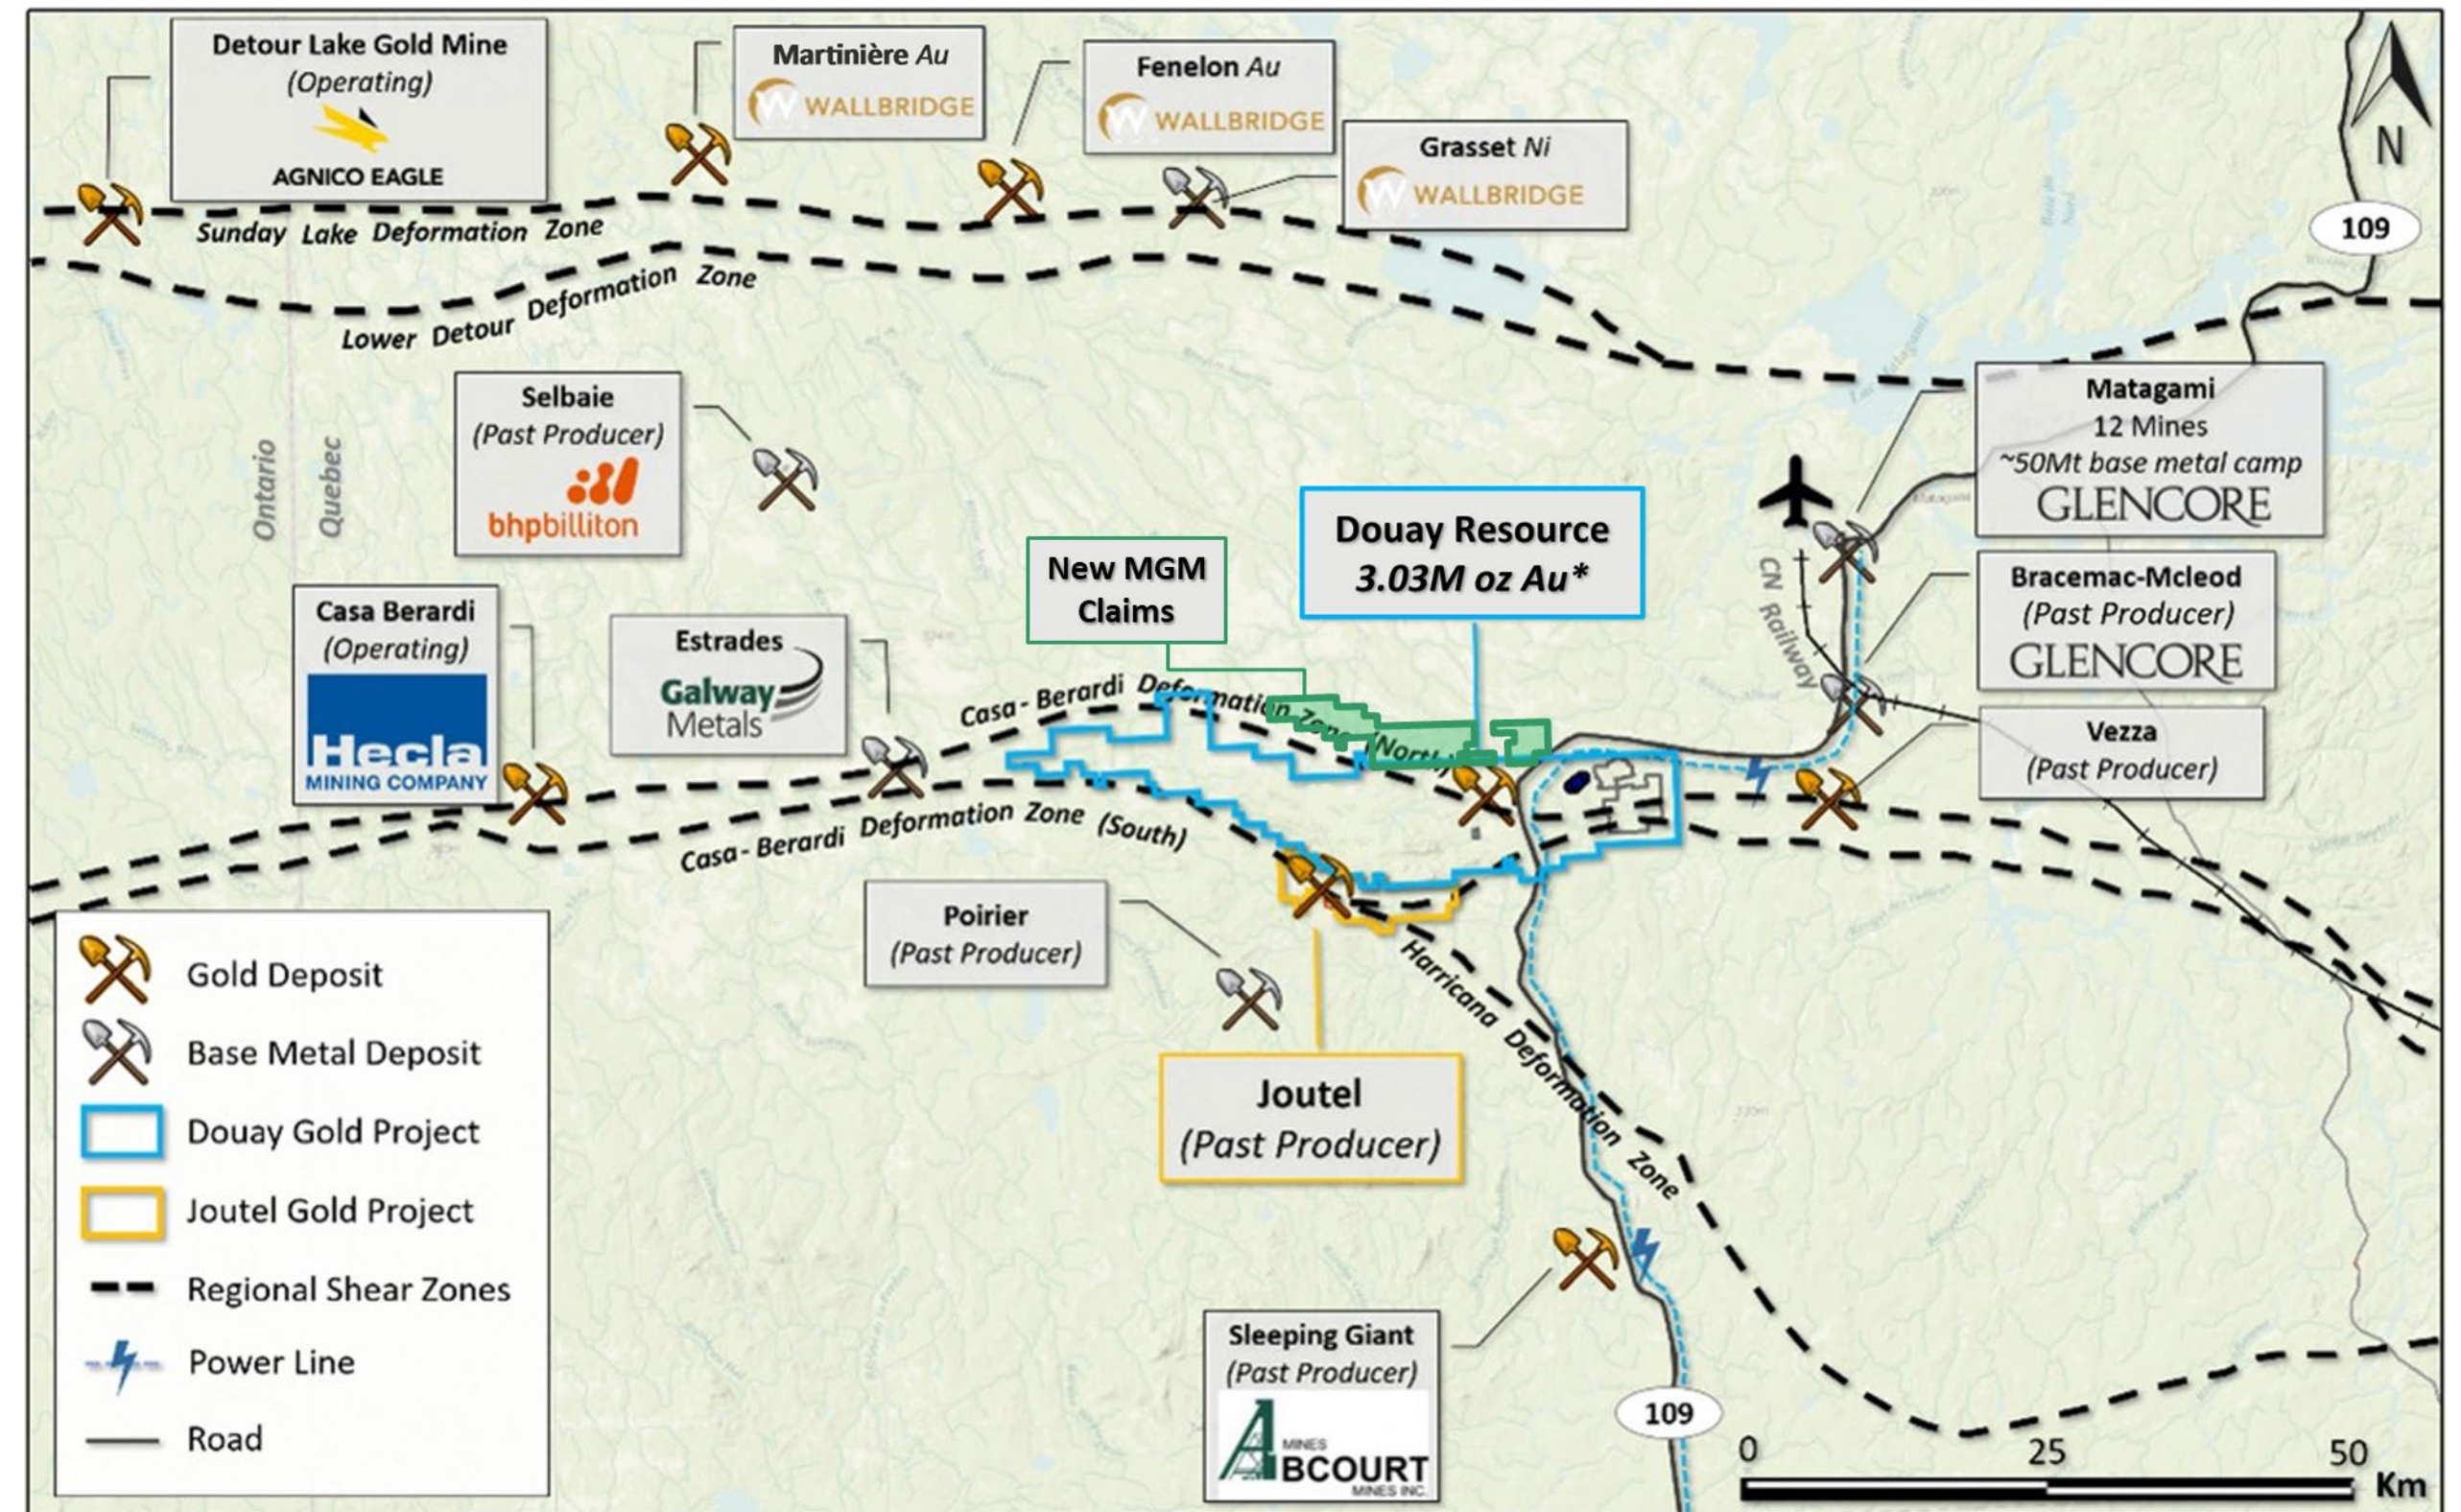

- Skilled workforce, contractors, assay labs and suppliers easily accessible. Surrounded by producing mines and past-producers across the Abitibi belt.

Located along a major gold-bearing structure:

- Douay straddles ~55 km of the Casa Berardi Deformation Zone (North); Joutel straddles ~15 km of the Casa Berardi Deformation Zone (South).

Québec's Mining Advantages:

- One of the world's most attractive mining jurisdictions, consistently ranked in the Fraser Institute's Annual Survey of Mining Companies.
- Competitive tax incentives for exploration and development, with rebates of up to \$0.37 per \$1 spent on exploration.

*Total contained gold resources: 511 koz (Measured & Indicated) and 2,527 koz (Inferred) using a US\$1,800/oz gold price and cut-off grades of 0.45 g/t for pit-constrained resources and 1.15 g/t for underground resources (refer to 2022 Mineral Resource Estimate table and notes in this presentation)

Disclaimer: Mineralization hosted on adjacent and/or nearby properties is not necessarily indicative of mineralization hosted on the Company's property.

Advantaged location with excellent infrastructure

On-site infrastructure: core facilities, camp and historic headframe at Douay West.

Core logging facilities

Core logging facilities

Mine Dry

Full-service 46-person camp

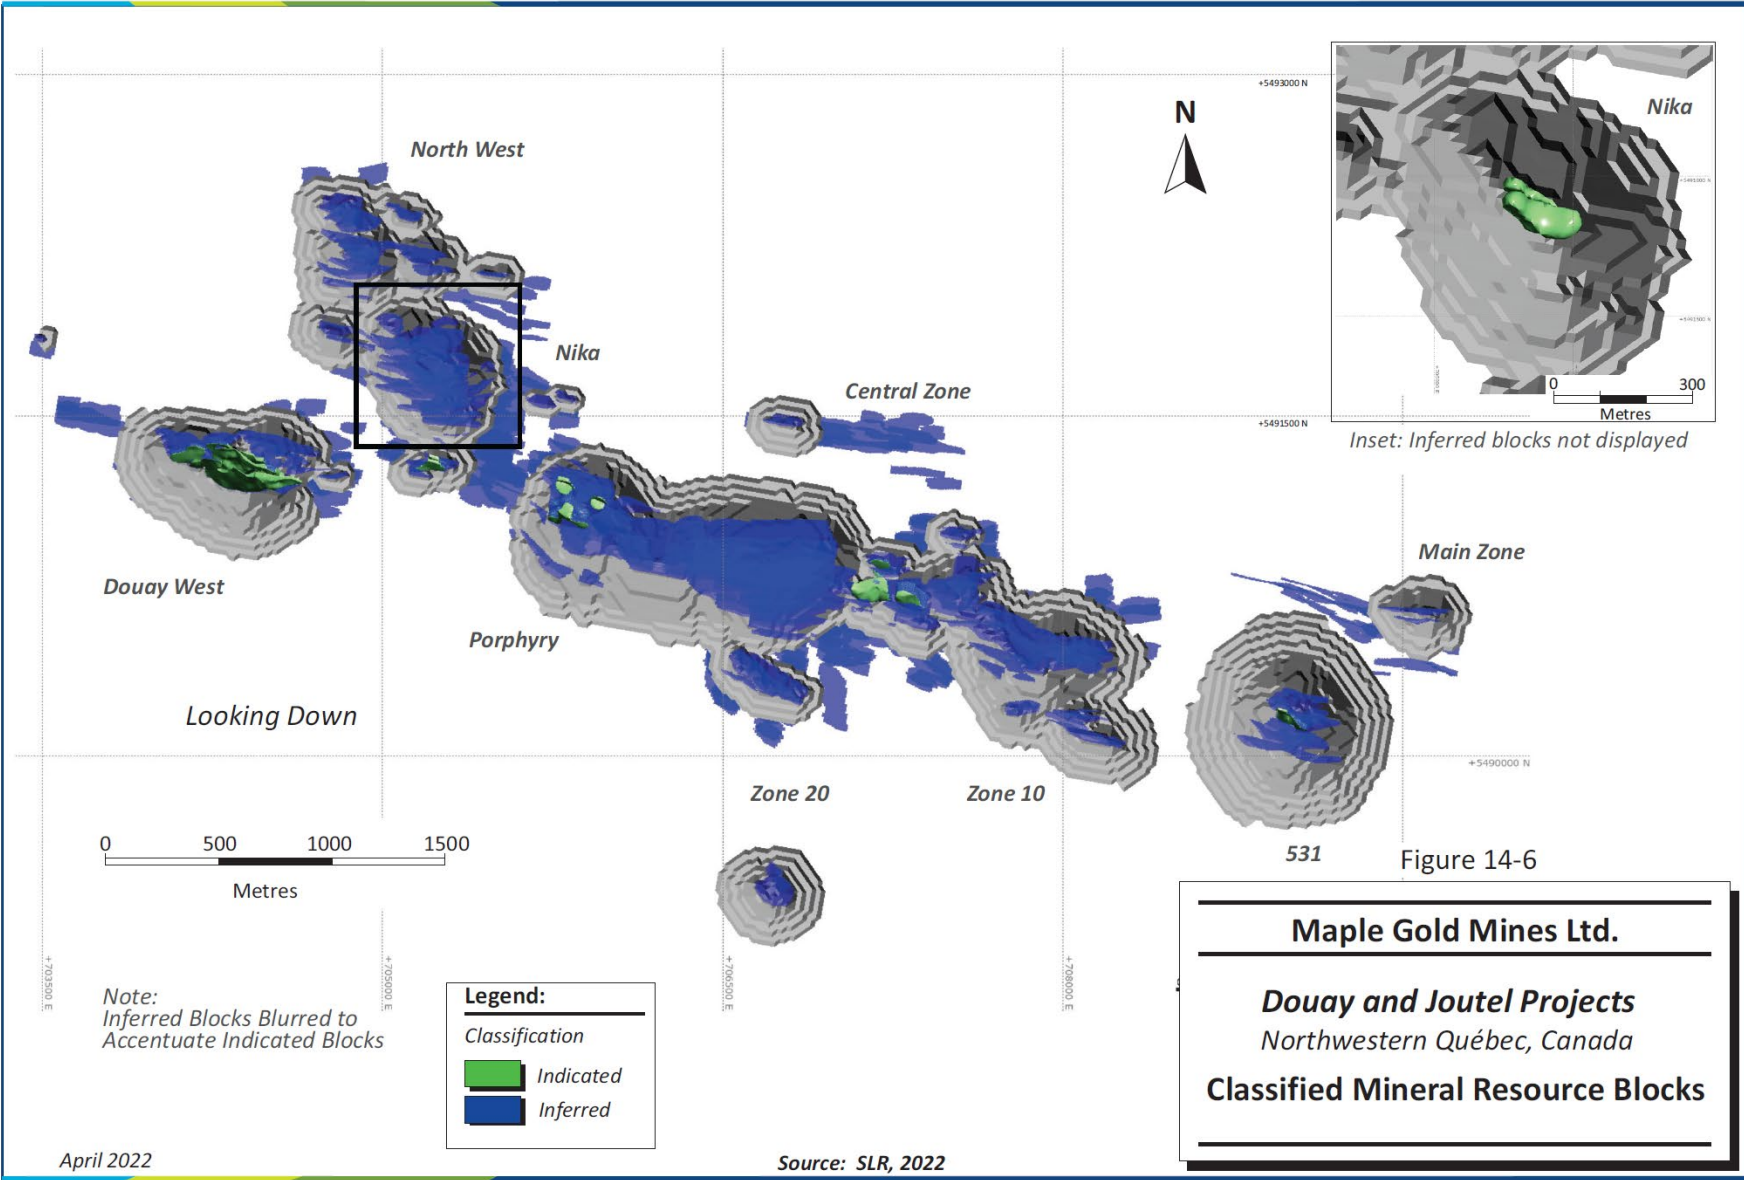

Headframe (Circa 1997)

Current mineral resource inventory (SLR, 2022)

2022 MRE completed using US\$1,800/oz gold, currently >US\$3,600/oz, providing significant upside to resource

Mineral Resource Statement as of March 17, 2022 Maple Gold Mines Ltd. - Douay and Joutel Projects			
Resource Category	Tonnes (Mt)	Grade (g/t Au)	Contained Metal (000 oz Au)
Pit Constrained Mineral Resources			
Indicated	10.0	1.59	511
Inferred	68.2	0.94	2,067
Underground Mineral Resources			
Inferred	8.5	1.68	460
Total Mineral Resources			
Indicated	10.0	1.59	511
Inferred	76.7	1.02	2,527

Pit-constrained Mineral Resources are reported above a cut-off grade of 0.45 g/t Au and underground Mineral Resources are reported with constraining shapes which were generated using a 1.15 g/t Au cut-off value and include low grade blocks falling within the mineable shapes.

Source: SLR, 2022

Updated mineral resource estimate and internal scoping study targeted for H1 2026

Strategic priorities & near-term catalysts

1. Focused exploration

- **CDN \$9.8M budget in 2025**; CDN \$5.0M to be spent by 2025YE.
- **~5,000 m Douay + ~5,000 m Joutel drill program** planned in Fall 2025 to build on successful 12,240 m drill program focused on higher-grade gold zones and resource conversion and to extend mineralization along past-producing, high-grade Eagle-Telbel mine trend.
- **Significant potential** to expand the current 3 Moz resource through systematic step-outs in priority zones; and to convert high-grade Inferred to Indicated.
- **Updated resource estimate and scoping study** targeted for H1 2026.

2. Disciplined development

- **Advancing and de-risking the project** through mineral resource estimate updates, supported by a proper geo/mine/met model and scoping study/engineering trade-off study to enable a robust preliminary economic assessment (PEA) in 2026.
- **Optimizing higher-grade resources** and evaluating trade-offs between OP/UG mining scenarios
- **Metallurgical testing completed to-date** includes mineralogical, comminution, whole sample leach (**Avg. 81% rec**), gravity and rougher flotation (**Avg. 92% rec**), and cyanidation of gravity & flotation cons (**Avg. 83% rec**); recoveries are in line with other similar gold mines in the Abitibi

Ranking of Potential Zones on the Douay/Joutel Property

- ★ **Level 1:** Expansion of Economic Gold Ounces
- ★ **Level 2:** Confirmation of ore-bodies continuity
- ★ **Level 3:** Investigation of mineralised zones
- ★ **Level 4:** Evaluation of potential zones

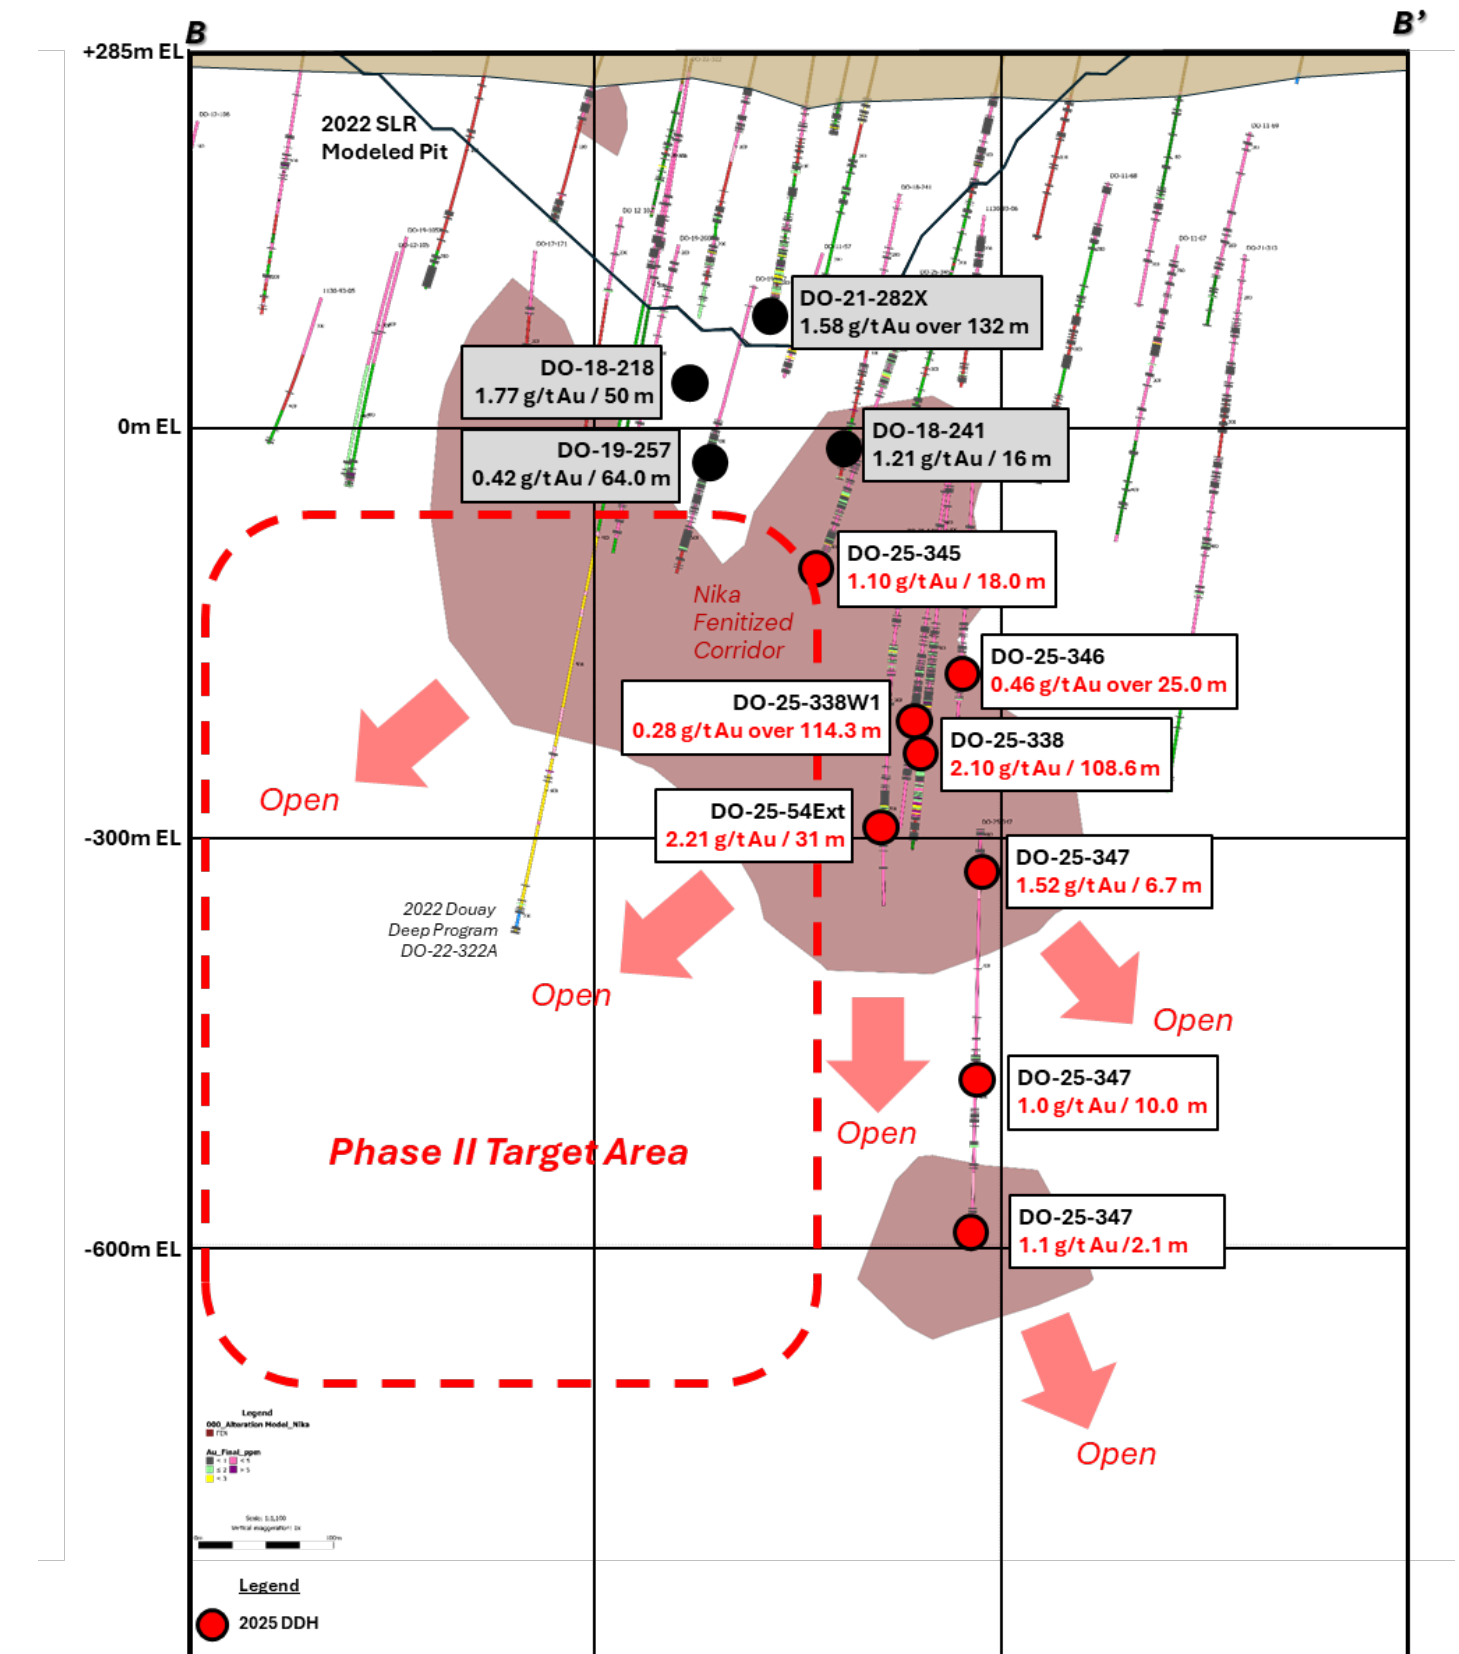

Exceptional results from Douay winter 2025 drilling program

DO-25-338 best intercept to date at Nika Zone; top-5 hole drilled at Douay

- **Phase I (12,240 m)** winter program drilled down-plunge extensions of higher-grade zones outside Douay mineral resource estimate.
- Targeting steep SE down-plunge extension of higher-grade Nika Zone, 300 meters past previous MGM Drilling (including **1.58 g/t Au over 132 m** in DO-21-282X) within Fenitized Syenite and Mix Unit in footwall to Douay Intrusive Complex (DIC).
- **DO-25-338 returned exceptional results** with **2.10 g/t Au over 108.6 m** (from 537.4 m downhole, or 490 m vertical depth), including **3.15 g/t Au over 55.8 m**, and including **5.16 g/t Au over 17 m**, within a broader envelope that returned **1.46 g/t Au over 169.5 m**.
- 5 follow-up holes including DO-25-54Ext. (**1.26 g/t Au over 60.0 m**, including **2.93 g/t Au over 20 m**), have **extended gold mineralization >600 m below the Douay MRE conceptual pit floor**.
- Nika Zone remains open for **expansion in multiple directions**.
- Planned Fall 2025 Phase II drilling program is **focused on high-potential areas to cost-effectively** expand the resource base.

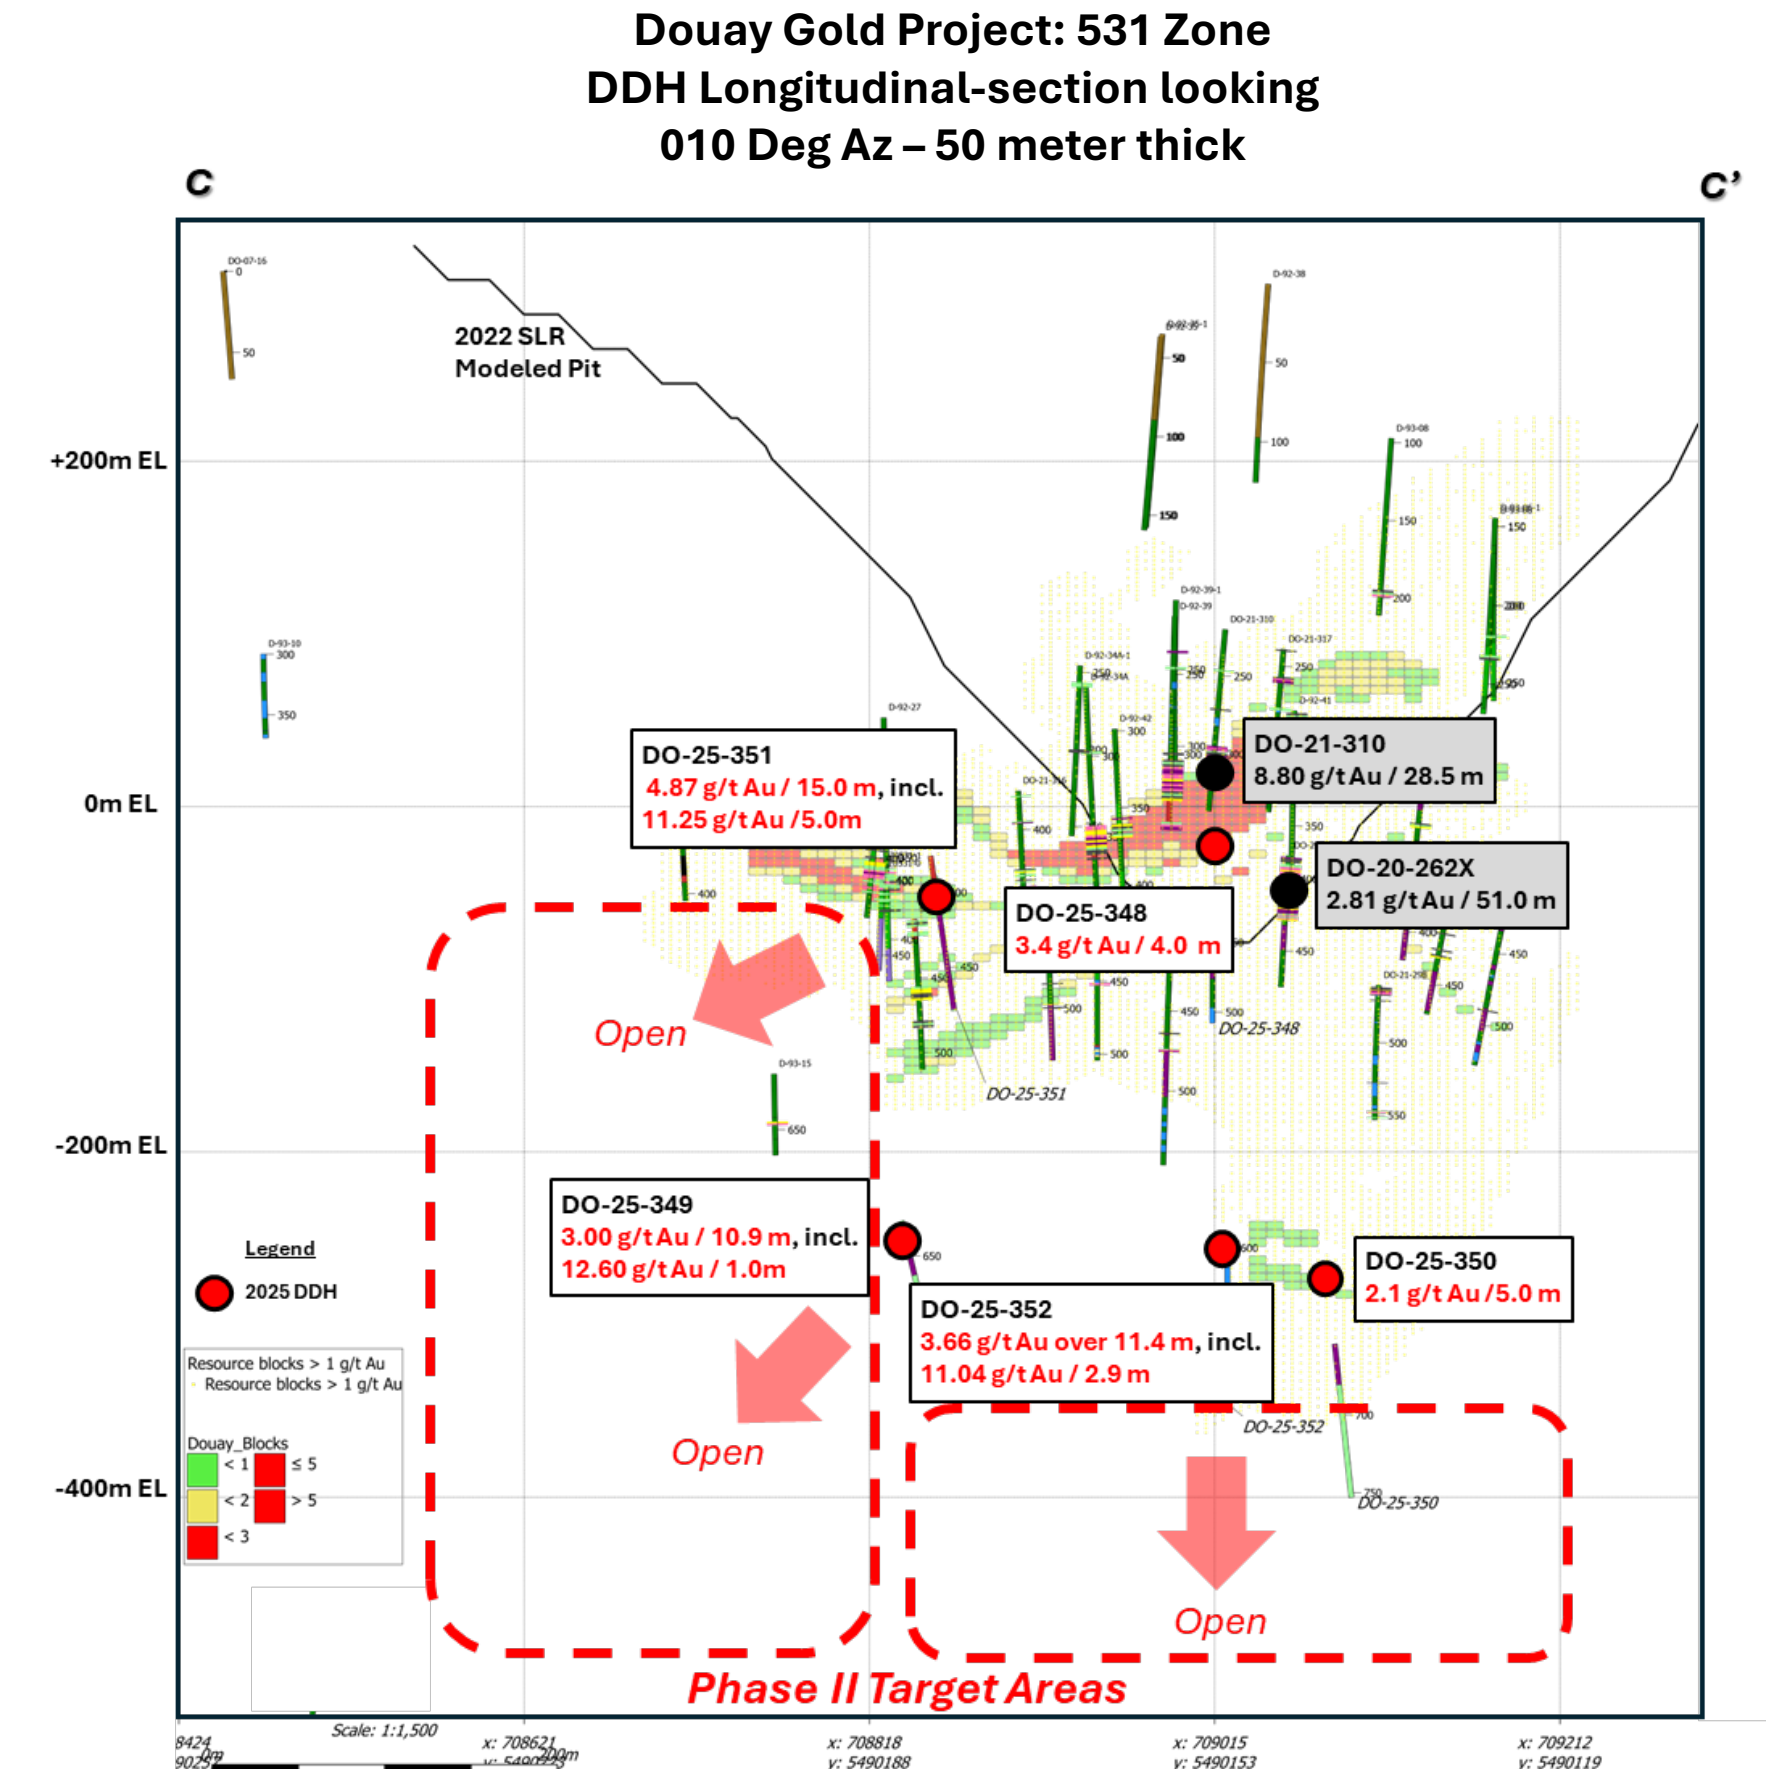

Douay Gold Project: Nika Zone
DDH Longitudinal-section
Looking 015 Deg Az

Exceptional results from Douay winter 2025 drilling program

Successful 531 zone drilling results extended high-grade gold mineralization >200 m below conceptional pit floor

- **Key step-outs in the HW of the ultramafic unit returned:**
 - **4.87 g/t Au over 15.0 m** (from 393 m), including **11.25 g/t Au over 5.0 m**, in hole DO-25-351
 - **3.66 g/t Au over 11.4 m** (from 593.7 m), including **11.04 g/t Au over 2.85 m**, in hole DO-25-352
 - **3.00 g/t Au over 10.8 m** (from 639.2 m), including **4.51 g/t Au over 5 m**, in hole DO-25-349
- Planned Phase II drilling in Fall 2025 to **continue step-out drilling along strike, down-dip and down-plunge** to depth
- 531 zone **remains open in all directions** with potential west, southwest and southeast plunge controls on the higher-grade zones.

Strategic partnership with Agnico Eagle

Tier-1 partner with capital and technical expertise

Capital and technical support

- **Long-term shareholder:** ~16.3% (partially diluted; maintaining *pro rata* in Aug 2025 raise).
- **Capital committed to date:** ~C\$25M (direct project spending + equity across multiple rounds).
- **Economic alignment:** maintains a strategic interest in Douay/Joutel via a 1% Dilution NSR and a back-in right to acquire a 50% interest in Douay/Joutel by paying C\$12M + 2X cumulative expenditures until Maple Gold achieves key development milestone.¹
- **Ongoing participation:** Continued involvement through financings and technical collaboration.

Strengthening project credibility and enhances de-risking

- **Board depth:** Addition of **Marc Legault** (ex-Agnico senior executive) brings Casa Berardi belt experience (Eagle/Telbel, Vezza) directly relevant to Douay/Joutel.
- **History in the district:** Agnico’s first gold mine was **Joutel** (1974–1993), underscoring long-term familiarity with the trend.
- **Third-party validation** of district scale and geology.
- **Enhances technical rigor** and de-risking path.
- **Supports funding runway** and market credibility.

¹ Completion of PFS with a minimum NPV_{5%} of C\$300M and a pre-financing construction decision

Technically-sound & capital markets-savvy leadership team

Major mining company & capital markets experience with successful discovery & transaction track records

Key Management

Kiran Patankar
President, CEO & Director (since 2023)
Director of Onyx Gold (2023-Present)
Former senior investment banker with Macquarie and RCC
B.Sc., Geol.Eng. (Colorado School of Mines)
MBA (Yale School of Management)

Ian Cunningham-Dunlop, P.Eng.
VP, Technical Services (since 2024)
EVP of Onyx Gold (2023-Present)
Extensive exploration and project management experience with HighGold, NewCastle Gold, True Gold, Fronteer Gold, Homestake/Barrick
B.Sc., Geol.Eng. (Queen's University)

Michael Gentile, CFA
Strategic Advisor (since 2025)
Founder, Bastion Asset Management
Chartered Financial Analyst (CFA) holder
B.Com (Concordia University)

Advisors

Paul Harbidge, P.Geo.
Technical Advisor (since 2023)
CEO of Faraday Copper and Director of Fireweed Metals
Former CEO of GT Gold, SVP Exploration at Goldcorp
1st Class Honors, Geology (Kingston University, London UK)
M.Sc., Mining Geology (Leicester University UK)

Dr. Gérald Riverin
Director, Technical Advisor (since 2020)
VMS expert, President and Director, Exploration for various companies focused in Québec
Ph.D., Geology (Queen's University)

Board of Directors

Marc Legault, P.Geo.
Director (since 2025)
Former SVP, Agnico Eagle
M.Sc. In Geology (Carleton University)
B.Sc. In Geological Engineering (Queen's University)

Darwin Green, P.Geo.
Director, Technical Advisor (since 2024)
Executive Chair of Onyx Gold and Director of Contango ORE
Former Founder & CEO of HighGold
B.Sc., Geology (University of British Columbia)
M.Sc., Economic Geology (Carleton University)

Chris Adams, CFA & MBA
Director & Audit Committee Chair (since 2025)
Chairman, Camino Corp.
Former Senior Managing Director, Macquarie Group
Chartered Financial Analyst (CFA) holder
MBA (MIT Sloan School of Management)

² The Douay Project contains Indicated Mineral Resources estimated at 10 million tonnes at a grade of 1.59 g/t Au, and Inferred Mineral Resources estimated at 76.7 million tonnes at a grade of 1.02/t Au. See the technical report for the Douay Gold Project entitled “Technical Report on the Douay and Joutel Projects Northwestern Québec, Canada Report for NI 43-101” prepared by SLR Consulting (Canada) Ltd. with an effective date of March 17, 2022 and dated April 29, 2022.

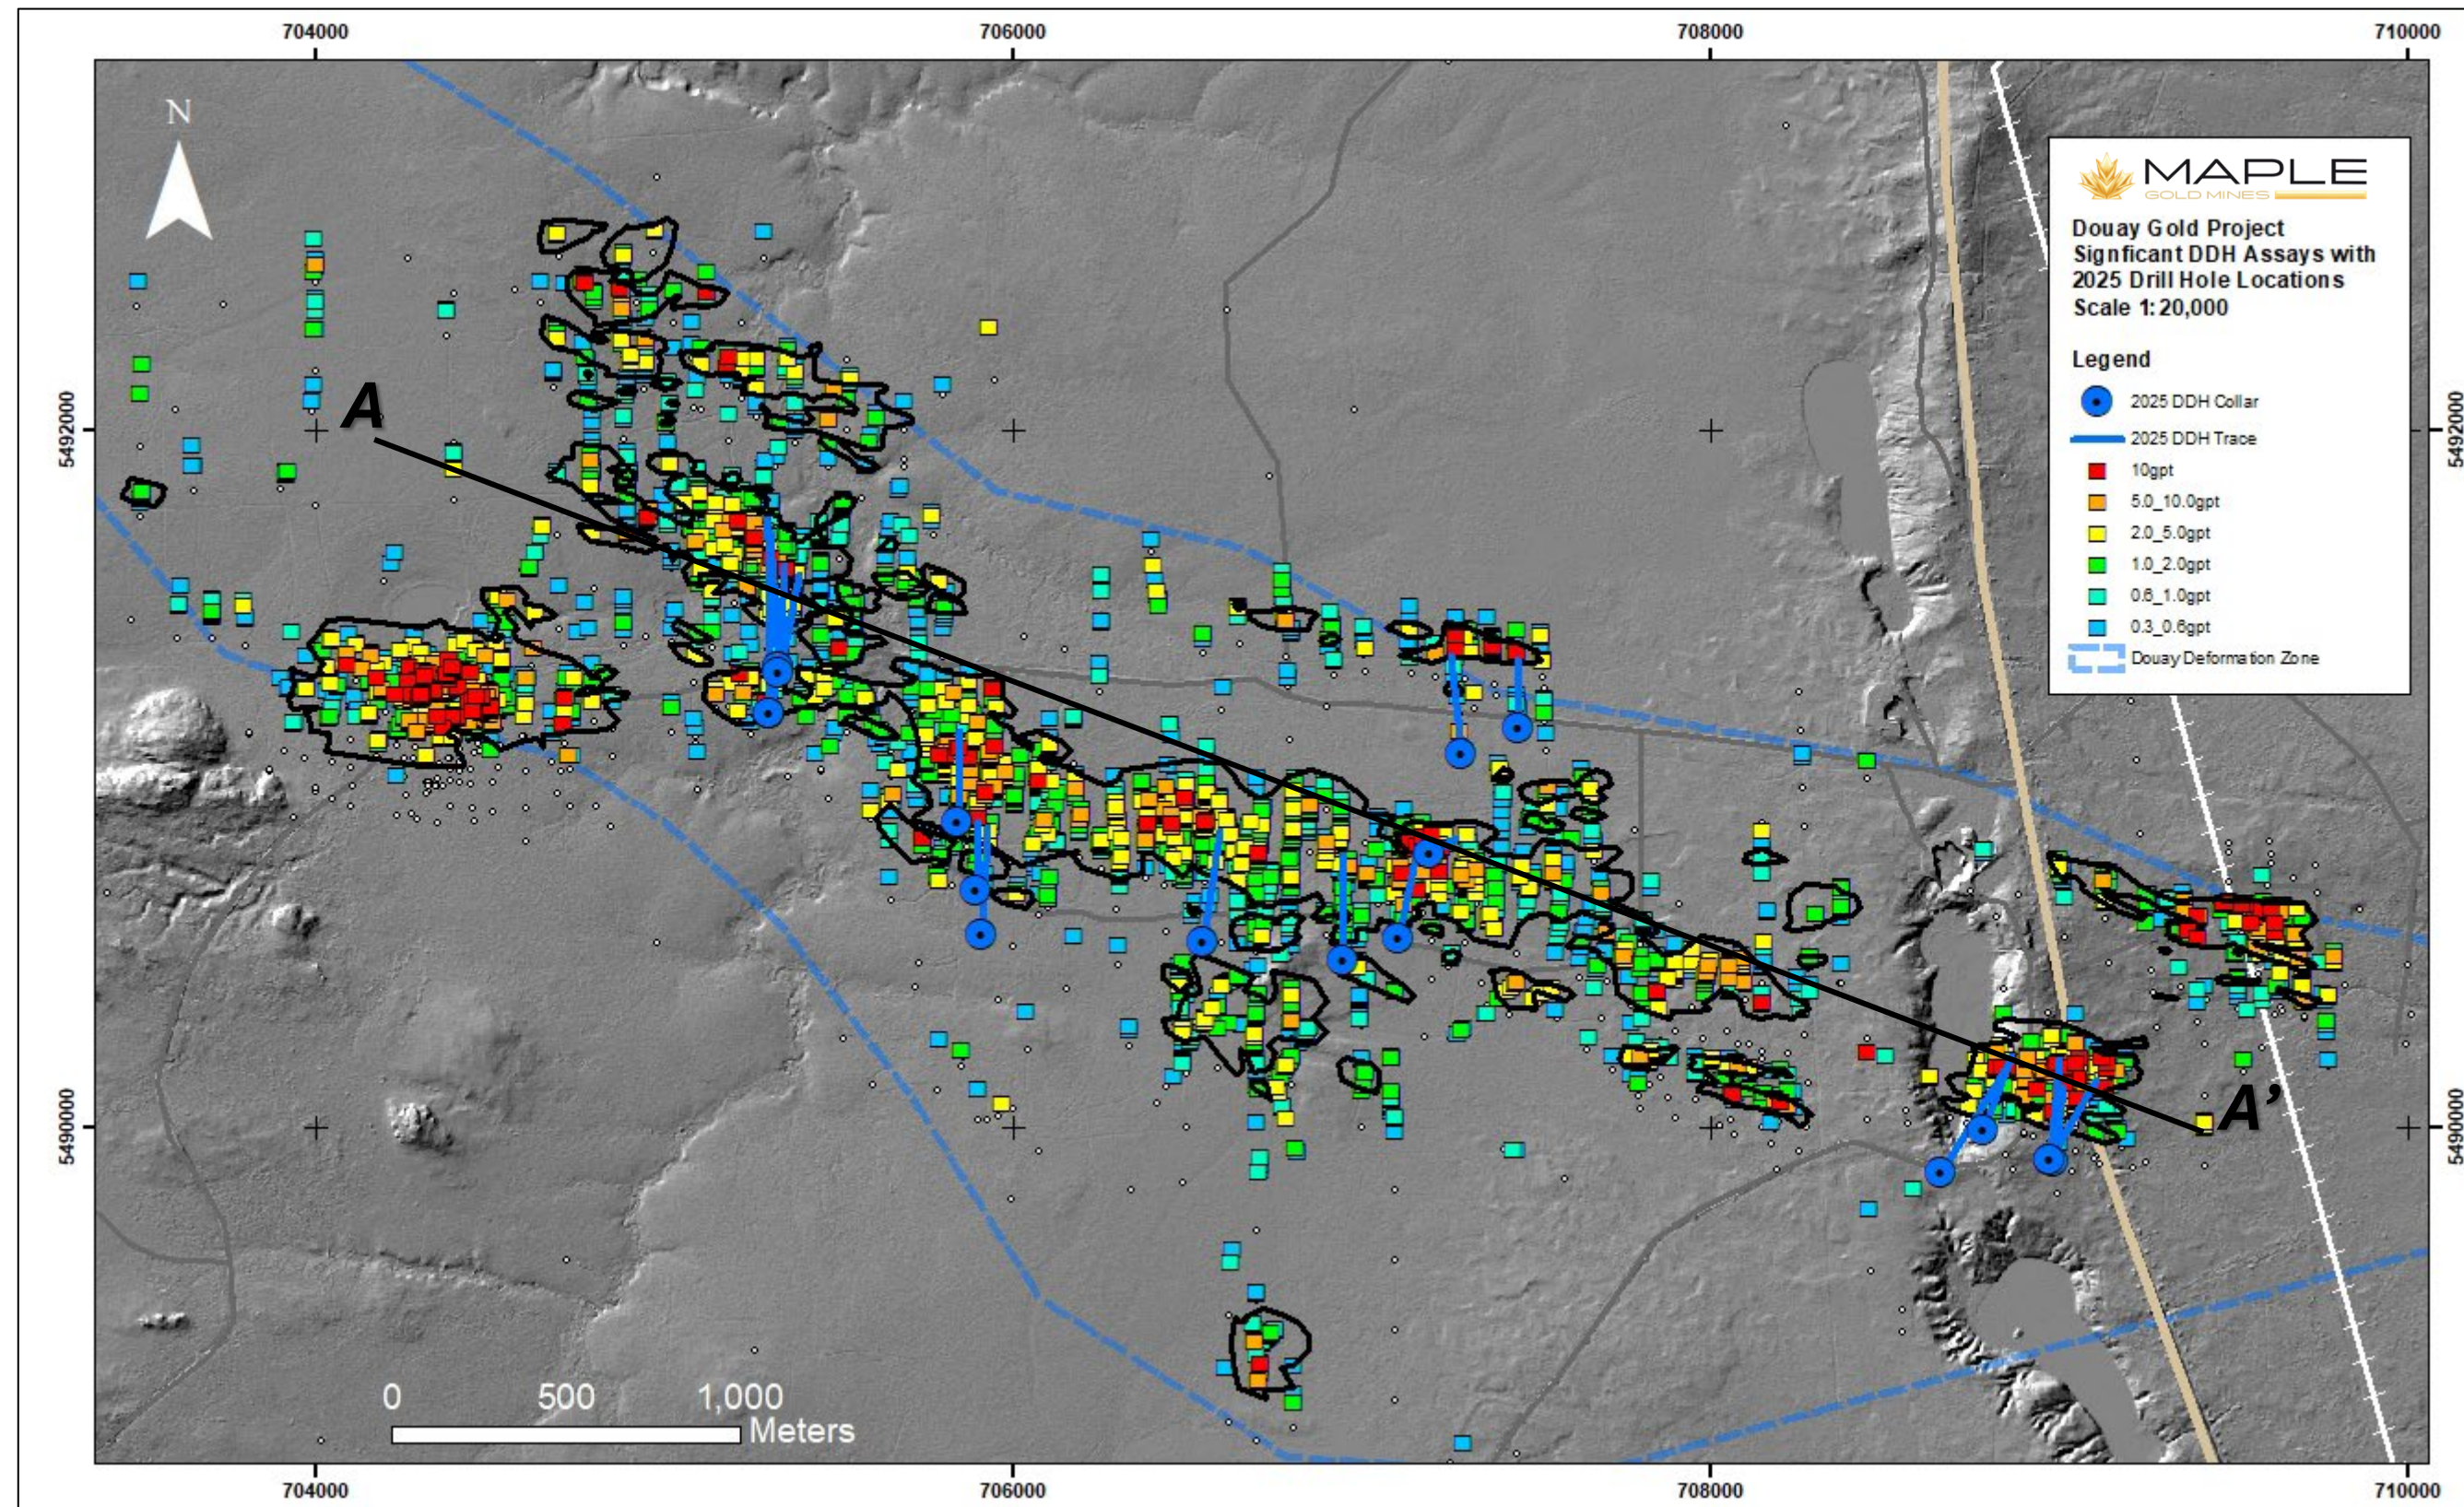

- **Undervalued relative to peers**; near term catalysts in place to close the gap.
- **100% Control of a ~481 km² district-scale property with:**
 - Established ~3.0 Moz gold mineral resource² (Douay)
 - Past-producing high-grade mining complex (Joutel)
 - Significant exploration potential
- **Strategically located** in Québec’s Abitibi gold belt with a rich mining history and **exceptional infrastructure**.
- Support of a **top-tier operator** with **extensive experience** in the area (Agnico Eagle).
- **Fully funded organic growth catalysts:**
 - Fully funded **10,000m drill program** in Fall 2025; **focused on high-potential areas to cost-effectively** expand the resource base.
 - **Updated mineral resource estimate** planned for H1 2026.

APPENDIX

Douay Project: Current Mineral Resources (with Assay Intercepts > 0.3 g/t Au)

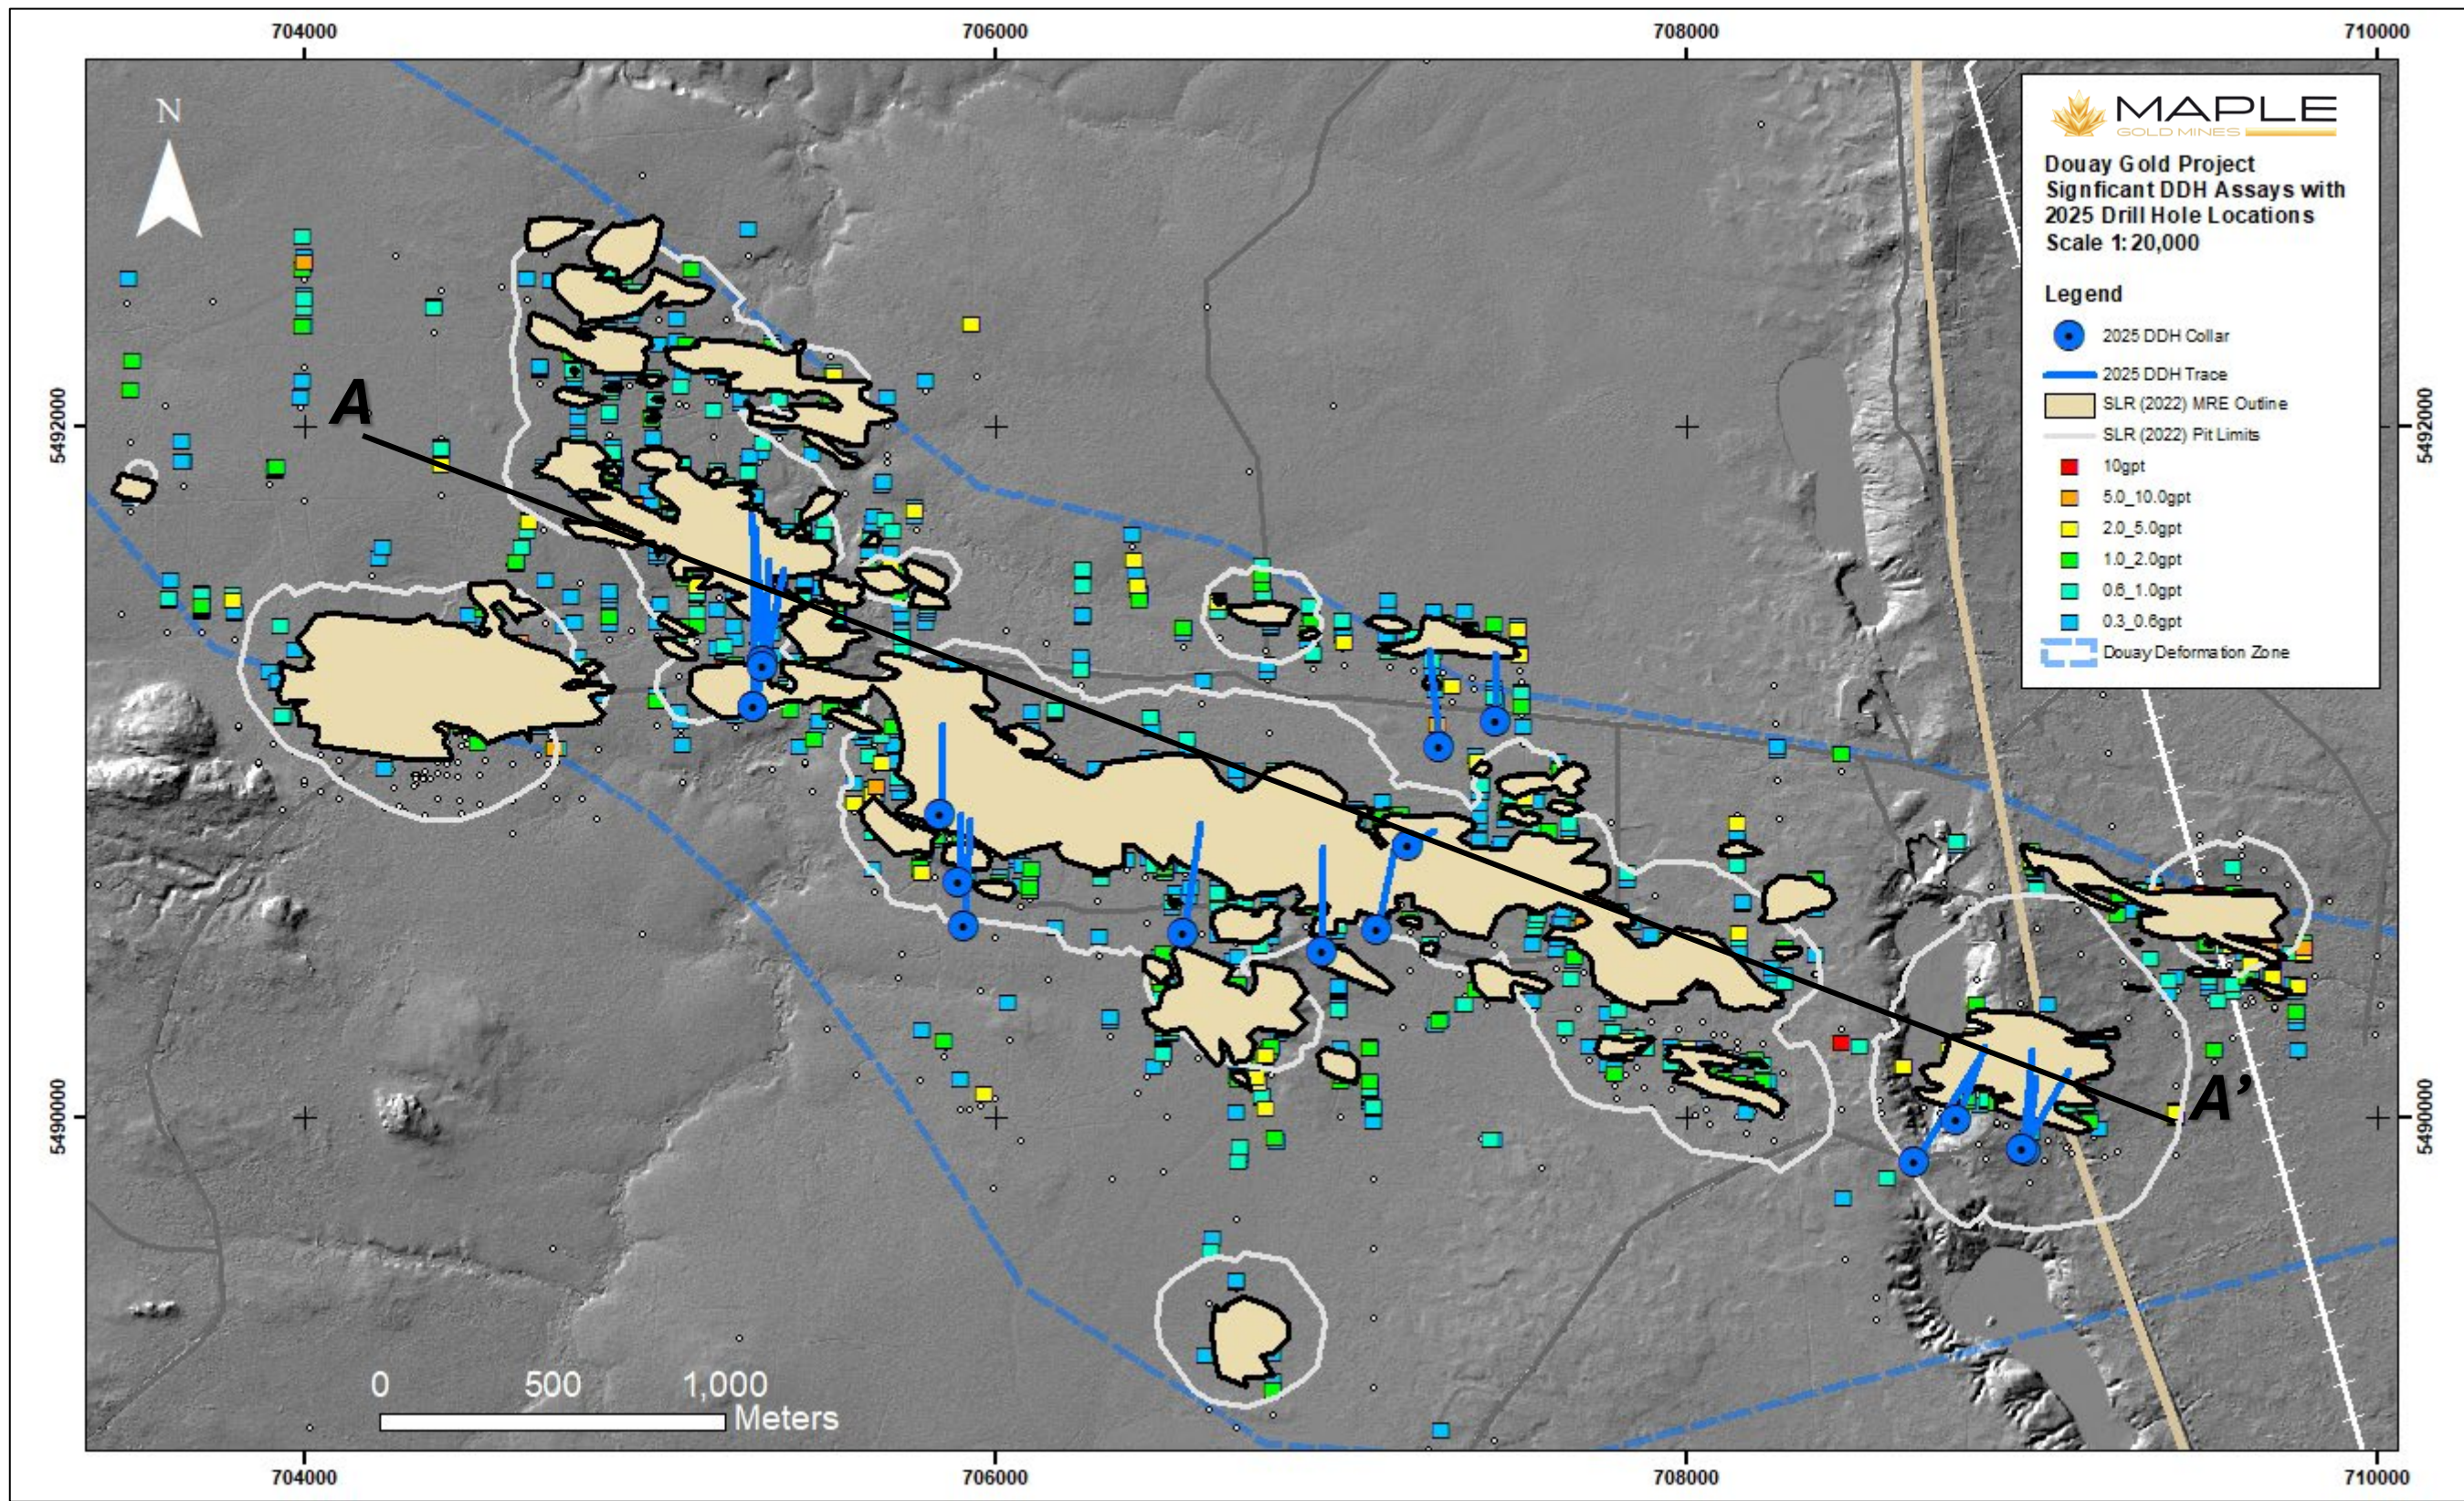

Note: 2022 Douay MRE
was prepared by SLR
Consulting (SLR) for the
MGM-AEM JV using
**\$1,800/oz Au and a 0.45
g/t Au OP cut-off grade**

Douay Project: High Potential to Add Oz to 2022 MRE

(Illustrative MRE Additions outside Modeled Pits at 0.3 g/t Au)

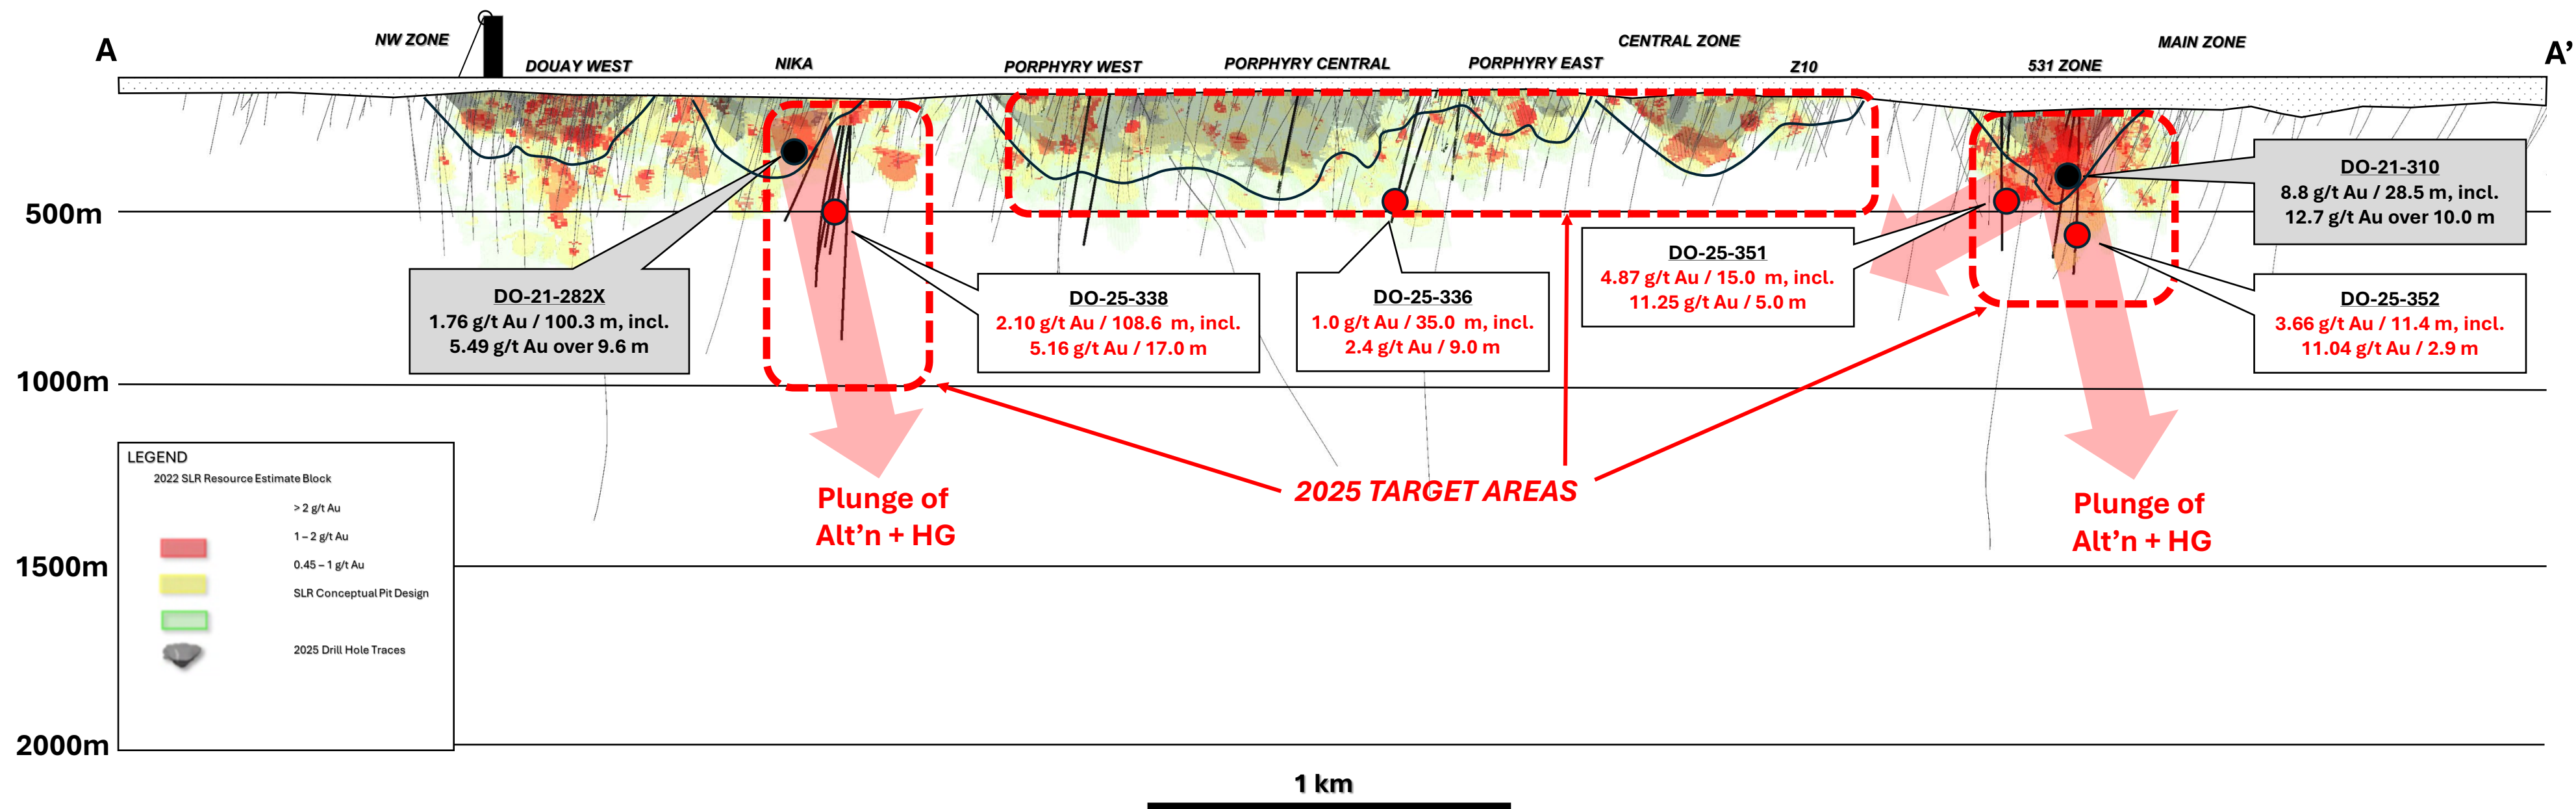

Significant MRE additions anticipated with higher gold price / lower cut-off grade

MGM will maintain focus on resource quality and development potential

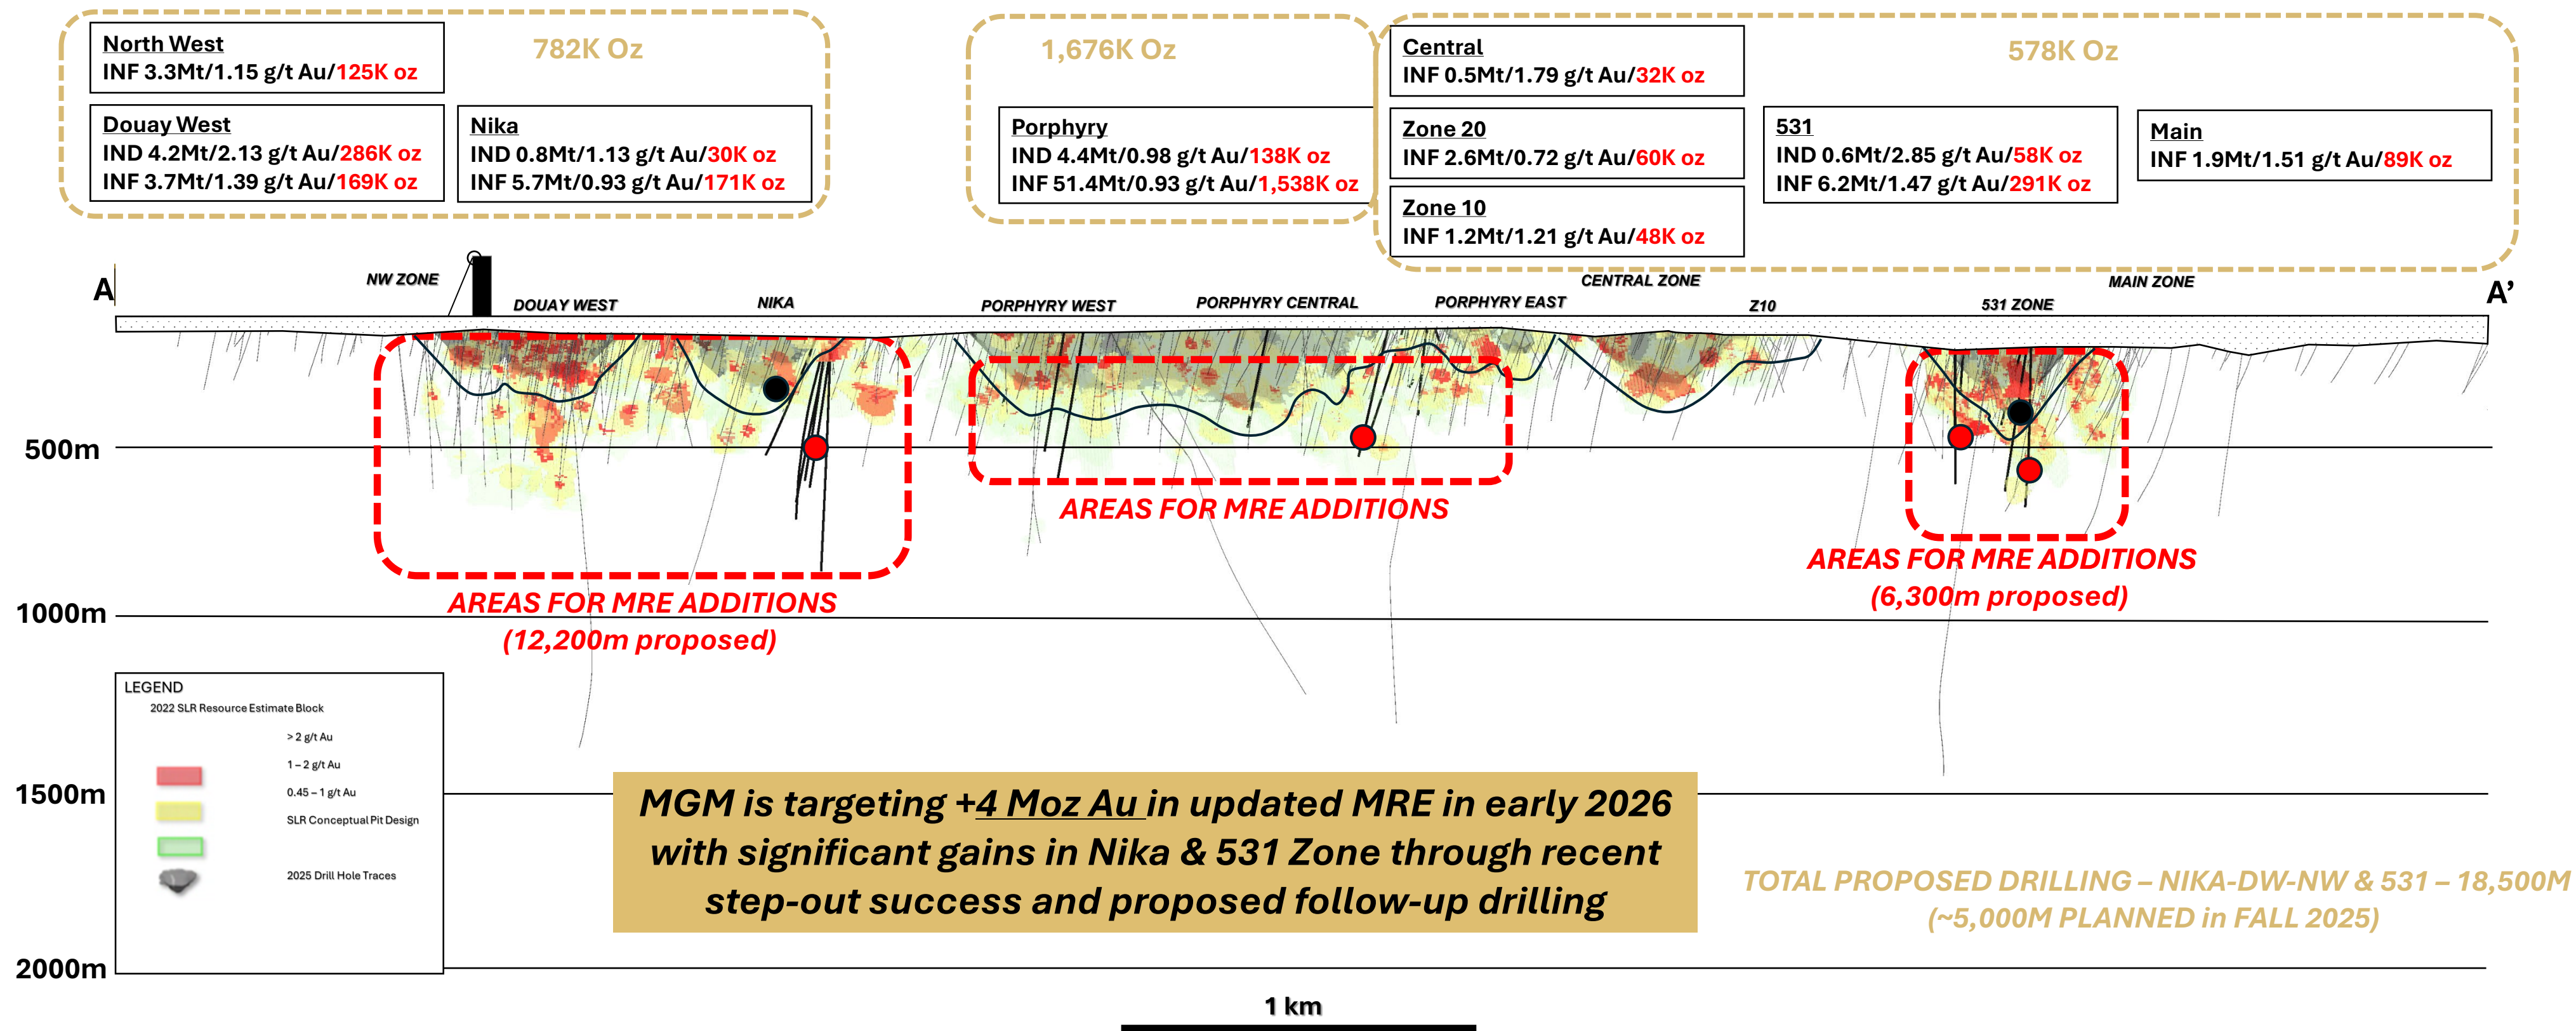

Douay Project: Property-wide Longitudinal Section of Mineralized Zones

Showing 2022 MRE Blocks, 2025 Drill Target Areas and 2025 Completed Holes; Looking 020 Deg Az – 200 m Thick

Douay Project: Property-wide Longitudinal Section of Mineralized Zones

IND/INF in 2022 MRE

Douay Project: Key Ingredients for Finding Gold

- Large regional deep seated structure break (mantle tapping) (Casa Berardi DZ)
- Presence of major intrusive centre along or adjacent to the break (Douay Intrusion and associated syenite dikes)
- Presence of carbonatite dikes and wide-spread fenitization aureole around Intrusion
- Presence of disseminated pyrite, and locally specularite (531 Zone)
- Have enough room and size for world class deposit
- All parameters are inter-related in space so target area of overlap parameters for drilling
- **Discover an economic gold deposit!**

Douay Project: 2025 Exploration Program

Total 2025 Exploration Budget – \$9.8M (~\$5M remaining)

- Phase I (12,240 m) drill program completed between Jan-May 2025
- 70% focused on Douay MRE area and 30% on new discovery targets
- Focus on infill & expansion drilling throughout the Douay MRE to:
 - **Convert** Inferred Resources to Indicated Resources
 - **Grow Resources** within 100-200 m gaps between domains
 - **Target down-plunge, higher-grade extensions** outside MRE area
- Phase I targeted shallow (<500m) portions of the Douay deposit
- Phase II Drilling (~5,000 m planned in Fall 2025) to follow-up on Phase I step-out success, particularly in the Nika and 531 Zones
 - Step-out on higher grade shoots, both up-plunge to surface and down-plunge (>500m)
- Other planned activities at Douay/Joutel in H2 2025:
 - **Summer sonic drilling, prospecting, mapping and sampling**
 - **Douay/Joutel MRE update** and **internal scoping/engineering study**
 - **~5,000 m Joutel drill program**

Drill rig on 1st hole at Douay Porphyry East target (January 2025)

Drill rig on DO-25-338 at the Nika Zone (April 2025)

Douay Project: Engineering & Development

Planned Douay Development Initiatives

- MGM is reviewing/updating the 2022 Douay MRE to **optimize higher-grade resources** and evaluating trade-offs between OP/UG mining scenarios
- Initial focus includes the Douay West zone which currently hosts:
 - Indicated mineral resources totaling 4.2 million tonnes @ 2.13 g/t Au **(containing 286,000 ounces of Au)**
 - Inferred mineral resources totaling 3.7 million tonnes @ 1.39 g/t Au **(containing 169,000 ounces of Au)**
- Douay West has **existing surface infrastructure** constructed by Aurizon in late 1990's including an exploration shaft, mine headframe and mine hoist
- Douay metallurgical testing includes mineralogical, comminution, whole sample leach **(Avg. 81% rec)**, gravity and rougher flotation **(Avg. 92% rec)**, and cyanidation of gravity & flotation cons **(Avg. 83% rec)**
 - **Au recoveries are in line with other similar gold mines in the Abitibi**

Douay Headframe at the Douay West Target

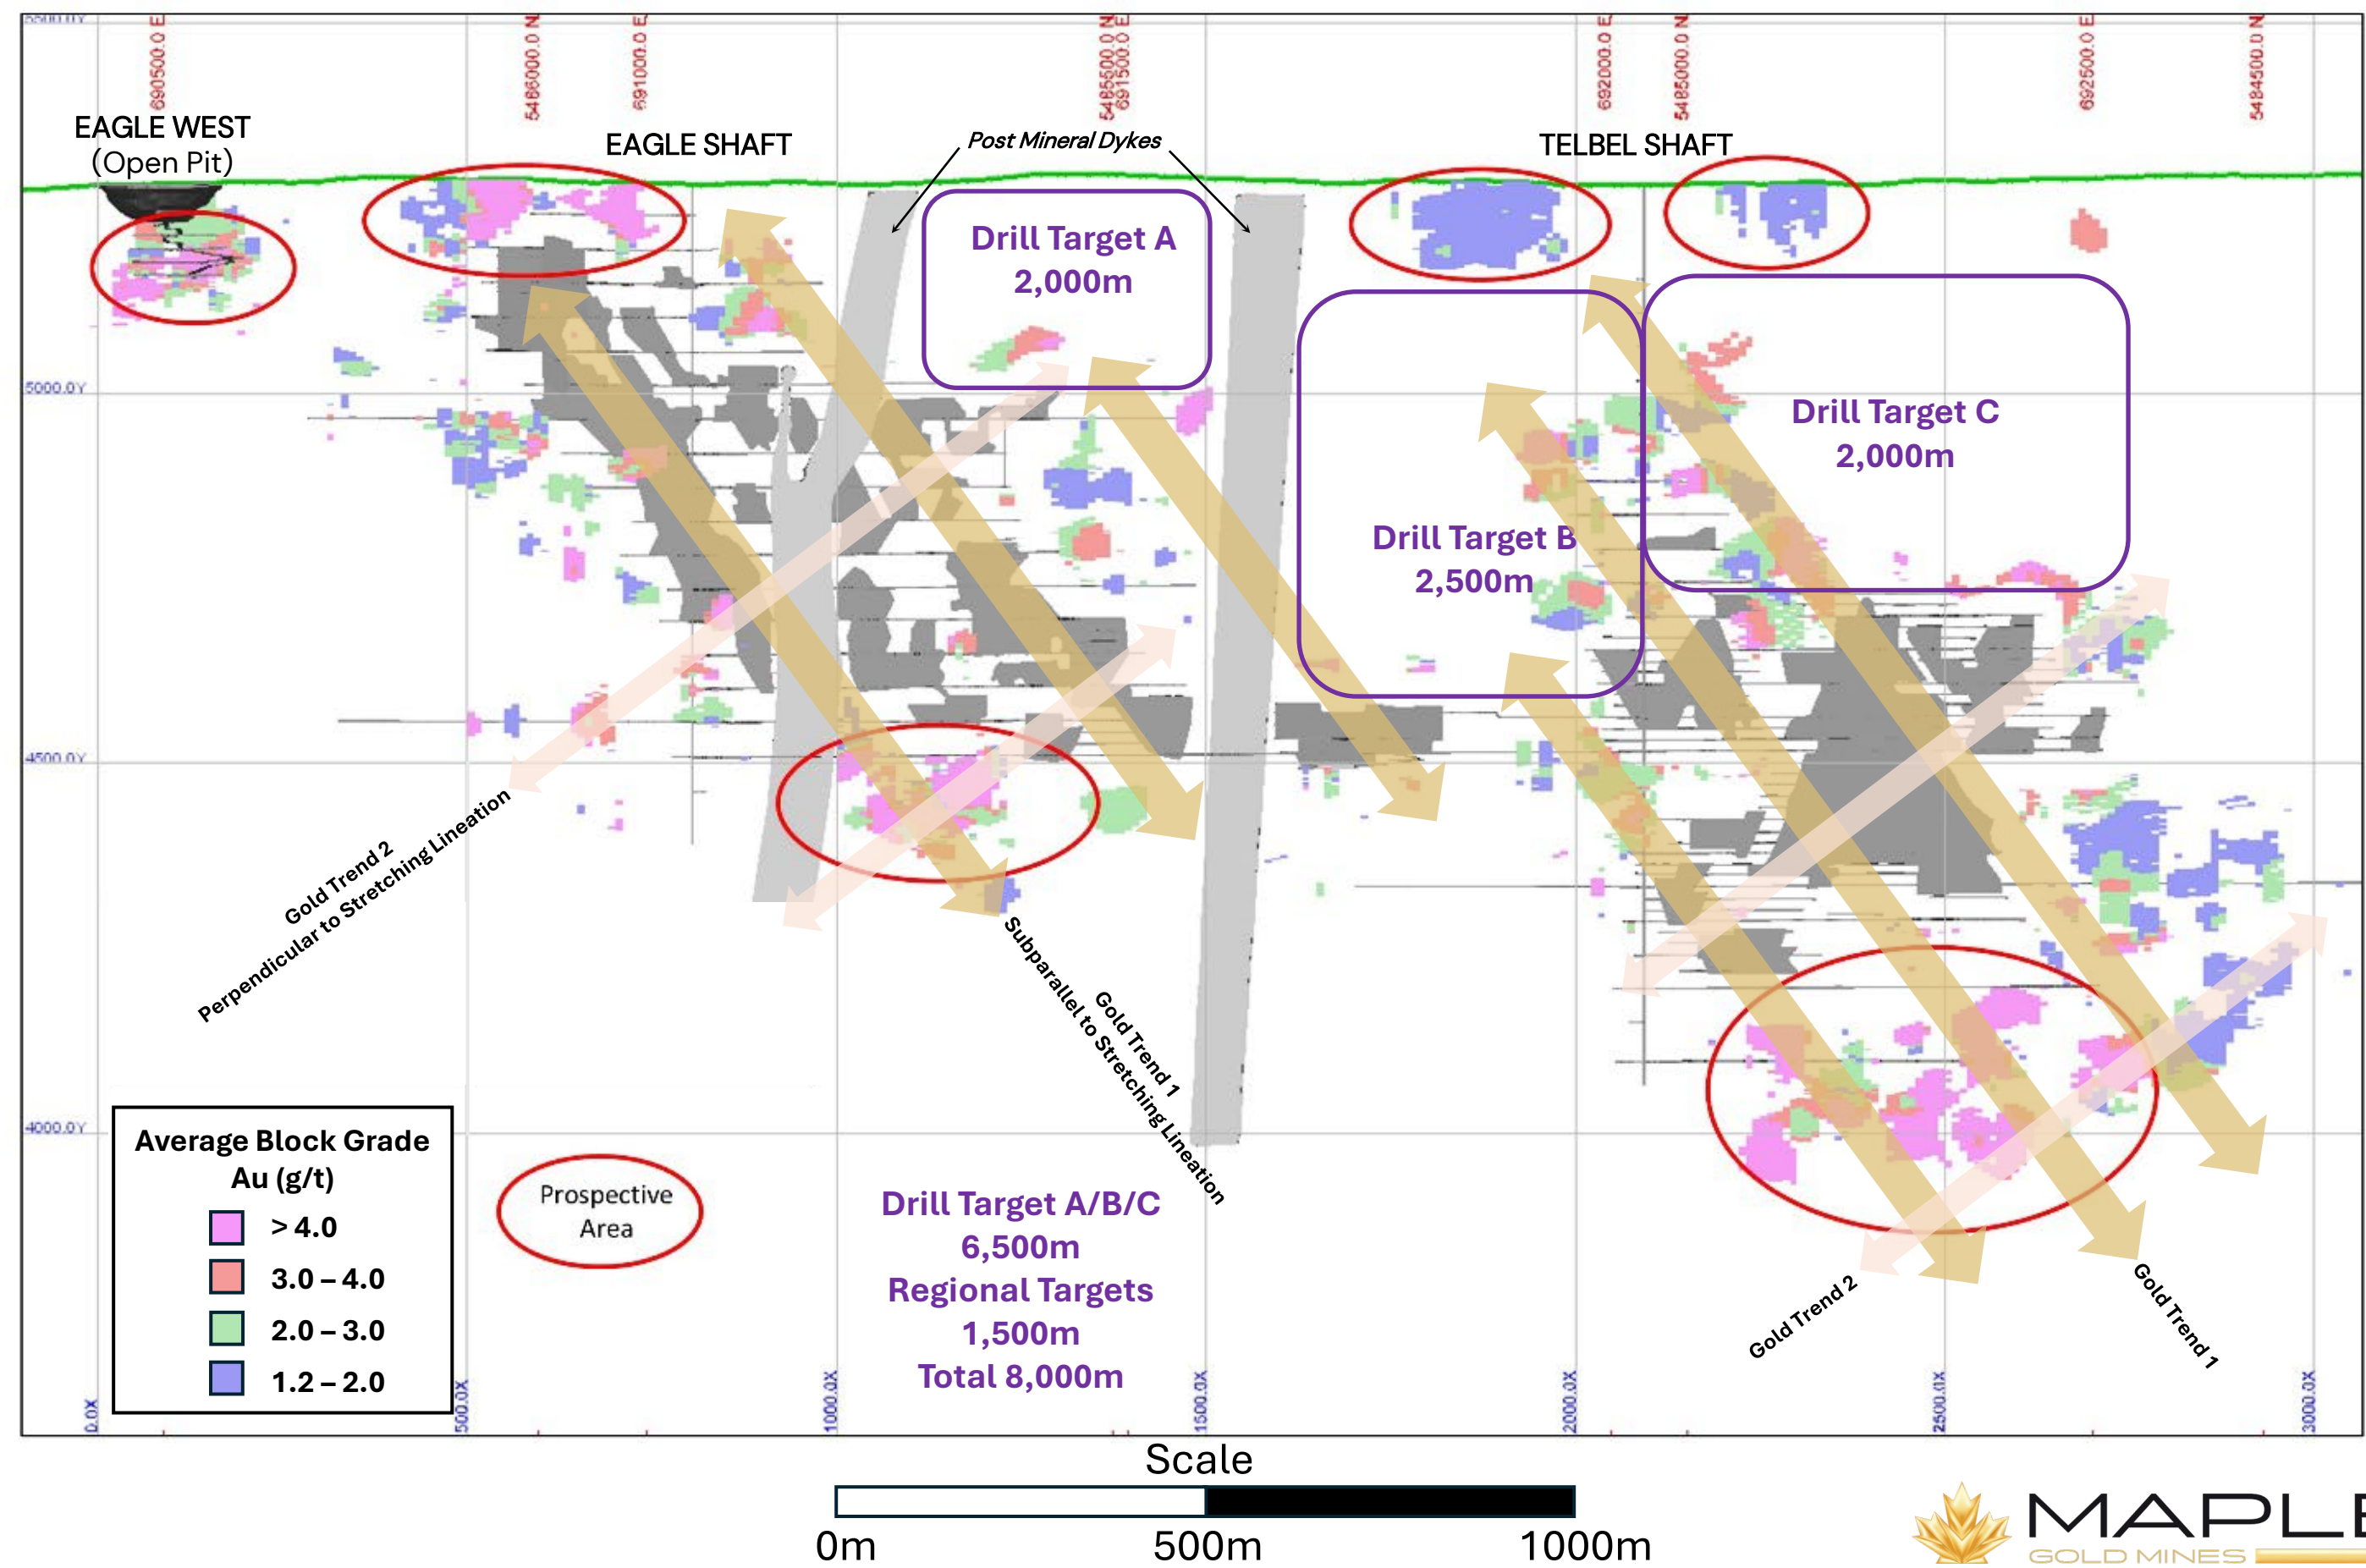

Joutel Project: Eagle Telbel Longitudinal Section

Mineral Resources Potential to Add Au Oz to 2022 MRE

- Advantage Geoservices of Vancouver, BC created a simple block model using the existing DDH database, 3D lithological and mineralized domains, and 3D DXFs of UG workings and mined areas provided by AEM.
- Exercise shows potential for a significant gold inventory near surface, and at depth below the existing UG workings.

MGM is targeting +500 koz Au in updated MRE in early 2026

Vertical Long Section – Looking Northeast
