Notes to the condensed consolidated interim financial statements

Three months ended March 31, 2026, and 2025

(Unaudited)

(Expressed in Canadian dollars, unless otherwise stated)

1. Corporate information and going concern

Maple Gold Mines Ltd. (the "Company" or "Maple Gold") is a company domiciled in Canada. Maple Gold was incorporated on June 3, 2010, under the Ontario Business Corporations Act and was continued under the Canada Corporations Act by articles of continuance dated June 22, 2011, and subsequently was continued under the British Columbia Business Corporations Act on January 7, 2021. The address of the Company's registered office is 2200-885 West Georgia Street, Vancouver, BC V6C 3E8. The Company is primarily involved in the exploration of mineral properties in Quebec, Canada.

These condensed consolidated interim financial statements have been prepared based on accounting principles applicable to a going concern, which contemplates the realization of assets and discharge of liabilities and commitments in the normal course of business for the foreseeable future.

The Company is a resource exploration stage company that does not have production activities that generate revenue, its current funding sources consist of proceeds from the issuance of common shares of the Company. The Company believes that it has adequate financial resources to maintain its minimum obligations; however, the Company's ability to continue as a going concern is dependent on its ability to obtain additional sources of financing to successfully explore and evaluate its mineral properties and, ultimately, to achieve profitable operations. As such, there is a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern.

These condensed consolidated interim financial statements do not include any adjustments to the amounts and classification of assets and liabilities that may be necessary should the Company be unable to continue as a going concern, and any such adjustments may be material.

2. Basis of presentation

(a) Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting, of IFRS Accounting Standards as issued by the International Accounting Standards Board ("IASB"). These condensed consolidated interim financial statements should be read in conjunction with the audited consolidated financial statements for the years ended December 31, 2025 and 2024, which have been prepared in accordance with IFRS.

These condensed consolidated interim financial statements follow the same accounting policies and methods of application as the most recent audited consolidated financial statements of the Company.

These condensed consolidated interim financial statements were authorized for issue by the Board of Directors on May 21, 2026.

(b) Basis of preparation and consolidation

These condensed consolidated interim financial statements have been prepared on a historical cost basis. The presentation currency is the Canadian dollar; therefore, all amounts are presented in Canadian dollars unless otherwise noted.

These condensed consolidated interim financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries). Control exists when the Company has power over an investee, exposure or rights, to variable returns from its involvement with the investee and the ability to use its power over the investee to affect the amount of the Company's returns.

2. Basis of presentation (continued)

(b) Basis of preparation and consolidation (continued)

On January 11, 2021, the Company incorporated a wholly owned subsidiary, MGM Douay Gold Project Ltd, under the Canada Business Corporations Act. MGM Douay Gold Project Ltd. is the Company's only subsidiary.

(c) Critical accounting judgments and estimates

The preparation of the condensed consolidated interim financial statements in conformity with IFRS requires management to select accounting policies and make estimates and judgments that may have a significant impact on the condensed consolidated interim financial statements. Estimates are continuously evaluated and are based on management's experience and expectations of future events that are believed to be reasonable under the circumstances. Actual outcomes may differ from these estimates. The Company's critical accounting judgements and estimates were presented in Note 2(c) of the audited annual financial statements for the years ended December 31, 2025, and 2024, and have been consistently applied in the preparation of these condensed consolidated interim financial statements. No new judgements and estimates were applied for the period ended March 31, 2026.

(iv) Accounting policies issued but not yet adopted

IFRS 18, Presentation and disclosure in financial statements

In April 2024, the IASB issued IFRS 18, *Presentation and disclosure in financial statements* ("IFRS 18"), which replaces IAS 1, *Presentation of financial statements*. IFRS 18 introduces a specified structure for the income statement by requiring income and expenses to be presented in three defined categories (operating, investing and financing), and by specifying certain defined totals and subtotals. Where company-specific measures related to income statement disclosure are provided ("management-defined performance measures"), such as certain non-GAAP measures, IFRS 18 requires additional disclosure around those management-defined performance measures in the financial statements. IFRS 18 also provides additional guidance on principles of aggregation and disaggregation which apply to the primary financial statements and the notes. IFRS 18 does not affect the recognition and measurement of items in the financial statements, nor does it affect which items are classified in other comprehensive income and how these items are classified.

The standard is effective for reporting periods beginning on or after January 1, 2027, including for interim financial statements. Retrospective application is required and early application is permitted. The Company is currently assessing the effect of this new standard on its financial statements but has not yet adopted it.

(v) Prior year comparatives

Certain prior year comparatives have been reclassified to conform with current year presentation.

5. Exploration and evaluation expenses (continued)

(a) Douay and Joutel

On February 2, 2021, the Company and Agnico Eagle Mines Limited ("Agnico Eagle") entered into a joint venture agreement (the "JV Agreement") pursuant to which the parties agreed to form a 50-50 joint operation, which combined the Company's Douay Gold Project ("Douay") and Agnico Eagle's Joutel Gold Project ("Joutel") into a consolidated joint property package. Douay and Joutel (the latter hosting Agnico Eagle's past-producing Joutel mine complex) are contiguous properties located in the James Bay subregion of Northern Quebec.

On December 20, 2024, the Company and Agnico Eagle finalized a definitive conveyance and option agreement pursuant to which the parties completed a transaction (the "Douay / Joutel Transaction") resulting in the Company obtaining 100% legal title in Douay and Joutel. Under the terms of the Douay / Joutel Transaction, the Company granted Agnico Eagle a 1.0% net smelter return royalty over Douay and Joutel and an exclusive option to reacquire a 50% interest in Douay and Joutel at any time from the closing date until 90 days following receipt by Agnico Eagle of a decision made by the Company to construct a mine complex on Douay and/or Joutel, based upon delivery of an NI 43-101 compliant feasibility or pre-feasibility technical report that demonstrates a \$300 million net present value. Additionally, should Agnico Eagle exercise their option, Agnico Eagle would be required to pay to the Company the sum of (i) 200% of the amount of specified project expenditures incurred by the Company following the closing date of the Douay / Joutel Transaction and (ii) \$12,000,000. The option is accounted for as a derivative instrument at FVTPL and had a nil fair value as of March 31, 2026 (December 31, 2025 - \$nil).

(b) Eagle

On July 19, 2021, the Company announced that it had entered into an option agreement with Globex Mining Enterprises Inc. ("Globex") to acquire a 100% interest in the Eagle Mine Property ("Eagle") in Quebec. The Company can earn a 100% interest in Eagle by completing payments to Globex totaling \$1.2 million in cash and shares over a five-year period and incurring exploration expenditures on Eagle of \$1.2 million over a four-year period as outlined in the table below:

Date	Cash Payments		Shares		Cumulative exploration expenditures

(c) *Morris*

On July 22, 2021, the Company acquired a 100% interest in 34 mining claims (the "Morris Claims") located in the Morris Township, Quebec by paying \$5,000 and issuing a 1% NSR in respect of the Morris Claims. The Company subsequently staked additional claims that expanded the Morris property to a current total of 70 mining claims.

6. Flow-through share premium liability

Flow-through share premium liability consists of the liability portion of the flow-through shares issued. The following is a continuity schedule of the liability portion of the flow-through share issuance.

	\$
Balance, December 31, 2024	2,927,686
Liability on flow-through shares issued in October 2025	666,680

Flow-through eligible expenditures incurred and renounced	(202,001)
Balance, March 31, 2026	5,152,558

On February 17, 2026, the Company completed concurrent brokered and non-brokered offerings for total gross proceeds of \$16,000,085 that included the issuance of 4,595,960 flow-through shares at a price of \$3.40 per flow-through share for gross flow-through proceeds of \$15,626,264 (Note 8b). As a result of this flow-through raise, the Company recognized a \$4,687,879 flow-through share premium liability.

During the year ended December 31, 2025, the Company recognized a flow-through share premium liability of \$666,680, relating to its 2025 flow-through financings.

As at March 31, 2026, the Company had a remaining commitment to incur Canadian exploration expenditures ("CEE") of \$21,202,410 by December 31, 2027, of which a minimum of \$9,576,146 must be incurred by December 31, 2026.

FT Shares at a price of \$1.68 per FT Share.

In connection with the financing the Company issued a total of 535,740 compensation warrants (Note 8(d)) to the agents of the brokered offering, in addition to cash commissions of \$780,034. Each compensation warrant entitles the holder to acquire one common share of the Company at \$1.20 per common share, until October 23, 2027.

- (v) On September 9, 2025, the Company closed a \$5,000,000 non-brokered private placement consisting of: (i) 2,500,000 non-flow-through units of the Company (each, a "NFT Unit") at a price of \$0.60 per NFT Unit for gross proceeds of \$1,500,000; and (ii) 4,117,647 charity flow-through units (each, a "CFT Unit") of the Company at a price of \$0.85 per CFT Unit for gross proceeds of \$3,500,000.

Each of the above CFT Unit and NFT Unit consist of one common share of the Company and one share purchase warrant which entitles the holder to acquire one common share of the Company at a price of \$0.85 until September 9, 2028 (Note 8(d)).

- (vi) On July 16, 2025, the Company issued 121,570 common shares with a deemed value of \$100,000 with respect to the Eagle option agreement (Note 5(b)).
- (vii) During the year ended December 31, 2025, 135,000 common shares were issued as a result of the vesting of restricted share units ("RSUs").
- (viii) During the year ended December 31, 2025, 132,500 common shares were issued as a result of the vesting of deferred share units ("DSUs").
- (ix) During the year ended December 31, 2025, 101,668 common shares were issued as a result of stock option exercises. The weighted average share price on the date of exercise was \$1.56.
- (x) During the year ended December 31, 2025, the Company issued 693,806 common shares with respect to warrant exercises.

(c) Share-based compensation plans

On December 17, 2020, the Company adopted a rolling Equity Incentive Plan (the "Plan"), pursuant to which eligible directors, officers, employees, and consultants may be granted stock options, RSUs and deferred share units ("DSUs"). The Plan also includes a purchase program for eligible employees to purchase program shares.

The aggregate number of common shares that may be subject to issuance under the Plan, together with any other securities-based compensation arrangements of the Company, shall not exceed 10% of the Company's issued and outstanding common shares at the time of the grant.

The Company uses the fair value method of accounting for all share-based payments to directors, officers, employees and others providing similar services. The fair value of the share options granted for the three months ended March 31, 2026 and the year ended December 31, 2025, were estimated using the Black-Scholes option pricing model with the following weighted average assumptions:

	2025	2024
	Option grants	Option grants
Risk-free interest rate	2.77%	3.63%
Expected dividend yield	nil	nil
Stock price volatility	79%	83%
Expected life in years	5	5
Weighted average grant date fair value	\$0.55	\$ 0.44

The expected volatility assumption is based on the historical and implied volatility of the Company's common shares. The risk-free interest rate assumption is based on the Government of Canada benchmark bond yields and treasury bills with a remaining term that approximates the expected life of the stock options. For all grants, the assumed forfeiture rate was nil.

(ii) Restricted Share Units

RSU's are granted under the Plan and are accounted for based on the market value of the underlying shares on the date of grant and vest as determined by the Board of Directors. These units are exercisable into one common share once vested, for no additional consideration. They may be redeemed in cash, at the Board of Director's discretion.

The continuity of the number of cash and equity settled RSUs issued and outstanding is as follows:

	Cash Settled RSUs	Equity Settled RSUs	Total number of RSUs
Outstanding, December 31, 2024	10,433	218,734	229,167
Granted	—	265,000	265,000

Outstanding, December 31, 2025 and March 31, 2026	—	302,501	302,501

During the year ended December 31, 2025, 135,000 shares were issued as a result of the vesting of RSUs, resulting in \$114,625 being reclassified from share-based payments reserve to share capital on the consolidated statements of changes in equity.

(iii) Deferred Share Units

DSUs are granted under the Company's Equity Incentive Plan and are accounted for based on the market value of the underlying shares on the date of grant and vest immediately. These units are exercisable into one common share for no additional consideration. In the event a participant resigns or is otherwise no longer an eligible participant during the period, then any grant of DSUs that are intended to cover such period, the participant will only be entitled to a pro-rated DSU payment. These units can be redeemed in cash, at the Company's discretion. The Company did not issue DSUs prior to 2021.

A summary of DSU activity during the period is as follows:

	Number of DSUs
Outstanding, December 31, 2024	157,500
Cancelled	(25,000)
Granted	75,000
Exercised	(132,500)

In October 2025, the Company issued 535,740 compensation warrants in connection with the Company's brokered offering that closed on October 23, 2025. Each compensation warrant entitles the holder to acquire one common share of the Company at a price of \$1.20 per common share until October 23, 2027. The fair value of the compensation warrants was \$408,913 based on the Black-Scholes model using the following assumptions:

	Three months ended March 31, 2026	Year ended December 31, 2025
	Option grants	Option grants
Risk-free interest rate	2.89%	2.80%
Expected dividend yield	nil	nil

11. Segmented information

The Company's operations comprise a single reporting operating segment engaged in mineral exploration in Canada. As the operations comprise a single reporting segment, amounts disclosed in the financial statements also represent segment amounts.

12. Financial instruments

The Company's financial instruments consist of cash and cash equivalents, marketable securities, prepaid expenses and deposits, accounts payable and accrued liabilities and loan payable. The fair values of these financial instruments approximate their carrying values, unless otherwise noted.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following summarizes fair value hierarchy under which the Company's financial instruments are valued:

- Level 1 – fair values based on unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – fair values based on inputs that are observable for the asset or liability, either directly or indirectly; and

12. Financial instruments (continued)

- Level 3 – fair values based on inputs for the asset or liability that are not based on observable market data.

No transfer occurred between the levels during the period.

The Company's financial instruments are exposed to credit risk, liquidity risk, and market risks, which include currency risk and interest rate risk.

(a) Credit risk

Credit risk is the risk that a third party fails to discharge its obligations under the terms of the financial contract and causes a financial loss for the Company. The Company's credit risk is attributable to its cash and cash equivalents and deposits. The Company limits exposure to credit risk on liquid financial assets through maintaining its cash and cash equivalent balances in highly rated Canadian financial institutions. The Company considers the risk of loss associated with cash and cash equivalents to be low.

(b) Liquidity risk

Liquidity risk is the risk that the Company may be unable to meet its financial obligations as they fall due or that it will be required to meet them at excessive cost. The Company reviews its working capital position regularly to ensure there is sufficient capital in order to meet short-term business requirements, after taking into account the Company's holdings of cash. The majority of the Company's cash is invested in business accounts, which are available on demand. The Company manages its liquidity risk mainly through raising funds from private placements. The Company's accounts payable and accrued liabilities are due within twelve months of the statement of financial position date.

The Company's operating cash requirements are continuously monitored and adjusted as input variables change. As these variables change, liquidity risks may necessitate the need for the Company to pursue equity issuances, obtain project or debt financing, or enter into joint arrangements. There is no assurance that the necessary financing will be available in a timely manner.

(c) Market risk

This is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Significant market risks to which the Company is exposed are as follows:

(i) Foreign currency risk

The Company is exposed to currency risk by having balances and transactions in currencies that are different from its functional currency (the Canadian dollar). As at March 31, 2026 and December 31, 2025 and throughout the respective periods, the Company held immaterial balances in foreign currencies. Foreign currency risk is considered to be minimal.

(ii) Interest rate risk

Interest rate risk is the risk arising from the effect of changes in prevailing interest rates on the Company's financial instruments. The Company's exposure to interest rate risks is limited to potential increases or decreases on the interest rate offered on cash and cash equivalents held at chartered Canadian financial institutions, which would result in higher or lower relative interest income. This risk is considered to be minimal.

13. Subsequent Events

Subsequent to the three months ended March 31, 2026:

- On May 5, 2026, the Company announced the accelerated expiry of the common share purchase warrants originally issued by the Company on September 9, 2025 as part of a previously announced non-brokered private placement (the "**September 2025 Warrants**"). Current holders have until June 8, 2026 to exercise the September 2025 Warrants, which entitle them to purchase one common share of the Company at an exercise price of \$0.85 per Common Share. On the date of the acceleration notice, there were 3,830,701 outstanding September 2025 Warrants which, if all were exercised, would result in the Company receiving gross proceeds of \$3,256,096.
- 1,579,499 warrants were exercised, with a weighted average exercise price of \$0.85, for gross proceeds of \$1,342,574.
- 5,833 stock options, with a weighted average price of \$1.25, were exercised for gross proceeds of \$32,299.
- The Company granted stock options to purchase an aggregate of 895,000 common shares of the Company, with an exercise price of \$2.40 per common share. The Options will vest in equal tranches over 12-month and 24-month periods. Once vested, each Option is exercisable into one Common Share for a period of five years from the date of the grant.
- The Company granted a total of 580,000 restricted share units and 105,000 deferred share units to certain directors and employees of the Company. The RSUs will vest in three equal tranches over a 36-month period. Once vested, each RSU and DSU entitles the holder thereof to receive either one Common Share, the cash equivalent of one Common Share or a combination of cash and Common Shares, as determined by the Company in accordance with the terms of the Plan, net of applicable withholdings. DSUs may only be exercised once a director ceases to serve on the Company's Board of Directors. In addition, 3,680 DSUs were issued to a director in lieu of cash director fees earned in 2025, in accordance with the terms of the Plan.
- On the vesting of an aggregate of 154,168 RSU's on April 29 and May 2, 2026, the Company issued 77,084 common shares and paid cash of \$237,104, to cover a portion of withholding taxes due on the vesting of the RSU's.
